WEEK TOO COLD FOR CORN

Late Crop is Quite Seriously Damaged by the Heavy Frosts.

CONDITION FAVORABLE FOR SPRING WHEAT

Cool Weather in the South Checks the Opening of Cotton and Delays Picking Crop in Some Sections.

WASHINGTON, Sept. 16.—The Agricultural department today issued the following weekly crop summary.

More or less damaging frosts occurred on the 12th, 13th and 14th throughout the northwest, central valleys and lake region and as far south as Arkansas, and the northern portions of Mississippi, Alabama and Georgia.

Late Corn Damage. Late corn has been seriously damaged by heavy frosts over the northern portion of the corn belt, more especially to the westward of the Mississippi river.

Cool Weather Hurts Cotton. The weather conditions have been favorable for thrashing spring wheat throughout the principal spring wheat states except in North Dakota, where high winds have interrupted this work to some extent.

Some improvement in the condition of apples is reported from Ohio and Illinois. A good crop is promised in Michigan, Wisconsin, Missouri and portions of Kansas, but in Indiana and generally throughout the middle Atlantic states a very light yield is indicated.

The progress made with plowing for fall seeding has been very satisfactory throughout the central valleys and considerable winter wheat has been sown in Missouri, Kansas and Nebraska.
