Reports of Killing Frosts Witnest Effect Upon Grain Prices.

CLOSE IN ALL OF THE PITS IS LOWER

Ruling of Court Against Corners on the Board of Trade Most Potent Factor Against Higher Prices.

CHICAGO, Sept. 12.—Frosts of reported killing severity and no effect on the prices of grains today. Expert corn shorts after snalyzing the situation, deciared them harmless. Prices lost all semblance of firmness and when it became known that Judge Chytraus had ruled against the board and its members who were defending the July oats corner cases, general slumps foilowed. At the close September wheat was 5c off, December wheat \$25c lower, September corn it down, December corn \$25c down and December oats \$4c off. January provisions closed unchanged to like lower.

Corn started a trifle better than it left off last night. The frost was the steadying influence. Reports, however, were conflicting as to the damage done, especially those from lowa. Some advices had it that the crop was hart \$0 to 50 per cent, while others said the damage was slight. Outside orders we, ellight and the crowd soon turned toward the selling side. Warmer weather predictions had much to do with the change in sentiment, but in this, as in every other pit on the floor, the court's ruling against the power of the Board of Trade directory to enforce its rulings on marginal deposits had a depressing effect. Receipts showed some increase, as well as a better percentage of contract grading than for some time past.

The best prices of the day were made at the start, although ah excellent export business developed. December started at 44wc and slumped ic to a weak close, \$25c down at 43%c. September sold from \$6c to 50c and broke to a weak close, \$25c down at 40 colored were 206 cars, \$5c of contract gradie.

Wheat opened without much change in writes business developed.

to so, theceipts were 26 cars, 6; of contract grade.

Wheat opened without much change in price, but did tot long maintain its steadiness. There was a feeling early that the further frosts would brave up corn to such an extent that wheat would be drawn after. When corn disappointed there was liberal selling on some fairly bearish features and a dip resulted. Receipts for the northwest gave unmistakable signs of an increase in the spring movement and the weather was a further aid in that respect. Cables were lower, the sentiment was bearish and there was some selling on stop orders. Large estimates of world's shipments—over 10,000,000 bushels for the week—had its weakening influence, as did the talk of quiet selling by a heavy holder of long wheat. September opened &c up at 3½c, fell to 72%c and railled fairly, although the close was weak, &c lower at 7%c. December started a shade up to a shade down at 59½goz and closed at its lower price, %42%c lower at 63%c.

Local receipts were 152 cars, none of contract grade. Minneapolis and Duluth reported 28 cars, making a total of 962 cars. This day last year was a holday. Primary receipts were 1,169,000 bushels. Seaboard clearances in wheat and flour equaled 483,000 bushels. The seaboard reported 39 to 32 loads taken for export.

Oats showed even less animation than yesterday, prices moving only 3c. Weak-ness in other pits and the oats corner decision were the factors in a depression that lost \$\frac{1}{2}\$ for December options in the day's business. A fair demand developed on the slight breaks, thus checking a further decline. Trade was principally local and largely of a scalping nature. December sold between 31½c and 21½c and closed at 31½c. Receipts were 185 cars, 12 or contract grade.

Provisions eased off after there had been a steady opening on a firm hog market infences and from the effect. grade. visions eased off after there had been

Provisions eased off after there had been a steady opening on a firm hog market inflences and from the effect of offerings in January pork. There was considerable covering later and the nearby months all showed improvement over restorday, atthough trace was duil. Lower grain prices had some effect and January products closed weak, pork 10c lower at \$15.12%, January lard 2%c down at \$8.00 and ribs unchanged at \$1.97%.

Estimated receipts for Monday: Wheat, 235 cars; corn, 255 cars; oats, 225 cars; hogs, 77,000 head.

NEW YORK STOCKS AND BONDS. Brisk Demand for Call Money at a Six St.

Per cent Rate.

NEW YORK, Sept. 13.—Some assurance was imparted to the market at the opening today by reasor of a better demand from London and news of the government's decision to anticipate October interest on bonds, but the list was generally dull and inactive during the first hour. Commission houses did very little and foreign houses were moderate buyers. Money conditions were more favorable and contrary to custom at the week's end. There was a brisk demand for call money, which ruled at 6 per cent. Slight pressure was directed against some issues in the early trading, but support came later. Rumors of gold imports were again current, but appeared to have no foundation in fact. It was clearly shown that the rate precluded engagements except at a loss. The keenest interest was evinced in the bank statement, owing to the many pessimistic reports and fears of an utter wiping out of the surplus reserve. Although this item shows a decrease of nearly \$3.33,000, there remains a balance of slightly more than \$70,000,000—was about up to expectations. The market appeared to take kindly to the bank statement, and this, together with the action of Secretary Shaw, brought increased activity with improved prices to a number of leading stocks, including \$t. Chertral, Missouri Pacific, Illinois Central, C. Chertral, Missouri Pacific, Illinois Central, Missouri Pacific, Illinois Per cent Rate.

100; mess, \$12,0024,00. Cut means, \$12,0024

ment of the New York associated banks last week was that; though the aurpius of 25 per cent of cash to deposits of all the banks, including state and national, was not entirely wiped out, there remained a surplus reserve of only \$715,015, the smallest since November 18, 1899, when there was a deficiency in the reserve of \$131,005. The specie decreased \$5,818,500 and the legal tenders \$1,220,700, making the total loss of cash \$1,009,300. The estimated loss based on the traceable movements of money during the week was \$7,882,100.

This decrease of cash appears to have

cash \$1,000,300. The estimated loss based on the traceable movements of money during the week was \$1,52,100.

This decrease of cash appears to have been wholly due to the sub-treasury operations, which absorbed from the banks. \$1,415,000. It is noteworthy in this connection that since the week ending August 27 the sub-treasury operations have resulted in a drain from the banks of \$17,95,300, while the net loss to these institutions on the interbank movement in this interval has been \$1,89,500 and the transfers through the sub-treasury of subsidiary coin alone has been \$1,89,500, making a total of the outward movements to the country banks through transfers of \$3,550,00, or \$3,00,000 less than the amount taken out of the New York banks through sub-treasury operations. In other words, these absorptions for four weeks have been nearly \$0 per cent larger than the traceable movements to the interior. Still another striking fact is that the losses to the banks on the interior movement of \$5,65,700, as above, have been offset by \$3,900,000 by receipts of new gold represented by sanay office checks against domestic and Yukon gold deposited at various points, which checks have been cashed in this city.

The loans were counteracted last week by \$6,975,900, making the contraction since August 16, 225,900, a decrease in deposits fail of \$14,625,900, a decrease in deposits last week was \$115,500 greater than the amount called for by the total loss of cash and the reduction of loans, hence the statement very nearly harmonizes. The required reserve was lessened \$3,567,225 through the decreases in deposits and the reduction of loans, hence the statement very nearly harmonizes. The required reserve was lessened \$3,567,225 through the decreases in deposits which sum, deducted from the loss of cash, leaves \$3,351,975 as as the amount of the reduction in reserve. The surplus now stands at \$115,075, against \$1,100,000 the decrease in deposits with former years:

Date. 1902, 1902, 1900, 1900, 1900, 1900, 1900, 1900, 1900, 1900, 1900

The surplus now stands at \$715.075, against \$7.110.550 at the corresponding date a year ago and \$20.836.175 on September 15, 1900.

The circulation was increased last week \$702.500, making a gain since August 2 of \$2.387.300, distributed among the larger banks. The average daily clearings of the institutions were \$277.000.000, against \$273,000.000 in the previous week. Nine of the larger banks showed a net contraction of \$7.000.000 in loans, of which number one reduced this item by \$2.000,000, one by \$1.200.000, one by \$1.200.000 and one by \$1.000.000.

The net loss of specie by seven banks was \$5,200.000, one \$1.700.000 and another \$1.200.000.

SPECIAL NOTICE WESTERN SPECULATORS

The greatest BULL movement in the history of the country has been going on for the past month and will continue with slight reactions until January, 182. Such well known dividend paying stocks as St. Paul, Missouri Pacific, Infon Pacific, Southern Pacific, Atchison and Partic-Ularky U. S. Steric, BUTH COMMON AND PHEFERRED. We advise the purchase at once, not temorrow, or next week, but NOW. Don't wait until they have advanced 20 points from the prevailing prices of today, for when the dividends are raised, which will surely be done on all the above named. They will be selling at prices unheard of in the history of our country. We have just issued a special letter on U. S. Steel Common, which points out to the theyestor how 40 per cent a year can be made if the stock is bought around present prices. Send for it at once.

Send for it at once.

BROOKLYN RAPID TRANSIT.

Brooklyn Rapid Transit, the largest surface railway line in the world, and its stock selling at the lowest price of any, "why: Simply because that from the time or Gov. Flower's death up to the first of this year it was under bac management. When the governor was alive this same stock, without half its earning power, was selling around 13%, higher than Manhattan was then. The Pennsyvania Ralirond interests are buying control and have been for the past three months, and at the present time he doubt owns a majority of the stock Brooklyn Rapid Transit will sell at 85 before selling down 5 points from its present price. Don't wait until the stock gots active and the big fellows are taking profits, BUT BUT when they do. THAT IS NOW. We arge the purchase of B. R. T., also Manhattan, and advise helding both for a big rise. We will execute orders in the above two stocks on a 5-point margin it bought around prevailing prices—for instance. 500 margins 10 shares, \$50 margins 10 shares and so on, in opening an account remit by postal, money or express order, or have your bank wire us at our expense that you have placed money in their hands for our account. EALTH FROM WASTE

OMAHA, NEB.

Now Accomplished by Utilizing the Stalks of Our Great Annual Corn Crop-

CORN IS KING

Yet Nearly One-Half of this Greatest of Crops Has Been Wasted Each Year Because Nothing But the Ear of Corn was Saved. EIGHTY MILLIONS OF TONS OF CORN STALKS

are raised and wasted annually in the great corn belt of the United States. Imagine the wealth produced by saving this tonnage and converting it into pulp for paper, feed and cellulose compounds. This saving of waste will produce \$250,000,000 for the farmers annually; wealth and trade will be added to cities and towns securing these plants; new tonnage will be made available for the railroads to haul; new avenues opened for the employment of labor; a better product at a less cost produced for manufacturers of paper and kindred products; no existing industry will be destroyed. All this is an accomplished fact through the great process owned and controlled by the

NATIONAL FIBER & CELLULOSE CO., Visit Their Demonstration Plant

AT 470 WEST LAKE STREET, CHICAGO. Watch the Machines Do Their Work -See the Product

Watch the Machines Do Their Work—Sectification.

The first Central Pulp Mill is being established at Kankakee, Ill. Surrounding this mill fifty miles in each direction will be located depithing plants to supply the central mill. This plan will be followed in other locations until the entire corn belt is covered.

All who have investigated highly endorse the enterprise and are eagerly investing in the company's stock.

You can share in the enormous profits to be made in this business by becoming a stockholder in the National Fiber and Celiulose Co., whose shares of a par value of \$10 are now selling at \$2.50 each. Price will be quickly advanced.

Send for samples of Corn Stalk Pulp or wire immediately for reservation of

SANFORD MAKEEVER & CO., Fiscal Agents; ams St. Chicago. 170 Breadway, New York City 84 Adams St. Chicago.

Buy December Wheat for 80c.

With cash Wheat a premium over September, and September a premium over Decamber, bears instead of buils are paying currying charges. Exports from this caustry are averaging \$,000,000 bu, weekly, or fully equal to last year, largest on record. Stocks of Wheat everywhere are at a minimum, and not intreasing Trashing returns of Spring Wheat a big disappointment, and receipts at primary markets about half as large as one year ago. Crop this year under 600.000,000 bu. last year 750.000,000 bu. Such a combination warrants a price for December Wheat above 80c. I believe it will self there. Purchases made now, and margined 5c per bu., should result in big profits. Write for my markets letters.

231-235 Rialto Building, Chicago.

My daily and weekly market letters are published in full in the Chicago Evening Pest, also the Chicago Evening Journal. Will send either paper, free of charge, to anyone interested in the market.

BUY HIDDEN FORTUNE GOLD MINING COMPANY STOCK AT \$1.00 PER SHARE.

If you wish an investment that will show tremendous profits by advance in price and bring large returns in the way of dividends. Homestack stock, started about \$1.00 per share, has never missed a dividend in twenty-five years and now sells around \$100 per share. \$100 invested in this stock shows a profit of about \$10,000, hesides muny times your money back in the way of dividends. Hidden Fortune Co's mines are surrounded by the Homestake property and cover part of the same system of velus, so should show as large profits as Homestake stock. Hidden Fortune is absolutely safe, as experts report over \$7,000,000 in signs of gold ore, being more than two dollars per share for every share issued. Mill now being built, foundations already in and balance being pushed to completion. Company should pay large dividends as soon as mill is completed. One valu on this property is over 350-ft, wide. Company offering small amount of treasury stock to complete payments for
