MILLINERS IN PARTICULAR IN EVIDENCE Arrivals and Heavy Buying Took

Place in All Depart-

Time Since Last Spring.

Last week was a busy time with Omaha obbers and manufacturers. More buyers were on the market than during any week ince spring trade was in full swing. No since spring trade was in full swing. Not only were buyers numerous, but they were also looking for large stocks, and as a result wholesalers did a rushing business. Each week seems to make retailers more confident that they are going to sell more goods this fall and winter than ever before, which explains the liberal orders now being placed. Another favorable feature which was noticed last week was the large number of new customers. Previous to this season they had been going east, but decided to give Omaha a trial, and so jobbers have some of the largest orders on their books that they have ever taken. Each have some of the largest orders on their books that they have ever taken. Each ness in Omaha's territory that pass this market by in favor of some eastern city is growing smaller and jobbers hope in a short time to make the number practically zero.

The special railroad rates of a fare and a

a short time to make the number practically zero.

The special railroad rates of a fare and a fifth were in force last week and the good effects of the reduced rates were plainly evident. There is undoubtedly a growing tendency on the part of merchants to come to market at least twice a year, instead of depending upon traveling men's amples from which to select their stocks.

The markets are in very much the same position they were a week ago. A few changes have taken place, especially in groceries, but nothing of any great importance has been reported. As a general thing prices are firm all along the line, with the outlook favorable for continued healthy markets.

Canned Salmon a Little Higher. without morrgage or indorser. We do not deduct interest in advance, we charge

Canned Salmon a Little Higher.

Wholesale grocers report the volume of business for the week as being very satisfactory. There has, however, been a little disappointment in the movement of some lines of canned goods and especially of tomatoes and corn. That probably is due to the large amount of garden truck which has been available throughout the season at low prices. The most important item in canned goods during the week is the opening of prices on Bockeye salmon. The season's catch amounts to something like 508,000 cases and the opening prices are about 30c per dozen higher than a year ago. It is thought that the market on Red Alaska salmon will be affected to a greater or less extent by the advance in Sockeyes and a sympathetic advance may take place. Bed Alaskas could be advanced life per dozen or more and still retail at that price is always popular.

The dried fruit market continues rather duil. There is, however, a fair demand for apricots, but other lines are quiet.

Rolled oats are a shade easier, but manufacturers claim that they are experiencing considerable difficulty in getting good milling grades from the present crop, as there is a good deal of rust.

The sugar market is in just about the same position it was a week ago. The demand, though, is still increasing and jobbers look for the heaviest trade of the Canned Salmon a Little Higher.

Red Alaska sulmon will be affected to a grother or less extent bytic extense may take place. Red Alaskas could be advanced lie per dozen or more and still retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that can retail at 15c per tin and a brand that they are experiencing considerable difficulty in getting good milling grades from the present crop, as there 18 a good deal of rust.

The sugar market is in just about the same position it was a week ago. The demand, though, is still increasing and jobbers of softing the next six section.

The announcement is made by the Continental Tobacco company that all their brands of both smoking and chewing tobacco will be advanced September 15 lop per pound. This will make the second advanced was perfected and the consumer receives and price it was before the reduction. In other words, the manufacturers are now getting the revenue that the government previously received and the consumer receives are that it will continue so throughout the season.

Stoves Advanced Five Per Cent.

All lines of fall and winter goods are being shipped out by hardware jobbers at a rapid rate. The demand so far has been also higher, the advanced so per cent, local jobbers have not yet raised their prices to speak of, but say they are liable to do so at any time. Washing machines are also higher, the advance amounting to goods are unchanged, but still the market prices to speak of, but say they are liable to do so at any time. Washing machines are also higher, the advance amounting to goods are unchanged, but still the market was final at the seas A. C. VAN SANT'S school. 717 N. Y. Life.

so at any time. Washing machines are also higher, the advance amounting to from \$2 to \$3 per dozen. Other staple goods are unchanged, but still the market is very firm and goods are hard to obtain.

Dry Goods Moving Freely. There was a big increase last week in the number of buyers that arrived on the dry goods market, but still more are looked for this coming week. Jobbers anticipated the rush to start in about this time, but the number that is actually arriving is far in excess of their expectations. Not only that, but they are placing very heavy orders, and when comparisons are made with a year ago it is seen that nearly every regular customer is buying more freely than ever before. Every one seems to be in a hopeful frame of mind and full of confidence for the future. They are also in good shape financially, so there seems to be nothing that either retailers or jobbers can complain about. bers can complain about.

Bo far as the market is concerned, there is not much to be said. Cotton goods are still very firm and popular lines are getting more difficult to obtain each week. The way things look now, there will be a shortage in a number of lines within a short time.

Big Rush of Milliners.

Milliners took the city by storm, as it were, last week and there were more registered than ever before. Seventy-five to a hundred buyers visited one house alone. This is the first fall opening of the season, and still more buyers are expected this week. Very liberal orders were placed and it was noticeable that they were after good stuff.

LEGAL NOTICES.

PROPOSALS FOR ERECTION OF SCHOOL HOUSE.

Notice is hereby given that sealed proposals for the erection of a six-room frame school house in School District No. 7, Burt Co., Neb., will be received by the undersigned at Decatur, Neb., until 2 o'clock Bept. 8, 1962.

Plans and specifications may be seen at the shop of Butts Bros., Decatur, Neb. and at treasurer's office, Tekamah, Neb. The board of said school district will meet at 8.39 o'clock Monday, Sept. 8, to award the contract to the lowest responsible bidder. Each bidder will be required to put up a certified check of \$100.

The board reserves the right to reject any or all bids.

E. J. GRIFFIN.

Sec. Board of Education.

CONDITIONOF OMAHA'S TRADE

Nothing seemed too high-priced for them and the cheaper grades, as a rule, were neglected and the medium high-priced ones favored. Jobbers are more than pleased with the way the season is opening, and say that they will go far ahead of last fail's trade, which was a record-breaker.

Leather Goods in Demand.

Although the general impression for some little time has been that nearly all the fall bills of leather goods had been sold, still local jobbers are picking up a good many liberal orders, both through traveling salesmen and in the house. An unusually large number of buyers strived in the city last week and bought quite freely. Those who had bought the talk of their goods wanted a few more lines to fill in with and those who had not bought much of anything were after big stocks.

The bulk of the advance orders of leather goods have been shipped, so that jobbers are in good shape for handling immediate business. Rubber goods are now being moved as rapidly as possible and some of the houses have shipped a good many of their orders. Rubber ciothing continues in exceptionally good demand for this time of the year, owing to the cool weather and frequent rains. Traveling men are meeting with good success with their fall lines of both footwear and clothing, and, if the season continues wet, jobbers say they will do an enormous business.

Fruits and Produce. Leather Goods in Demand.

The demand for fruits kept up last week in very satisfactory manner and in fact a better trade has seidom been experienced. Peaches, plums, prunes and pears were the best sellers, though melons and grapes are coming in for considerable attention. There were peaches on the market from California, Arkaneas, Missouri and Colorado and the prices being quoted on the different kinds will be found in another column. Utah fruit is expected to arrive this week, and, according to all reports, it will be fine.

There has been no particular change in vegetables, as prices are about the same. The receipts of butter and eggs have been heavy and the quality of the butter has been poor, while eggs have been unusually good for this time of year, owing to the cool weather. The markets have been rather dull and weak.

Spring chickens were in good supply all the week and as a result the market cased off a little. Hens, however, held good and firm.

Corn and Wheat Are Animated and Former is Bull Lender.

PROVISIONS RECEIVE PACKERS' SUPPORT Onts Alone Are Languid, While Other

Cereals Are Firm or Strong, and Land Advances Before

CHICAGO, Aug. 22.—Corn was the bull lader in an active grain market again to-ay. Fears of frosts in the corn fields eld in a natural advance, but there was day. Fears of frosts in the corn fields held in a natural advance, but there was something of a manipulative aspect to trade that aroused a nervous dread in speculators who went short yesterday. In the other pits much the same conditions as prevailed of late were factors—poor grading, fair cash demand and weather fears. Wheat was aided materially by reduced receipts and immense export clearances. At the close September corn was like higher, September wheat 4/2c up, S

icars. Wheat was sided materially by reduced receipts and immense export clearances. At the close September or was presented by the control of the banks in reduced receipts and immense export clearances. At the cutset there was a little offered and prices dipped momentarity. But at once a good demand set in and buils let go of nothing save at good profits. Influential houses took on big quantities of both September and December, while sellers who wanted to let go were only scattered. The coolness of the weather gave rise to some apprehension of frosts and fear of that was augmented by dispatches from the interior which stated that frost had already done some damage. This steadled December, and September, which needed only continued manipulation to boost it, jumped upward rapidly. Yesterday's shorts covered and September sold from 55½c to 57½c and closed 1½c up at 55%c. Receipts were 4i cars, only five of contract grade.

Leading elevator interests were under wheat. September had a good buying superi active lapsed ago and the continuent of the second and a fair cash demand and export clearances in wheat and flour equaling, 1,61,500 bushels put September to 72½c. The local crowd was inclined to the bear side, but changed front to some extent on fears of manipulation to the september opened \$\frac{1}{2}\$c to \$\frac{1}{2}\$c down at Tic to \$\frac{1}{2}\$c. Crn strength started a reaction and a fair cash demand and export clearances in wheat and flour equaling, 1,61,500 bushels put September to 72½c. The local crowd was inclined to the bear side, but changed front to some extent on fears of manipulation in the September option, Receipts were 250 cars none of contract grade, and Minneapolis and Duiuth receipts were 250 cars none of contract grade, and Minneapolis and Duiuth reported 156 cars, making a total for the fair of the September of 12½c. The local crowd was inclined to the was fittle rallying a were 250 cars none of contract grade, and Minneapolis and Duiuth receipts were 250 cars none of contract grade, and Mi

Provisions had good strength on packers' revisions and good strength on packers support, particularly the nearer months. The outside sold the distant futures on a somewhat easy hog market and the slowness of the pit. September pork closed 15c higher at \$16.80, September lard 71/5c up at \$10.85 and September ribs 71/5c higher at \$16.10. Estimated receipts for Monday: Wheat, 245 cars; corn, 55 cars; oats, 255 cars; hogs, 30,000 head.

NEW YORK STOCKS AND BONDS Despite Brisk Operations by Specula

NEW YORK, Aug. 23.—The interest in today's stock market was rather languid in spite of some brisk operations on the part of the speculative pools and a substantial increase in the surplus of the banks, which is usually made a signal for an upward movement in stocks. It did not escape notice, however, that the actual receives of the banks falled to show the expected improvement, the turn in the tide of the subtreasury operations having taken up entirely the contribution to the money market made earlier in the week, so that the cash of the banks was decreased some \$377,300.

The contraction in the loans of \$10.480,100. tive Pools Interest Wanes.

the contraction in the loans of 10,460,100 shows that the funds which supplied the stock market during the week came from the trust companies and from proceeds of borrowings abroad, as had been supposed.

The action of the banks in reducing their team account in the banks in reducing their team accounts the state of the state of

The action of the banks in reducing their loan account is in expectation of the coming demand from the interior, which has evidently set in for the season.

The decision to postpone the dissolution of the Southern Railway voting trust, by refraining from the declaration of the dividend on the preferred stock had only a slightly depressing effect upon that company's stocks, as it is supposed to be a step toward the competion of the arm with the Louisville & Nashville.

Colorado Fuel was erratic and became weak after an early advance. The newly arrived operator whose buying advanced southern Pacific published extensive auncuncements to explain the faith that was Southern Pacific published extensive annuncements to explain the faith that was in him, and the demand for Pennsylvania was supposed to come from the same source. The moderate advances that toiliowed the movements and the publication of the bank statement met selling to realize and the market closed irregular.

The bond market was unsettled this week by the reduction of the yearly interest disbursements on the Central of Georgia first income bonds from 5 to 3 per cent and resulting in active liquidation. The market has been higher and the only important dealings have been in the speculative issues. United States new 4s and old 4s advanced by the 2s is and the 5s is per cent as compared with the closing call of last week. The following are the closing prices on the New York Stock exchange:

The following table shows the receipts of cattle, hogs and sheep at South Omaha for the year to date and comparisons with last parisons with former years:

Date. | 1902. |1901. |1900. |1889. |1885. |1897. |1896.

* Indicates Sunday. The official number of cars of Cattle, Hogs, H'r's. & M... B. & Q... R. I. & P., east. R. I. & P., west. Wabash

The disposition of the day's receipts was follows, each buyer purchasing the number of head indicated: Omaha Packing Co..... 26 Cattle, Hogs, Sheep

CATTLE—A few cars of cattle arrived this morning, but they were not offered on the market, so that a test of values was not made. For the week, however, as will be seen from the table above, the supply has been very liberal, and in fact western cattle have never come in as freely in August as they have this year. The increase in cattle for the year to date as compared with 1901 amounts to over 35,000 head. In spite of the liberal run all the week corn-fed steers have been very scarce and especially good to choice grades. It is safe to say, however, that the kinds that sell from \$7 up are just about steady for the week. Those that sell from \$7 down, however, come in competition with the western rangers and are 19625c lower for the week. The best grades of cows are very little if any lower than they were at the close If any lower than they were at the close of last week. The medium grades, though, have eased off and are 10%20c lower for the week. Canners have not shown much of any change. The demand for cows has been quite active and the market on the

have eased off and are 10%20c lower for the week. Canners have not shown much of any change. The demand for cows has been quite active and the market on the whole very satisfactory.

Good bulls are about steady for the week, but common kinds are a little dull and lower. Good feeder bulls have been in active demand and fully steady. Veal calves have been scarce and have not shown much change. Stags are also selling in about the same notches they were several days ago.

There has been a big run of feeders here all the week, and in fact the big end of the receipts consisted of stock cattle. The good dehorned feeders, though, have held up in good shape and are right close to steady for the week. The common horned cattle, are all the way from 25c to 40c lower for the week. Prime yearlings have been in good demand and are just about steady.

Western cattle, of course, made up the bulk of the receipts all the week, and as supplies were heavy at all points packers naturally pounded the market. The best grades are probably only about 15%25c lower. The kind of cattle that make either good killers or good feeders are not much of any lower, as competition is sufficient to hold the market about steady. The grades, though, that are not very fat and that feeders do not want have suffered the most and they go at 50%75c lower. The horned cattle lacking in quality come under that heading, also dehorned cattle have been shipped out every day.

Range cows of good quality have held right close to steady, but the medium grades are 10%20c lower. Canners are also about steady. Representative sales:

HOGS—There was not a heavy run of hogs here today, but reports from other points were rather bearish, and as a result packers took off a little here. The market opened steady to a shade lower on the good light and butcher weight hogs, about steady. Representative sales:

HOGS—There was not a heavy run of hogs here today, but reports from other points were rather bearish, and as a result packers took off a little here. The market opened ste

SHEEP—There were no sheep on sale today with which to make a test of the market. For the week, however, receipts have been quite liberal, a big gain having been made over the corresponding week of last year. As compared with last week, however, there is a slight decrease.

Owing to the liberal runs at all points the general tendency of prices has been down-Owing to the liberal runs at all points the general tendency of prices has been downward. Prime yearlings are about steady, though in some cases the are, perhaps, a trific lower. Ewes and wethers are a little lower, but the decline would be covered by 16g15c. The lamb market is what has suffered the most, as prices are 50g75c lower than they were a week ago. The break is not limited to this market, however, as a corresponding decline has taken place at other markets. The demand for feeders has been fully equal to the supply, and the market may be

soted active and strong on all desirable grades.
Questions for clipped stock: Good to choice yearlings, \$3.7594.00; fair to good, \$3.5093.75; good to choice wethers, \$3.2597.50; fair to good wethers, \$3.2597.50; fair to good ewes, \$2.5095.25; fair to good ewes, \$2.5095.25; fair to good lambs, \$5.0095.25; feeder wethers, \$2.7092.35; feeder yearlings, \$3.2593.50; foeder lambs, \$3.5094.25; feeder ewes, \$1.7592.30, Representative sales:
