think of as typical of the United States throughout its history, the qualities of rugged independence, masterful resolutions and individual resource.

The other day I picked up a little book called "The Simple Life," written by an Alsatian, Charles Wagner, and he preached such wholesome, sound doctrine that I wish it could be used as a tract throughout our country. To him the whole problem of our complex, somewhat feverish modern life can be solved only by getting men and women to lead better lives. He same that the permanence of liberty and democracy depends upon a majority of the people being steading in that good, plain morality which, as a national attribute, comes only as the result of the slow and painful labor of centuries, and which can be squandered in a generation by the thoughtless and vicious.

BLACKBURN INSISTS ON THE TEST OATH

The conference between the candidates for congressional fomination brought no results Wednesday afternoon. It was held at the office of W. F. Gurley, with Candidates Cornish, Breen and Pratt present Mr. Mercer was represented by Mr. Blackburn and before the conference broke up

in, but took no part in the proceedings. Before the candidates presented their objections to the arbitrary action of Mr. Mercer's committee the chairman of that committee stated that he was willing to waive the payment of the \$50 entrance fee and would consent to consult upon the judges and clerks and the location of polling places.

The candidates then gave their principal causes for objection, saying that upon their side they would waive the unjust apportionment, would consent to a convention of delegates elected at primaries, would accept the judges and clerks as agreed upon by the joint committee with the distinct understanding that it should not afford a precedent. Then came the points on which there was no concession.

Mr. Blackburn insisted upon having the names of the congressional candidates appear upon the official ballot, with the SALT LAKE CITY, Aug. 27.-Sheriff statement that a vote for the candidates for delegates would be a vote for the conday made a formal appeal to United States gressional candidate whose name appeared Senator Rawlins for the relief of the at the head of the list. Purther than this, the judges and clerks—the majority Mercer men—are to apply a test oath. These boards may apply almost any test and the voter is at their mercy, I deny the rights of any judge to ask any man who he is going to support at an election. The right to vote a secret ballot is one of the rights of American citizenship and I deny the right of any man or act of men to invade that secrecy. They cannot extort more from him than is required by the naked law.

We simply want what's fair. We want no advantage of Mr. Mercer and the county declared the vote of that county declared the vote of

desire to make a change? Mr. Mercer named every member of that committee and when he wants to make a change it is suspicious. No candidate but Mr. Mercer knew that there was to be a delegation selected in Washington county when it was done, but if any candidate should ask to have a new selection there we might anger sufficient voters to give the democrats a majority. We have therefore conceded him that delegation. Down in Sarpy county they attempted to do the same thing. I told members of the committee it was illegal, but the postmaster said it was customary and that it was my misfortune if the congressional committee was against me. We had a contest and I carried every precinct but one in Sarpy county.

against me. We had a contest and I carried every precinct but one in Sarpy county.

I have eight delegates from Sarpy county. He has fifteen from Washington county. If we have no county convention in Douglas county his higher number will be effective. We conceded that. Then comes the apportionment. Mr. Mercer has appointed the postmasters of the county, has scattered seeds and literature at government expense, but in every case he has followed the gift with a letter saying that he expects the recipient's support. Recent events have weakened him in Omaha with the laboring population and he believes he can do more with the farmers; therefore he gives to the 1,200 votes in the county forty delegates and to the 10,000 votes in the city seventy-three delegates. But we have walved that. In 1901 Mr. Mercer made the first trade with the country delegates, giving them three times the number of delegates they are entitled to, but we cannot resist because it would probably allenate enough votes to elect the democrat.

When that committee has allied with it every interest which the people will not trust it is time to call a halt. In spite of the chairman we have succeeded in calling together the county committee and we are going to ask for fair play. Such an appeal will not go unheeded. I don't want them to trust me. I want them to let the legal authorities select the judges and clerks. If there is any contest I want to know that at least one judge would not sign his name to the ballot unless if was used right. Surely after Mr. Mercer has Grawn 350,000 from the people and been given a mirry around the world twice he should not do anything to tend to the election of a democrat.

Why does he want a change? Deception is in the air. I was told today that while in the late. Mr. Goss of the county committee came

trip around the world twice he should not do anything to tend to the election of a democrat.

Why does he want a change? Deception is in the air. I was told today that while I am a good man, I must be shot in order to kill Mr. Rosewater, who is said to be holding me up. This is deception. Captain Broatch knows I am no tool of Mr. Rosewater. Dave Mercer knows I am no tool of Mr. Rosewater, and no candidate who will speak to you tonight is a tool of Mr. Rosewater.

The first time I became prominent Mr. Linniger was candidate for mayor. Dave Mercer was the chairman of the committee and succeeded in getting as his assessment the unprecedented sum of \$2,000 and many republicans knifed Mr. Linninger. I was a young man then and thought it was my duty to stop the knifing if possible. Since then I have always said: "Don't dull the tool you expect to use." When any man attempts to say that I am the tool of any man he is deliberately falsifying and riany put us in a place where the knife will be used on the party.

N. C. Pratt followed, saying in part:

N. C. Pratt followed, saying in part: It is a very serious thing which confront us. There is a time when for the good of us. There is a time when for the good of the party one man must be inconvienced. In considering the candidate it is not only necessary to look to his ability, but availability. When a man has so conducted himself as to lose the confidence of the laboring people he is not entitled to recognition by the party. I believe the time has come when it will be to the best interest of the party to elect someone besides Mr. Mercer to congress. The party has looked to the interests of the whole people and not the interest of any one man, and this year should be no exception.

The meeting closed by a story told by W. A. DeBord, illustrating the idea that no candidate should take any steps which would injure the party.

Ocean Liner Has More Than Thousand Passengers, Who Have to Be Shifted to Keep Dangerous Hote Above.

NEW YORK, Aug. 27.-In broad daylight and bright sunshine a collision which might have resulted in a dreadful calamity occurred in New York harbor this aft ernoon between an incoming passenger liner and an outbound freight steamer. The steamship Liguria of the Italian Royal Mail Steamship company, with over 1,100 passengers on board, was run down in the Narrows by the British steamer Peconic of the Mediterranean and New York Steamship company, bound out for ports in the Mediterranean. A succession of whistle blasts, just how blown could not be learned, was followed by a tremendous crash and Peconic's bow smashed into the

mast. The Italian's hull was cut to the water's edge and water poured into the aperture. Peconic as it drifted away, scraped the white buil of Luiguria and carried away the companion ladder. The bow of Peconic on the port side was stove in and the stem turned to starboard. On board the liner all was confusion for a few minutes but Captain Montano restored order promptly and forced the steerage passengers over to the starboard side in order to bring the hole cut by Peconic above the water. This effort was so successful that very little water entered the liner.

for London Editorials. LONDON, Aug. 28.-President Roose velt's declarations on trusts and the Mon-

roe doctrine are both subjects of extensive comments in the London press this morning. Discussion of the former matter centers less upon the intrinsic merits of the trust question than upon the outcome of the presidential struggle with the party leaders. All the newspapers express admiration of President Roosevelt's courage and boldness, but hesitate to predict the result.

The Daily Nows says: "Many chances are on Mr. Roosevelt's side. St. George goes out to meet the dragon and the wishes of the whole world will be with him in his fight."

The Daily Telegraph expresses the

opinion that the trust question will prove to be the most epoch-making issue in American politics since Bryan's schism on silver, and says there is absolutely no discernible limit to the vista of political convulsions, vicissitudes and divisions which may be the outcome thereof. While recognizing the danger of the unchecked growth of commercial combines, this paper finds it difficult to conceive of any form or process of interference which would not produce a tremendous financial crisis and jeopardine America's economic supremacy It contends that tariff reform would, politically and economically, be the least dangerous and the most effective way of keeping the national monopolies in order. The Morning Post and the Daily Chronicle both admit that Great Britain has no cause to cavil at what they characterize as "President Roosevelt's modified interpretation of Monroeism, which, plainly stated, they declare to be a sanctification of the status quo on the American continent and which the Post says that means that British possessions in the Americas are to be secured by what is practically a United States guaranty. The Post expresses the hope that President Roosevelt's declaration foreshadows the acceptance by the United States of its responsibilities for the keeping of better order in the South American republics.

The Chronicle thinks the matter wears a different aspect to the continental powers, who see in South America the last and the most tempting field for colonization and for new markets. This paper doubts, however, whether any power will risk the tremendous chances of war with the United States, be the prize never so seductive "One thing seems clear," says the Chronicle. "if Monroelsm is ever seriously challenged it will be soon. The United States appears to realize this and is building a fleet to defend the doctrine."

The Times says it believes Pres'dent Roosevelt has reasserted Monroeism in a more distinct and direct form than it has son arrived here today and found at their been presented to the world by any person row. HARRISBURG, Pa., Aug. 27 .- The Second troop, Philadelphia City cavalry, was this evening ordered by Governor Stone to report to General Gobin at Shenandoah for duty in the anthracite coal regions. The troop will take the place of the Governor's troop of Harrisburg, which was sent by General Gobin from Shenandoah to Lansford, where there had been serious disturbances. The request for the City troop was made by General Gobin today and the governor immediately directed that the troop start for Shenandoah and assist the militia now in the field to protest life and property. No additional troops will be sent to the strike region unless there is another serious outbreak.

Anticipating Trouble. SHENANDOAH, Pa., Aug. 27.—The Governor's troop, under command of Captain Ott, left here at 7:30 o'clock tonight for the Panther Creek valley. The Second City troop of Philadelphia, under Captain Schermerhorn, has been ordered by Governor Stone to report to Colonel Clement, who is in command here during the absence of General Gobin.

Major Gearhart, who is in command of a hattalion at Manila park, reported to Colonel Clement today that things have been in such a state of turmoil in the Panther Creek region during the last few days that he has been unable to cover the disturbed district with the force at his command and asked for assistance. The colone at once got into communication with Governor Stone and it was decided to send the Governor's troop to Gearbart's assistance and to reinforce the command here with the Philadelphia troop. A nonunion workman named Quinn was attacked by a crowd of strikers near the Cambridge colliery at the lower end of this city and was being roughly handled when two of his friends rushed to his assistance and kept the crowd back with drawn revolvers. In a few minutes all three were surrounded by a crowd of several bundred men and boys and only the timely arrival of Provost Marshal Farquhar with a detail of soldiers from the

TAMAQUA, Pa., Aug. 27.-The situation in the Panther Creek valley tonight is serious. At 8 o'clock the streets of Lansford and Summit Hill were thronged with strikers. Early in the evening two companies of the Twelfth regiment were sent through the valley on a trolley car. All along the line the soldiers were hooted and jeered and it was not deemed prudent to take them off the cars. Women Start Trouble.

Eighth regiment prevented serious trouble.

While Mary Markley was carrying supper to her brother, who is employed at a colliery near Lansford, she was set upon and severely beaten by a crowd of women. Late tonight the crowds on the streets have dwindled down considerably and order has been partially restored. The civil author- gestion, assimilation and nutrition. Kodel the strikers in the morning. Interfere with the Trolley Lines in Order to Delay the Transfer of the Soldiers.

TAMAQUA, Pa., Aug. 27 .- Several poles of the trolley line which runs from this place to Summit Hill were chopped down today and the wires cut. This was probably done to prevent troops from being taken from Manila park, where they are encamped, to Lansford and Summit Hill. Major Gearhart outwitted the strikers.

however, by taking two companies of soldiers to Summit Hill an hour before they were expected. In Lansford, Summit Hill and Coaldale the detachments of soldiers that were sent out at daybreak to preserve order and protect nonunion men were greeted by large crowds of strikers who hooted and called

them names. At Coaldale the soldiers were compelled o get off the cars and force the mob back from the tracks. In Lansford a crowd of women joined in hooting the guardsmen. Major Gearhart admitted that the situation is serious. He would not say whether he would ask for reinforcements.

WILKESBARRE, Pa., Aug. 27 .- President Mitchell of the United Mine Workers said today that he had no comment to make on the meeting of coal operators held in the office of J. P. How to Prevent Sunstroke.

The heated term is withstood without a whimper by those people who have a healthy stomach. Hot weather cannot hurt the man or woman whose stomach and digostive organs are perfectly healthy. But you go into July and August with a disordered stomach and see what the result will be. Sunstroke attacks only the man or woman whose stomach and digestive organs are too feeble to protect the strength and maintain one's physical power to resist the depressing effects of the summer's sun. Summer diet, with all its vegetables and unripe fruits adds its unstable influence to the oppressing effects of hot weather, causing a still greater decline in one's strength and vitality.

Ninety-nine out of every hundred people whose health and strength runs down in summer allow their stomach or digestive organs to get out of order. This is easy enough-in fact, it is hard to prevent without the use of some thoroughly reliable digestant. Kodol after meals is not only a thor-

great tonic and reconstructive properties as well. This famous remedy enables the stomach and digestive organs to thoroughly digest, assimilate and contribute to the tissues all of the nourishment that is contained in such food as may be eaten. Kodol clears the way and makes sure the journey from stempess to health and
