COMMERCIAL AND FINANCIAL

Near Futures of Wheat and Corn All Close Higher.

DECISION OF COURT IS STILL FACTOR

Frost Conditions and Nervous Shorts Are, However, the Chief Reasons for Advance in Prices on Chiengo Board.

CHICAGO. Sept. 15.—Reactionary in-fluences from Suturday's slump were at work in grains today. This was a condi-tion somewhat unexpected, for it was gen-erally supposed that judge Chytraus' de-ision in the oats case Saturday would by the control of the control of the control of the Traders were somewhat in the dark as to whether they dare do my business in the

bring out long grains.

Traders were somewhat in the dark as to whether they dare do any business in futures at other than cash prices and as a result outside orders were scarce. Business was largely in the hands of locals and the nearby lutures were let severely alone because of their premium over cash prices. The further deliveries, however, seemed to have been oversoid Saturday and because of their seeming cheapness in comparison with shopping figures prices were shoved higher in most commodities. At the close September wheat, December wheat and December corn were 11%c nigher, september corn was %c down and becember oats a shade off. January provisions closed 2%c lower to 7%c higher.

Wheat started out with a fair show of grenight, largely because the crowd was not frightened over the issue of the injunction cases. It was generally believed that the decision in no way affected trade except in the case of extreme manipulation, and that even if the decision were upheid the directory could frame governing rules that would noid. Many of the speculators went home Saturday night short.

Although cables were only steady and little outside business came to hand the fact that stocks were decreasing started an upturn. In spite of the fact that there was a big run of wheat to this market last week stocks in public houses increased only 48,000 bushels. The increase in the visible supply was only 53,000 bushels.

Buying by shorts and a fair commission house business, with very light offerings, started prices higher. Trace was dull at times, with the outsider in the market only sparingly. St. Louis supported December to some extent. The weather was very lavorable to the movement and receipts were increasing, especially in the northwest.

est. September was traded in lightly, but ad-September was traded in lightly, but advanced with December. The other option opened unchanged to 16c up at 17% 17% can elosed firm at %c up at 17% 17% can elosed firm at %c up at 17% 17% contract to 684 1768 18c, and closed firm, %c up at 68c. Local receipts were 28 cars, 7 of contract grade; Minneapolis and Duluth reported 1,260 cars, making a total for the three points of 1,508 cars, against 963 last week and 2,411 two days last year.

Breadstuffs on passage decreased 408,000 bushels. World's shipments were 10,428,000 bushels, against 9,281,000 bushels last year. Seaboard clearances in wheat and flour equaled 584,000 bushels. Duluth worked 390,-Scaboard clearances in wheat and flour qualed 384,000 bushels. Duluth worked 389,-000 bushels for export and helped in the divance. Primary receipts were 1,778,000 bushels, against 2,915,000 bushels two days

bushels, against 2,915,000 bushels two days last year.
Conflicting reports of damage to corn from frosts put the corn crowd in a guessing square. The market opened strong for December and May, and there was a fair demand in these deliveries. September was choppy and in the end ruled easy. Offerings in general were not excessive at any time, even when the market was at its highest point.

weather was fine in the corn region,

The weather was fine in the corn region, with better weather in prospect. Cables were steady and receipts were increasing. With these mixed conditions the sentiment was somewhat uncertain. In the end the frost damage reports and small contract stocks helped the bulls. About mid-session there was great firmness.

Later there was a recession, but the close was near top figures save in September. The near futures sold between 53%c and 65%c and closed easy, %c off at 53%c. December started at 43%c, sold at 43c and closed %c up at 43%c. Receipts were liberal at 259 cars, \$1 of contract grade.

Oats were received in larger quantities, the weather was good and the quality of arrivals was improved. The market opened easier, under some selling by a leader and by commission houses, but price fluctuations were narrow. Corn strength aided the price at times. The cash demand was light. December sold between 31c and 31%c and closed easy, a shade off at 31%631%c. Receipts were 280 cars.

Provisions were fairly active at times and ruled firmer on higher prices for hogs. Hog products showed the most strength and were difficult to trade in. There was a disposition to sell May stuff, but a good support brought advances. Corn strength also was a support to prices. January pork closed 567%c up at \$15.71%6315.20, January lard 7½c up at \$8.67% and January ribs 2½c higher at \$2.

Estimated receipts for tomorrow: Wheat, 60 cars; corn, 470 cars; oats, 335 cars; hogs. higher at \$8. Estimated receipts for tomorrow: Wheat, 400 cars; corn, 470 cars; oats, 336 cars; hogs,

cline in New York exchange, enhancing the prospects of early gold exports to America. An advance of the bank rate will soon be seriously discussed. It is dependent largely on the condition of affairs in the United States, though the possibility that the government will have to borrow a considerable amount to meet the interest on the debt early in October is likely to postpone an advance. Business on the Stock exchange opened quiet and irregular. Consols were dull. Americans at the opening had an unsettled element, but it was mainly upward. Prices were inactive and closed dull. Attention centered in the monetary position. The action of the secretary of the United States treasury in anticipating payment on interest bonds made a good impression.

desirable grades with which to fill their orders.

The feeder market was active and steady, as there were a good many liberal buyers on hand and the stesirable grades found a ready outlet.

Buy December Wheat for 80c.

With cash Wheat a premium over September, and September a premium over December, bears instead of buils are paying carrying charges. Experts from this country are averaging 5,000,000 bu, weekly, or fully equal to last year, largest on record. Stocks of Wheat a big disappointment, and receipts at primary markets about half as large as one year ago. Crop this year under 600 000,000 bu; last year 780,00,000 bu. Such a combination warrants a price for December Wheat above 80c. I believe it will sell there. Purchases made now, and margined 5c per bu., should result in big profits. Write for my market letters.

Your orders in futures and consignments of cash grain solicited.

231-235 Rialto Building, Chicago.

My daily and weekly market letters are published in full in the Chicago Evening Post, also the Chicago Evening Journal. Will send either paper, free of charge, to anyone interested in the market.
