PICKETS AND GUARDS FIGHT

Trouble Occurs Near the Gates of Union Pacific Shop Yard.

ONE GUARD IS SERIOUSLY INJURED

Police Make Two Arrests and Warrants are Said to Be Out for Number of Strikers—Conflicting Reports Current.

The Union Pacific strike has once more extended its effect to the courts. As a result of a personal encounter between guards and strike pickets Wednesday evening John Dinan, a striker, and Charles Fauver, a guard, are under arrest...

The trouble out of which these proceedings arose occurred near the Webster street entrance to the shops about 6 o'clock Wednesday evening. Two guards, Fauver and James Ish, came out of the gates on their way uptown. The guards claim to have been assaulted by the strikers and the latter place the blame for the fight upon the guards...

According to the story told by the strikers, Fauver and Ish were approached by John Dinan and other pickets as the former came out of the yards and were asked as to their identity. They claim this query was met with the assertion from Fauver, "That is none of your business, who we are or what we are doing."

Guard Wields Club. "We think it is some of our business, for we are strikers on picket duty and we think we have a right to know who comes and goes here," rejoined Dinan. Then, according to Dinan and other strikers, Fauver wielded his club with some effect upon Dinan and a fierce encounter ensued, in which, according to the aggressor, the picket, Dinan, came off "second best."

Fauver's physical powers enabled him to defend himself with success, but Ish, who is somewhat diminutive as compared with his partner, is said to have suffered from his underweight. He was struck in the face and a piece of his forehead was driven into his flesh, causing a painful if not serious injury.

Warrants were issued for a number of other pickets who were in or near the yard when the trouble occurred.

"We do not sanction assaults by our men, but in this case our men were not to blame. The assault was made by the other side. This man Fauver was the aggressor, by striking the first blow with his club. Dinan acted in self-defense. As to the warrant issued for Jack McKenna, we can simply say that McKenna was at home when the fight occurred."

Company Makes Statement. The legal department of the Union Pacific gives this version of the affair, after taking the statements of the guards.

"Two guards, Fauver and Ish, were relieved from duty at 6 o'clock and went out at one of the gates to go to their homes in the city. When they had gone a short distance they found that they were being followed by a crowd of ten or fifteen strikers. Some of those in the crowd said, 'Now we have you outside the yards, we will see that you don't get back in.'"

"Those in the crowd then assaulted the two guards, and a running fight ensued, during which time the guards defended themselves the best they could. Fauver is a powerful man, and while he was struck and kicked several times and had bricks thrown at him, he sustained no serious injury, and succeeded in beating back the crowd to the quarters. As the fight progressed the police came up and arrested Fauver and one of the assailants. They were taken to the station, and then the police went back to look for the others, who of course had disappeared."

"During the fight Ish became separated from Fauver and was badly beaten by several of the strikers. One of his eyes became swollen and the pieces driven into his eye, and he sustained other hurts, so that he required the care of a physician."

"This is the only case of a running fight between the guards and strikers which has occurred since the strike began. The legal department of the railroad is actively engaged in collecting all the evidence it can in this case, and has filed a criminal complaint against the strikers who are charged with a similar nature which are claimed to have been enacted within the last five nights."

"This thing must be stopped," said one of the officials. "Our guards are entitled to protection and they must and will receive it. If any more of these things occur we have the statements of four or five men in the employ of the Union Pacific who have been subjected to assaults of the strikers and some of them have sustained bad injuries. Among these men is Mike Cronin, who has been in the city of Omaha for twenty years or more, and worked for the Union Pacific for a good many years. He claims to own property here valued at \$5,000 or \$6,000. He wants to work in the shops and is doing so, but is in constant danger of being attacked by the strikers in going to and from his home and shop. He came up here today to seek advice and protection."

MISS PETERSEN IS STILL ALIVE

Remains Unconscious, but is No Worse Than When Taken to the Hospital. As late as 3:45 last night Mary Petersen showed no sign of change from her condition of yesterday. She has not regained consciousness since wounded and has not noticeably grown worse in the last twenty-four hours. Nothing has been heard as to the whereabouts of Olsen.

The art committee of the General Federation, in its report in the department of ceramics, points out that 90 per cent of the members of the Ceramic league, one of the largest art associations in the country, are women. Women succeed not only as art potters, but along commercial lines. The purpose of the committee is to recognize and assist the development of this national art in every way in its power. It recommends the use of clay native to the locality; the motive for form and decoration to be derived from local suggestions and plant forms; the use of architectural embellishments of pottery, both as building accessories and as park, lawn and garden decorations. For decorators the use of art pottery, but along commercial lines, is recommended. From there he goes to the country are often very beautiful in form and of excellent body and glass, entirely worthy of encouragement and appreciation.—New York Post.

It has been decided by the Board of Directors of the Young Women's Christian association to open the fall work with a general reception to be given Monday evening, September 29, in the association rooms. On that occasion the committee will present some of the plans for the winter's work and the three new secretaries will be introduced to the members and friends. The Quaid Lebel club held its first meeting on Monday, at which it was decided to take up the study of Shakespeare for the first part of the winter and to resume the latter part. The next meeting will be held this evening at 8:15 o'clock. Mrs. Byers' bible study classes will open October 10 and will be held every Friday evening. The art committee of the General Federation, in its report in the department of ceramics, points out that 90 per cent of the members of the Ceramic league, one of the largest art associations in the country, are women. Women succeed not only as art potters, but along commercial lines. The purpose of the committee is to recognize and assist the development of this national art in every way in its power. AFFAIRS AT SOUTH OMAHA

Sub-Station at Postoffice to Be Opened at Stock Exchange.

FATAL ACCIDENT TO BE INVESTIGATED

Coroner to Hold Inquest Over Remains of W. L. Stoughton—Delegates from Magie City to the Cowboy Carnival.

On September 15 a sub-station for the South Omaha postoffice will be established at the Live Stock exchange. Orders to this effect have been issued by the authorities at Washington and Postmaster Etter is busy these days carrying out the instructions. Arrangements have been made for the station at the south end of the gallery in the new exchange building and this will, if the instructions of the department are carried out, be opened Monday next. At this station mail will be received, stamps sold, money orders issued and cashed.

COMING OF THE BIG SHOW

Ringling Brothers' Circus in All Its Splendor Will Be in Omaha on Monday.

Monday is Ringling Bros' circus day in Omaha. One can get tired of the theaters, books will bore, pictures pall and it does not take long to outgrow the joys of a moonlight picnic, but the circus, the thrilling, whooping joy of the circus, never dies. The parade, which is an extraordinary feature of the Ringling circus, will leave the grounds Monday morning at 10 o'clock. The Ringling pageant has been much admired here in the past and it is more deserving now than ever. There is always a ring, spick-and-span look about it that one often misses in parades of this character. The horses and other animals look well groomed and cared for and all the people concerned appear prosperous, self-respecting and happy. Most of the animal cages are left open during the parade so that the public may see these fine specimens without cost. Handsomely-gowned women riding thoroughbred horses, jockeys in buckskin, solid types of great nations of the world, clown fun-makers, Japanese jugglers, plantation singers, Oriental minstrels, a children's manager, tableaux cars, illustrating fairyland stories; a mounted band, thirty elephants, twenty camels, educated donkeys, goats and dogs, a chime of church bells and the inevitable calliope are among the diversified and multi-titled features of the great parade organized by the Ringling brothers.

The ring performances have caused enthusiastic praise elsewhere. There are more than 100 acts, sometimes as many as ten going on at the same time. When the exchange features are presented there are no other acts going on at the same time, so that one's attention is not diverted from the sensational merits of these numbers. Among the several novelties are a horse ballet, the conception of the well known trainer, John O'Brien, and Captain Webb's educated seals. The equine ballet is a beautiful performance, in which Kentucky thoroughbred flit, dance and march with a grace and sensitive interest that suggests picturesque scenes of the stage.

"This is the prettiest sight ever seen in the circus ring and is a gratifying relief from the conventional riding acts. Captain Webb's seals do about everything, as one writer said, "read Shakespeare and thread a needle." The play ball, play musical instruments, juggle, regulate a billiard cue upon the tips of their noses, twirl firebrands about their heads and many other things which serve to show that this animal at least has something more than instinct.

Bratley Will Investigate.

Coroner Bratley will investigate the killing of W. L. Stoughton. Before the remains are interred an inquest will be held and members of the train crew will be summoned. Stoughton was a laborer employed at Swift's and as far as known had no insurance. He came here about a year ago and commenced working in the packing house. At the time of the accident he was picking up coal on the tracks where the accident occurred.

Live Stock Delegation.

A delegation from the Live Stock exchange left last night for Hyannis to attend the cowboy carnival. About twenty-five members of the exchange left for Burlington at 11 o'clock last night in a special car. The party will witness the play at Hyannis and return to South Omaha at 2 o'clock Sunday afternoon. At first it was thought that fifty members of the exchange would go, but owing to the weather, but just now some of the members who contemplated taking the trip found it impossible to get away.

Dump No Garbage.

Officers of the city sanitary department have been busy the last few days posting signs in different places, which read, "Dump no garbage here." There seems to be no attention paid to these signs, as the streets and alleys are as dirty as ever and no organized effort seems to have been made to enforce the regulations.

Petty Thieves Are Active.

The police are being bothered with a number of petty thieves who have been working here recently. Some boxcars have been broken into and merchandise stolen and a number of other robberies have been reported. The detective force of the city is on the lookout for the thieves and within the last few days several suspicious characters have been arrested. It is the intention of the police to clear the city of all objectionable characters as soon as possible.

Mayor Kostaky Talks.

Yesterday afternoon Mayor Kostaky stated to Bee reporter that he would be at once issue a proclamation requesting all of the pastors in the churches in South Omaha to preach sermons on the death of William McKinley, late president of the United States. This action, the mayor says, is in accordance with the plans of mayor of other cities.

Hibernian Visitors Here.

Fifteen delegates to the Ancient Order of Hibernian convention, held in Chicago, Ill. were visitors here yesterday, the guests of Dan Hannon. The visitors were shown all over the stock yards and through the packing houses and upon leaving expressed their pleasure over the visit and said that they would be glad to come again.

Joint Car Inspectors Meeting.

A meeting of the Joint Car Inspectors association will be held in Omaha on September 18. Headquarters will be at the Paxton hotel. Members of the association here are making preparations for the reception to the members coming from other states. Delegates will come from Canada and Mexico and the representation from the United States will be large.

Magie City Gossip. F. W. Shotwell has returned from an eastern trip. Nela Nystrom, formerly a messenger at one of the banks, has gone east. Frank Campbell is home from a five weeks' stay at an Omaha hospital. George Mills was in Portland, Ore., Sunday visiting friends. From there he goes to Seattle, Wash.

Dr. W. J. McCann is at St. Joseph's hospital in Omaha, where he recently underwent an operation for appendicitis. Charles A. Dunham of the Packers' bank is doing nicely at the hospital in Omaha, where he went to have an operation performed.

HOME FOR THE INDIGENT

Locomotive Fireman Discuss a Topic of General Importance.

HOPE A LARGE SUM WILL BE RAISED

Resting Place to Be Provided for the Old and Poor of Every Labor Organization in America.

CHATTANOOGA, Tenn., Sept. 11.—One of the most important subjects considered by the Brotherhood of Locomotive Firemen today was the question of founding a home for the indigent of every labor organization in the country. The Brotherhood of Railway trainmen have already subscribed \$50,000 and the Order of Railway Conductors have subscribed a like amount, and it is thought the firemen will make a liberal contribution before they close their convention.

At the morning's session of the convention, a large number of resolutions were introduced, principally intended for the strengthening of the constitution and its bylaws. The resolutions were referred to a committee.

A communication from Mayor Tom L. Johnson of Cleveland was read extending an invitation to the Brotherhood to hold its next biennial session in that city. The biennial report of Chairman Hawley of the grand board of trustees showed the organization to be in the best condition since its inception.

At this afternoon's session L. S. Coffin, manager of the Railroad Men's home at Highland Park, Ill., addressed the men on the subject of founding a home for the indigent of every labor organization, and W. S. Carter, editor of the Fireman's Magazine began the reading of his report for the last two years. He had not finished the report when the convention adjourned at 6 o'clock.

The convention will be asked to contribute to a fund being raised by trades unions all over the country to build a monument to the late President McKinley and will likely appropriate \$1,000. The ladies' society has already contributed \$25.

Question of Negro Labor.

Colonel W. C. P. Breckinridge of Kentucky will address the convention in open session next Tuesday night. The matter of negro labor will come up at this session and will probably cause a long controversy. The convention is crowded with work, the executive session lasting from 9 to noon and from 2 to 5 p. m. The ladies' auxiliary received the biennial report of Mrs. Maude Moore.

Children Like It.

"My little boy took the crump one night," says F. D. Reynolds of Mansfield, O., "and grew so bad you could hear him breathe all over the house. I thought he would die, but a few doses of One Minute Cough Cures relieved and sent him to sleep. That's the last we heard of the crump." One Minute Cough Cure is absolutely safe and acts at once. For coughs, colds, croup, grip, asthma and bronchitis.

Woman Takes Morphine.

Yesterday afternoon Mrs. Walters, who lives at 710 South Fourteenth street, tried to commit suicide by taking morphine. Her condition was discovered before the drug had time to have a fatal effect and Dr. Hahn and Mick easily restored her to normal condition. Mrs. Walters took the morphine, it is said, because she had quarreled with her husband earlier in the day over two anonymous letters. Walters and Mrs. Walters of 710 South Fourteenth street Wednesday night Larsen took a box containing some bottles of gin from the saloon.

Charged with Petty Larceny.

Pauli Larcheny is the charge brought against L. N. Larsen of Barlow, Ia., by Charles C. Sorenson, proprietor of the Washington Hall saloon, and on this complaint he was arrested yesterday evening. It is said that Wednesday night Larsen took a box containing some bottles of gin from the saloon.
