Wheat Leads All Grains in Upward Move in the Gereal Market.

GOVERNMENT REPORTS THE CAUSE

Commission People Generally Have Good Buying Orders-Corn Also Has Strength-News of the Day.

CHICAGO, Sept. 11.—Wheat led ali grains in a strong advance today. Business was active all around and the trade was thoroughly aroused by the government estimate of grain yields much below expectations. Nearly every other influence was in some measure builtsh, especially the threatened damage to unripe corn by frosts. As a result of these factors the list closed with gains, September wheat light higher. December wheat 1821-9c up, September corn 12c advanced and December outs 1921-9c to 122-9615c higher. The government figures on the spring and winter wheat harvests overshadowed every other matter for consideration in the wheat pit today. In a general way the trade was surprised at the condition of grain as made by the government bureau every other matter for consideration in the wheat pit today. In a general way the trade was surprised at the condition of grain as made by the government bureau report. As a result nearly all classes of traders were included in the buying crowd. At the outset there was a big business. Liberal selling was done only by outside longs, who wanted to take profits. Soon, however, this same crowd began buying in again, thus further contributing to the strength of the cereal. There was some seiling by a leading elevator, but little attention was paid to this movement.

Commission people generally had good buying orders. Almost everything heiped in the upturn. Cables were higher, cash markets were strong, receipts were small and clearances were large. Duluth reported an excellent export demand, with seventeen loads shipped direct last night and this morning. The only check to the builish enthusiasm was the somewhat improved northwestern receipts. There were some dull spots in the session, but taken as a whole it was the largest day's business in some time. December wheat started %c to %c up at 68%c to 69c, sold to 62%c and closed strong, 1%c up at 73%c. Local receipts were 188 cars, none of contract grade. Minneapolis and Duluth reported 32 cars, making a total for the three points of 830 cars, against fill last week and 364 a year ago. Primary receipts were 1,065,000 bushels, as compared to 1,495,000 bushels last year. Seaboard clearances in wheat and flour equaled 970,000 bushels. New York reported nineteen loads taken for export.

York reported nineteen loads taken for export.

Corn experienced a good share of the strength with which the markets opened. Most of the bulge was attributable to the fear of frosts in the corn not yet harvested. Light frosts were reported in several sections and very heavy frosts northwest. A high barometer in the northwest seemed to indicate possible heavy damage to corn before morning. This was something of an early incentive to the bulls, especially when considered with a decrease of 87,000,000 bushels in the prospective yield as compared with August estimates. The country accepted only a few bids over night, the cash demand was fair, cables were firm and there was practically nothing in the way of a selling pressure.

Traders were principally engrossed, however, in the consideration of that part of the government report which stated that while a big yield as compared to an average year was estimated, yet this yield was contingent whoily upon good weather, so late was the crop this year in maturing. With predictions for frosts over all the west and northwest tonight the fairly liberal realizing that took place on the upturn was soon offset and the close was strong. September soid from 38 octors 175c up at 50%c. December soid from strong. September sold from 384c to a close 1%c up at 584c. December sold from 484c to 43%c and closed 4%c higher at 4546 664c. Receipts were improving somewhat at primary points. Locally today they were 139 cars.

at primary points. Locally today they were 139 cars.

Cats sympathized with other grains and ruled stronger. The influence was continued small receipts, a moderately buillen government report when compared with that of August and weather conditions. Offerings were light, grading was poor and there was gook support on the buying side. The sentiment generally was buillish. The fact that the estimated crop is far in advance of the average year's yield curtailed buying to some extent, yet other conditions prevent a selling pressure. Trade was not large. December sold from 31%c to 31%631%c and closed firm, %@%c up at 31%c. Receipts were 180 cars.

Provisions were dull in comparison to the good trade in wheat and corn. There was a fair early demand on a firm hog market and prices advanced. Grains also helped in a slight upturn, but the inactivity of trade did not permit of great strength. January pork closed 124,4615c up at \$15.00025.02½, January lard 10c higher at \$8.47½ and January ribs 7½610c higher at \$7.9067.923½.

Estimated receipts for tomorrow: Wheat, \$25 cars; corn, 170 cars; oats, 205 cars; hogs, 15.000 head.

NEW YORK STOCKS AND BONDS. Surprise Caused by the Action of the

St. Paul Read—Conflicting Rumors.

NEW YORK, Sept. II—The street experienced genitine surprise to fish when the directors and placed the common stock on a 7 per cent basis. This was better by one-half of 1 per cent than had been expected from a market that had been unsettled all day as a result of conflicting rumors regarding St. Paul and an advance in call money to II per cent. The came very active and weak.

In London Americans allow were active, was the government report. The most cotsworthy movement at the opening was Pailtimore & Ohio. points in that stock, and the balance of the list was strengthened, but not to any great degree. St. Paul on transactions in excess of 15,000 shares registered a net loss of 1½ points. The day's business was rather narrow, although total operations amounted to over 1,000,000 shares. London was again a moderate trader, transactions approximating 25,000 shares, and a gain on the selling side. There was no demand for Baltmore & Ohio shares from that center, The money outlook was unsatisfactory, Baltimore & Ohio shares from that center, The money outlook was unsatisfactory, with a furiner loss of cash by the banks to the subtreasury. The latter institution transferred \$100 000 for the banks to New Orleans and paid out \$200,000 for Seattle gold received at San Francisco. There was no further word as to gold imports and sterling exchange fell off ¼ per cent. Railroad bonds were irregular today, but movements generally were narrow. Total movements generally were narrow. Total sales, par value, 4,500,000. United States new 4s declined ½, the 2s % and the old 4s ¼ per cent on the last call.

Coffee Market.

NEW YORK, Sept. 11.—COFFEE—Futures opened steady in line, with prices unchanged on August to 10 points lower, the decline being due to liquidation, weak European cables, European seiling and local pressure. Brazilian markets were steady and receipts were reported as moderate, which item, however, failed to offset in any degree the day's bearish factors. Shorts were buyers for profits early in the day, but later put out fresh lines, the bull leaders also figured as fair buyers at different times during the session. Offerings became depressingly heavy in the afternoon, demand fell off and prices rapidly eased, final figures for the day showing a net decline of 100220 points, with the undertone steady. GIGANTIC UNION IS FORMED

Railroad Conductors and Brakemen West of Chicago Effect Organization.

ADVANCE IN WAGES IS TO BE ASKED

Combination is Said to Be One of the Most Perfect Ever Entered into by Trainmen of the West.

SAN FRANCISCO, Sept. 11.-The Call this morning says that the largest and most far-reaching union in the history of railroads was recently formed by the railroad conductors and brakemen on roads operating west of Chicago. The men are dissatisfied with the present rates of wages and will in the immediate future make a demand for an increase of salaries of 20 per cent. The Call is in a position to announce that this union will make a test case on one of the roads. The organization was perfected last June in Kansas City and W. V. Stafford, a conductor of the Southern Pacific, residing at Oakland, was elected its executive head.

Circulars have been recently passed around among the men and as a result every trainman has signed the request asking for the increase of 20 per cent and making other demands. Chairman Stafford of the executive coun-

cil of the union when seen confirmed all of the above statements and added: Our organization is perfect. The circulars we have been sending out have been signed, not only by myself, but by E. E. Clark, grand chief conductor of the Order of Railway Conductors, and P. H. Morrissey, grand master of the Brotherhood of Trainmen. We have every trainman in the country back of us and we will win our demand.

BANKERS' MEETING PROGRAM includes Banquet to Be G ren After

Electrical Parade Second of October. At the meeting of the Omaha Clearing

House association Wednesday afternoon the program for the convention of the Nebraska Pankers association was adopted, but it was decided not to make it public until September 20, at which time it will be mailed to the members of the association. Luther Drake of the Merchants National bank was chosen as toastmaster of the banquet, which will take place at the Millard hotel on the night of October 2, immediately following the electric pageant to be given by the Knights of Ak-Sar-Ben. The session on Friday will close in time to permit the members to attend the court ball of Ak-Sar-Ben VIII.
