To Do Away with Duties on Trust-Made Articles Would, He Thinks, Be Only Punishing Instead of Regulating the Makers.

PORTLAND, Me., Sept. 6.-The state campaign was ended tonight by the republicans with a big rally, at which Scnator Henry Cabot Lodge of Massachusetts was the principal speaker.

He gave his attention to the trust question. In opening he urged his hearers to continue in power the republican party. Referring to the war in the Philippines he said he believed "the embers of insurrection still smoulder in Springfield, Groton and Boston." He said that the subject most in the minds of men was that of trusts and that the president had recently Eton." said some strong, wise words upon the subject. Senator Lodge said that the president was not at liberty, as he was, to discuss it from a party standpoint. He described the trust in a technical way and said that to 95 per cent of them there was not the least objection. To undertake to destroy them by rash legislation, he said; would bring on at the present time the most disastrous business panic that could be imagined. He said that undoubtedly the great combinations present certain dangers and certain evils and that at present the difficulty was in distinguishing among the corporations.

He had been asked: "What are the evils of the trust?" and he had replied that they can easily be enumerated. First and more serious is that there is a great popular suspicion about them. Somewhere there ought to be some means of a state controlling what it creates. He said this was an evil, because under this government he did not believe that anything a creature of the government should be beyond the government's control. There had been many schemes proposed to solve the trust question, and chief of these was legislation. Reckless legislation would be destructive to property.

If you took off the duty on woolens, the Wool trust would probably close every one of its mills." Senator Lodge thought the methods of regulating trusts by putting them into the control of the public through the government is the silliest remedy ever suggested. He thought the first remedy is supervision and publicity and the latter is the first thing to seek. In this connection Senator bath in the whole place." Lodge referred to the suits against the railroad merger and the injunction against the Beef trust. At strike headquarters it is admitted that the washeries are turning out a certain amount of coal, but it is claimed that the total output is only a drop in the bucket. President Mitchell said tonight that the miners were just as determined as ever and that all talk of them going back to work

was without foundation. The mining village of Hudson, where a house occupied by a nonunion workman named Lawrence Faranaski was wrecked last night by a mob, was very quiet today. Sheriff Jacobs sent a large number of deputies to the scene and upon their arrival the crowds that had gathered on the streets dis-

mine of the Lehigh Valley Coal company this morning. A number of strikers gathered to intercept nonunion men on their way to work. Deputy sheriffs hurried to the place and dispersed the crowd. Robert Lewis of the United Mine Work-

ers, who came here from Virginia last night,

had another conference with President Mitchell this morning. He then left for the south. At Work at the Old Rate. CHARLESTON, W. Va., Sept. 6 .- The coal niners' strike in the Kanawha and New River fields, involving 15,000 miners, which

has been in existence since June 15, is pracically at an end. Each local union is instructed to go back o work on the best terms possible, without egard to the action of any other local. Several of the largest operators in the New River field have made terms with their men and will resume on Monday. No concessions have been granted and from the miners' standpoint the strike is a complete failure, the men returning to work at the

same rate as before the strike. There is great activity here among the operators getting ready to start up. Hwicions will stop at once and old men will be given employment where possible. Most of the strikers are happy that it will soon be over, as many went out under protest

in the beginning. TAMAQUA, Pa., Sept. 6 .- Fearing that an effort would be made to stop the nenunion men in the Panther Creek valley from going to work this morning Major Gearhart sent Company F, Twelfth regiment, out on patrol duty. Although a number of strikers gathered on the streets there was no

disturbance. The Philadelphia & Reading company has issued orders that winter quarters be erected for the deputies on duty at the various colliertes. The men are also being upplied with blankets and heavy clothing. BRAMWELL, W. Va., Sept. 6 .- About .000 more striking miners resumed work oday in the Norfolk & Western, making a otal of 2,500 to resume since yesterday morning. Business in this region will be esumed by Monday.
