For twelve years the late ex-Governor John H. Gear was the only republican who succeeded in carrying the First, and he was repeatedly defeated. The Second district was purposely made a democratic district by assigning to it strong democratic counties in order to make sure of republican districts elsewhere, and in twenty years the republicans have controlled it for only three terms. He had fastened a wire to a water pipe in the store and mounted a step ladder, with his testing wire in one hand. It is not known whether the ladder fell or he lost his balance.
