POSSE WITH BLOODHOUNDS AFTER HIM

Community Greatly Stirred Up and in Case He is Caught There is a Possibility of Speedy Justice.

.ERCE, Neb., Sept. 12 .- (Special Telegram.)-After murdering his former wife and her father, wounding her mother and attempting criminal assault upon her sister, Gottlieb Niegenfind is at large in Pierce county, with bloodhounds and a posse of men hot on his trail. Prominent farmers of the section comprise the band that accompanies Sheriff Jones in the search, and the feeling is such that the criminal may meet summary punishment if captured.

The tragedy occurred at the farm of Albert Briar, the man killed, Thursday evening. After an absence of a year from his former wife, Mrs. Anna Peters, Niegenfind returned to Pierce from South Dakota early this week and went to the Briar home, where she was staying with her parents. He asked to see the child born since their separation. Being refused, he called again on the same mission, and the third time he returned with a revolver and left a trail of blood behind him.

His Briar ran toward the two, screaming, and Niegenfind looked up, turned the weapon on her and shot her in the shoulder. Then he rushed behind the barn and met his former wife running around from the other side. He shot her down, and then fied. Mrs. Briar was able to run to the neighbors and give the alarm.
