Avoid any Risk in your Piano Purchase

Provide for your safety and satisfaction.

FIRST—By buying pianos at the lowest possible price for spot cash.

SECOND—By extreme care in the selection of our line of pianos, choosing pianos that are built upon merit rather than those built upon a reputation secured through a liberal use of printers' ink.

THIRD—By selling on a strictly one price basis, thus necessitating the proper grading of pianos, insuring you full value for the amount of your money, you feel disposed to spend for the piano.

FOURTH—Our guarantee accompanies every instrument.

FIFTH—Our facilities for marketing make it possible to reduce the expense attached to the original cost price. This has heretofore made the piano too costly. We save you from \$50 to \$150 in a single purchase.
