Slight Advances Recorded in All Grains en Bearish Prespects of Frost.

ALL GRAINS RULE FAIRLY STRONG

Likelihood of Oversold September Options is Bullish Incentive and Cereals Close Up-Provisions Quit Above and Below.

CHICAGO, Aug. 22.—Frost scared the prain shorts today and as a result there were faint advances all along the line. As a matter of fact, there were no frosts in the farm country, but the northwest was reporting such good weather that speculators feared possible damage. A lutther bull factor was the likelihood that inptember options were oversoid, especially noats. At the close of rather duli trading september wheat was %2%s higher, September corn %c up and September oats %c dvanced. September provisions closed luctown to 27%c up.

nber corn %c up and September oats %c vanced. September provisions closed loc was to 27%c up.
Wheat ruled strong after a momentary siness at the opening. Cables were weak brillant weather and Minneapolis restred a decline of 1c in spot. Grading of w wheat receipts at that point also was id to be spiendid. Offerings were light, wever, and the fears of freezing weather ought a sharp upturn. Calgary reported a temperature at 22c. The local crowd owed no disposition to sell, save late in a day, for profits. Commission houses ught fairly. The market appeared overidiffer the feets of the bear movement ring the last few days of fair weather, or strength had a stimulating effect plember started %6%c down to a shade at 69%c to 70c and advanced to 70%c. Its there was an easing off on profit king to 70%c. The close was firm, %60 up at 70%c. Trading was not heavy cal receipts were 281 cars, none of conact grade. Minneapolis and Duluth retred 256 cars, making a total for the ree points of 617 cars, against 517 last eck, and 785 a year ago. Primary religits were 972,000 bushels, compared to 23,000 bushels last year, Seaboard clear-sees in wheat and flour equaled 527,000 ishels. The seaboard reported eight loads ken for export.

ances in wheat and flour equaled 527,699 bushels. The seaboard reported eight loads taken for export.

Corn felt the effects of the imaginary frosts even more than wheat, although the market was very irregular. At the start a fairly heavy selling movement developed and September broke from 56%c to 55%c. Lower cables, favorable crop reports and improving receipts were the causes. Then came fears that the cold weather would sweep down on the green corn fields. Shorts were frightened. For a time everybody wanted to cover and prices jumped quickly to 57%c. After that trade hung somewhat idle and fluctuations were rather narrow. The close for September was strong. %c up to 67%c. Receipts were 49 cars, six of contract grade.

Oats shorts were scared badly at the opening. Under the rule of the board it takes white oats of certain weight to fill new style contracts. Chicago has practically nothing of that grade. Oats were reported badly damaged by rains in Illinois and Iowa, and this, together with the cold weather talk, sent the shorts scrambling for cover until September jumped from 53% to 34%c. Other months were also strong. Toward the close there was a fair realizing selling movement and prices eased off a trifle. September closed strong, however, %c, up to 54%c. Receipts were miserable at 16 cars contract.

Provisions were manipulated for an upturn, but only a measure of success to the packers. Hogs and corn started out weak and the former slumped badly. To counteract this influence brokers bought freely and the whole list bad good advances. Late there was a drive in lard and prices. September lard, 10c lower, at \$10.40, and September ribs. \$71%c higher, at \$10.40, and \$10.40, and \$20.40.

Estimated receipts for tomorrow: Wheat, 240 cars; corn, 60 cars; oats, 260 cars; hogs, 5,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y.

were the usual rumors also of an early settlement of the anthracite strike.

The buying of Union Pacific was attributed to a desire on the part of the inaders to encourage conversion of bonds into stock. There were some points of irregularity in the market, the express stocks reacting sharply. American Bicycle securities, including the bonds upon which action on the interest is expected on Monday, were notably weak. The selling was accompanied by reports that it was due to ilquidation, induced by the coming retirement of a leading interest.

Foreign Financial.

LONDON, Aug. 29.—Rates for money were firm today and borrowings from the Bank of England increased the supplies to meet the consols' settlement and monthend requirements. It is estimated that \$25,000,000 is owing to the Bank of England and it is believed that this is largely by speculators in consols, thus partly accounting for the rise in discounts, in spite of the steady inow of gold from abroad. The talk of the export of gold to the United States at the end of September was considered a factor in possibly forcing an advance of the bank rate, though with the Bank of England's reserve probably approximating \$140,000,000 it will be able to spare gold for the United States without a strain.

Prices on the Stock exchange were steadler, operators being more hopeful of the settlement being satisfactory. Consols were fractionally better. Americans opened irregular and inactive and closed firm. Spanish 4s were strong. Grand Trunk relapsed on profit-taking. Kaffirs were stagmant. Gold premitums at Beunos Ayres, 129.90; Madrid, \$50; Rome. \$50.

NEW YORK, Aug. 29.—COFFEE—Spot Rio, quiet; No. 7 invoice, 5½c; mild, steady; Cordova, S@li½c. Market opened steady, with prices 10 to 15 points lower, following a disappointing ruling of cables from all foreign markets; receipts well up to last year's at the same date and under liquidation more or less active, of room longs, brought on by a desire on the part of the smaller holders to close out their accounts before the three-day holiday now at hand. Trading was not very active until late in the day, when selling became more active and prices settled 5 to 10 points. Closing prices were not 15 to 25 points lower, except Augunt, which closed 25 points up, but this had no special significance. Total sales for the day were 3,760 bags, including September at 5.3026.35c; October, 5.2025.40c; December, 5.4025.45c; March, 5.5526.60c; May, 5.70c; June, 6.75c; July, 5.85c. Coffee Market.
