INVESTIGATION INTO THE ACCIDENT

Hearing of Motorman and Conductor Postponed—Both Men Out on Bail—Emperor William Sends Congratulations.

OYSTER BAY, Sept. 4.—Dr. Lung, President Roosevelt's official physician, said this morning that he anticipated no serious results to the president from yesterday's accident. Before retiring last night the president left word that he desired not to be disturbed till 10 o'clock this morning.

The grand duke Boris was the president's guest at luncheon today. He arrived from Newport on Ogdens Mills yacht and was accompanied by Count Cassini, the Russian ambassador, and three members of his suite, also by Ogdens Mills and Assistant Secretary of State Pierce.

The president will leave here tomorrow on Slyph, preparatory to starting from Washington on his short southern trip. He will leave Jersey City in a private car attached to the 1:15 p. m. train over the Pennsylvania railroad. He will leave Washington at 7:30 p. m. tomorrow on a special train over the Baltimore & Ohio railroad for Chattanooga, where he will attend the annual convention of the Brotherhood of Locomotive Firemen on Monday.

Secretary Cortelyou, who passed last night at his summer home at Hempstead, is reported to be much better this morning. He will accompany the president on his southern trip. President Roosevelt is receiving a large number of telegrams, cablegrams and letters, congratulating him on his escape from serious injury in yesterday's accident.

President Roosevelt was much better this morning. He took a drive before receiving Grand Duke Boris and party.

CONFER ON IRISH TROUBLES

Chief Secretary for Ireland Discusses the Proposal of Captain Taylor.

LONDON, Sept. 4.—George Wyndham, chief secretary for Ireland, replying to inquiries made of him with reference to the conference proposed by Captain Shaw E. Taylor, a prominent landlord of Ardsongh, County Galway, for the solution of the present trouble in Ireland, said this morning that the Irish land question must be settled by the parties interested. The extent of the useful action of the government is limited to providing facilities and giving effect to the settlement. It is not for the government to express an opinion as to the opportunity of holding this conference. Any conference is a step in the right direction if it brings nearer the prospect of a settlement.

Captain Taylor recently published a letter inviting the duke of Abercorn, John Redmond, Lord Barrington, Colonel Sanderson, the lord mayor of Dublin, T. P. O'Connor, William O'Brien and T. W. Russell to a conference in Dublin, when, he said, he would submit to the committee a simple and practical solution of the present trouble and one which will lead to a settlement satisfactory to both landlords and tenants.

This proposal of Captain Taylor was made at a dinner given at the residence of the duke of Devonshire in the counties of Kings, Limerick, Longford, Queens and Westmeath and the boroughs of Dublin and Limerick.

BALDWIN EXPLAINS FAILURE

Explorer Tells Why He Did Not Proceed and of the Trouble with Captain Johannsen.

THOMSON, Norway, Sept. 4.—The Baldwin-Ziegler expedition steamer Frithjof, with William S. Champ, secretary of William Ziegler, in connection with his Arctic expedition, on board, arrived here this afternoon.

The conditions compelled Frithjof to return to Tromsø, where he had to leave behind Franz Josef Land nearer than 23 miles north. Frithjof was fast for two days and finally forced its way through four inches of ice.

The first news of the return of Mr. Baldwin on America was received on board Frithjof at Havfjord, September 2.

The crew of Frithjof shot thirty-three polar bears and saw thousands of seals during the last days of their trip. The prevalence of fog and the absence of the seals prevented Frithjof's men from catching any.

LONDON, Sept. 4.—In response to a telegram from the Associated Press, Evelyn B. Baldwin has telegraphed an explanation of the causes of his failure to reach the pole and the cause of his dispute with Captain Johannsen of the America, etc., as follows: THOMSON, Norway, Sept. 4.—The public has been deceived by reports regarding the expedition. Nearly every member has been faithful, and my comrades ought to be commended for their courage in establishing large depots at Camp Ziegler during March, April and May. So long as they were here, they were not in any danger. Fifty miles were destroyed in this connection. My representatives have been deceived by reports regarding the expedition. I believe the record of being farthest north could have been broken, but it would have exhausted our supplies and destroyed the hope of finally reaching the pole.

The expedition was organized to become America's captain were untenable and unbearable. His threat, December 1, to take possession of the pole as captain and deal with the crew in accordance with his own plan if enforced. The ice pilot, as well as the first mate, who had long experience in the Arctic, caused his discharge. Johannsen's refusal to obey the ice pilot's orders and his declared unwillingness to this connection, caused his discharge. The sleigh expedition, together with other well founded reasons stated to the American consul now here, caused his discharge and the promotion of three of his countrymen to new posts, caused his departure. He obeyed and obeyed with pleasure the orders given by myself, my representatives and the ice pilot.

BANKING ON BROAD SCALE

International Institution is Launched in New York.

Expected to Obliviate Necessity for Doing Exchange Business with South American Countries Through European Clearing House.

NEW YORK, Sept. 4.—Plans were made at a meeting of the directors of the Trust company bank for the formation of an international banking institution, capitalized at \$10,000,000 and designed especially to operate in Latin-American countries.

The scheme involves the consolidation of the Mexican Trust company bank and the Corporation Trust company. The combination is to be known as the International Bank and Trust Company of America. The directors of both the merging corporations have signed the agreement. A majority of both the concerns have already signified their approval of the plan informally, and a meeting of stockholders to give formal approval of the merger will be held within the next three weeks. It is expected that the combination will become effective about October 1. Both the Mexican Trust company bank and the Corporation Trust company have broad charters under the laws of Delaware. The new company's charter will embrace the features of both of them. Branches of the Mexican Trust company bank are established in several Mexican cities as follows: Guadalajara, Pachuca, Monterey, Tampico, Aguas Calientes, San Luis Potosi and Puebla. It also has agencies in New York and Chicago.

The new company will utilize the branches already established and it is planned to establish branches at sixteen leading cities in Mexico. Branches are to be located also in Havana, Buenos Ayres, Rio Janeiro, Valparaiso, Santiago, Tampico, Aguas Calientes, San Luis Potosi and Puebla. It also has agencies in New York and Chicago.

FAST FIRING AT FORT WRIGHT

Higginson and Coghlan Bring up Their Fleets and Guns Make Lively Exchange.

FISHERS ISLAND, N. Y., Sept. 4.—Fort Wright was again attacked tonight and it would appear that Admirals Higginson and Coghlan have brought their fleets together for the purpose of shelling, if possible, the island that a warning shot was fired, and the most strongly fortified on Long Island sound.

Admiral Higginson's maneuver tonight was an excellent one and brought out the finest points of the game of war. He came down upon the forts in two sections. The cruisers were sent ahead with the apparent purpose of having the fire concentrated upon them. He then crept up with his battleships and opened fire with the purpose of crumbling the forts to pieces.

It was at 10:35 tonight that a general alarm rang over Fort Wright and all the troops were ordered to arms. At that hour search light No. 5 picked up the cruiser Brooklyn as it was speeding to the westward toward the race. At first it was supposed that the cruiser was on its way to New York for repairs, but it came so close to the island that a warning shot was fired, and to the surprise of the officer it replied vigorously. This action leads to the belief that the reported accident to Brooklyn has been exaggerated by the navy officials for the purpose of throwing the defenders of the fort off their guard.

The firing had been on for a few moments when Olympia was sighted, closely following Brooklyn and it too opened up on the fort with every available gun. After these two vessels passed through the race, three battleships were picked up by the searchlights and fears that a landing would be made caused the officers to send a relief with a galling gun down to the dock, the only safe place at which a landing could be made.

The battleships were soon recognized as Kennebec, Massachusetts and Alabama and they were proceeding toward the race in the open name. As they passed the forts they opened fire. Every gun at Fort Wright was blazing away, and Fort Terry and Michie were also making a valiant attempt to put the ships out of business. The race was about 4,000 yards. The dense smoke both from the guns of the battleships and forts now enveloped the former. The ships soon took advantage of this and scudded away through the race.

At 11:15 the ten-inch implement anchored in the harbor and fired a salvo of five miles of the island to the westward. The second relief was hurriedly recalled five minutes later.

At midnight Forts Terry and Michie were firing an occasional shot with their long Howitzers. The ships had anchored five miles of the island to the westward. The second relief was hurriedly recalled five minutes later.

TWO THOUSAND MORE DIE

Castries Learns that Martinique Islanders Have Again Suffered.

LARGE NUMBERS OF PEOPLE LEAVING

Report is that They Are Driven Away by Another Volcanic Eruption, Occurring Last Wednesday Night.

CASTRIES, St. Lucia, B. W. I., Sept. 4.—The Royal Mail steamer Yare arrived here this evening from the island of Martinique. It brings the report that a violent volcanic eruption occurred there last night and that about 2,000 persons are said to have perished. Large numbers of people are leaving the island.

It was quite dark here at 5:30 o'clock this morning. At that hour the sun was obscured as it is during an eclipse. The British steamer Savan, Captain Vincent, arrived here today from the island of Martinique. It brings the report that a violent volcanic eruption occurred there last night and that about 2,000 persons are said to have perished.

Money to Aid Sufferers. PARIS, Sept. 4.—The ministry for the colonies received a cable dispatch today from the governor of Guadeloupe, M. Merle, saying that M. Mourne Capote was much ill. The minister has ordered M. Mourne, who is in the hospital at St. James house, Base Point heights was burned. The minister of the colonies, M. Doumergue, in placing \$100,000 at the disposal of the governor of Martinique, M. Lemaire, has urged the governor to that island, has urged the governor not to congregate refugees at Fort de France, but to distribute them in the south, where their necessities can be most easily supplied.

Recognizing the danger of a tidal wave at Fort de France, the minister has instructed Governor Lemaire to adopt all methods to enable the inhabitants to immediately vacate the place if necessary and seek refuge on the heights above the town, where food depots should be established. The minister has ordered the establishment of observation posts where the first sign of disturbance of Mont Pelee can be reported.

The Paris edition of the New York Herald published a dispatch from Point-a-Pitre, land of Guadeloupe, French West Indies, dated September 3, which says that constant detonations heard there last night indicate a terrific volcanic eruption on the island of Martinique. Thick black clouds were seen to the southward of Guadeloupe and the heat at Point-a-Pitre was intense. The volcanic eruption of Mont Pelee last Saturday and that an still greater number of persons have been brought to Fort de France by the French cruisers Tage and Suchet and by coasting craft. The hospitals of Fort de France are filled with the sick and wounded.

KINGSTON, Jamaica, Sept. 4.—The German steamer Castilla, which arrived here from St. Thomas, D. W. I., reports encountering a heavy fall of volcanic dust while 300 miles at sea. It also reports that the coast of Haiti was completely obscured by a haze, caused by dust from the eruption of the volcano.

LONDON, Sept. 4.—The correspondent of the Daily Mail at Castries, St. Lucia, has called an account of the phenomena witnessed at the time of the recent outbreak of Mount Pelee, Martinique.

The correspondent confirms the details of the eruption as already known, and says: "There were tremendous earth rumblings and explosions. The ground rocked and nothing could stand on tables or shelves. Roofs for St. Pierre were unable to reach the town owing to the weight of hot ashes. A tidal wave destroyed the whole of the sea front of Le Garbet.

"People returned here from Martinique only last week to take back their families to Fort de France."

ARBITRATION IS NOT FAVORED

Trades Union Congress Rejects Scheme to Settle Labor Differences.

LONDON, Sept. 4.—At today's session of the Trades Union congress there was a very heated discussion of a compulsory arbitration resolution introduced by the Dock, Wharf and Riverside union.

The resolution was as follows: "In view of the colossal growth of trusts and combines of speculative capitalists, and consequent concentration of capital and monopoly of industry, this congress foresees the grave danger to the nation and the toilers of dislocation of trade, stoppage of work and distress of wage-earners. To avert such a calamity, this congress calls upon the legislature to pass an act for the purpose of arbitration, the act to be presided over by a lord justice and to be constituted by an equal number of workers and employers' representatives, who shall take evidence from the parties aggrieved or their representatives. Legal action in all cases to be final. Arbitration to be compulsory in all industrial centers to be formed to act in conjunction with the supreme court. The names of the representatives to be selected by trade unions as commissioners or members of the supreme court. For the purpose of dealing with disputes, commissioners to be constituted for the great staple trades, viz., mining, textile, engineering, engineering and agriculture, with a crown judge over each. The names of the representatives to be submitted to the supreme court.

Trades unions registered under an act identical with the trades union act, to be eligible for consideration of courts or supreme court of arbitration. We therefore instruct the parliamentary committee to draft a bill for the purpose aforesaid.

Many of the delegates opposed the resolution for the reason that under such a system the trades unions would not only lose many of the advantages they had won from the employers, but would be in a position since the need for their service would no longer exist. The resolution, eventually, was rejected by 951,000 to 302,000 represented votes.

TURN DOWN THE KERNS BILL

International Mining Congress Gives Very Weak Support to Motion to Endorse It.

BUTTE, Mont., Sept. 4.—At the meeting of the International Mining congress today the effort to endorse the Kerns bill providing for a change in the mining laws of the country so as to establish separate claims and do away with extra lateral rights was defeated by a vote of 35 to 3. There was a heated discussion but when the roll was called the only two states voting in the affirmative were California and Missouri.

A resolution containing a recommendation to the United States congress that the bill not pass was carried without a dissenting vote. L. Bradford Prince of New Mexico, who is not in attendance at the session, sent the following resolution: Resolved, That the magnitude and importance of the mining industry, which has reached over \$1,000,000,000 of annual production for the establishment of a national department of mining, the chief officer of which should be a member of the president's cabinet.

The congress of the United States be respectfully requested to provide by law for the location and working of the mines of the United States, gold, silver and quicksilver on Spanish and Mexican lands. The resolution was passed. The congress endorsed the Lewis and Clark centennial exposition to be held at Portland.

HINT TO PUZZLED GROOMS

Kentucky Sutor Shows that the Thing to Do is to Throw Obnoxious Relatives Through Windows.

DANVILLE, Ky., Sept. 4.—After throwing the two brothers of the bride out of the church window, Richard League refused to the altar and married Lily Pelley. The incident took place at Bethany church, in Mercer county. A protracted meeting was in progress and a large crowd was in attendance. Rev. J. C. Milliam announced that the marriage was to take place and that he would perform the ceremony before the congregation was dismissed. Two brothers of the bride objected to the marriage and made an attack upon the groom. League put both of them out of a window. Before they could come back the ceremony had been performed.

SHY AT BEEF TRUST HEARING

Judge Kinley Doesn't Appear at St. Joe and Some Predict the End.

ST. JOSEPH, Sept. 4.—Notwithstanding that Attorney General Crew was represented at the opening hour for the beef trust hearing in this city today, no session was held. At the last moment a telegram was handed to the attorneys in St. Joe stating that Judge Kinley, who presides at the hearing, was unable to reach here from Kansas City today. Assistant Attorney General Lee said he could give no reason for a postponement of the case, but nevertheless postponement was taken and the attorney left the city for his home at Jefferson City. No date was fixed for continuing the evidence and it is freely stated tonight among the attorneys that this is the last of the investigation at this point.

WILL KEEP UP THE AGITATION

Anti-Imperialist League Issues a Statement of Its Purposes.

BOSTON, Sept. 4.—After a meeting of the executive committee of the New England anti-imperialist league today the league's declaration, signed by George S. Boutwell, president, and Erving Winslow, secretary, was issued. The rumors which have appeared recently in regard to the league's proposed agitation for the present and wait the result of President Roosevelt's policy, taken without any foundation, are entirely untrue. The league declares that they have no confidence in President Roosevelt's policy and that the anti-imperialist league will aid in the election of members of congress who are opposed to continued occupation of the Philippines and who are in favor of the withdrawal of our troops from that island.
