ported the visible supply increased 2.18,000 bushels.

Damage fear was practically the only builish feature of the corn market, receipts were improved, weather was favorable to movement and to the crop and the cables were indifferent. The government crop report indicated damage in the northern part of the corn belt and rains were predicted to hurt the crop still further.

Offerings were light until late in the session, when there was a drive in September, which pressed prices down. In spots the market showed activity and there was occasional hard points. In the main, however, it was a waiting market for accurate estimates on crop damage. Some points in Iowa reported as high as 50 per however, it was a waiting market for accurate estimates on crop damage. Some points in Iowa reported as high as 50 per cent damage, and Nebraskn said 25 per cent. September sold from 53% to a weak close. So down, at 58c. December sold from 43% to 43% 243% c and closed weak, %6% of, at 43% 243% c. Receipts were 480 cars, 108 of contract grade.

Trade in oats fell off to an almost imperceptible volume. Price fluctuations were very narrow and there was no conspicuous buying or selling. Receiving houses let go of some stuff on the warmer weather and September closed weak, %c off, at 23% c. December sold between 30% c and 31% c and closed weaker, %2% c off, at it. Keceipts were 229 cars.

closed weaker, %g0%c on, at alc. Receipts were 299 cars.

Provisions were only fairly active at times. Hogs ruled lower at the stock yards and influenced products bearishly. The outside made some sharp selling raids at the prices. The result was a weak close with January pork 17½620c off at \$15.60; January lard, 152/17½c down at \$5.5078.52½, and January ribs, 12½c lower at \$7.57½.

Estimated receipts for tomorrow: Wheat, 155 cars; corn, 150 cars; oats, 160 cars; hogs, 27,000 head. The leading futures ranged as follows:

Money Tension Removed. Money Tension Removed.

NEW YORK, Sept, 16.—The tension of the money market was somewhat removed today and stocks responded with a straggling recovery, but the depressing effect of the money situation was demonstrated by the subsidence of activity in the market, the volume of dealings failing below 500,000 shares for the first time in several weeks. Late yesterday it became known that \$2,500,000 of gold, in transit from South Africa to London, had been secured for New York.

Foreign Financial.

I.ONDON, Sept. 16.—Short loans were obtainable at easy rates and money was plentiful in the market today. Discounts were firmer in anticipation of a 4 per cent bank rate within a month, combined with the situation in New York, and the uncertainty regarding large shipments of gold from London, although it was considered probable that the continent would be able to supply most of the American requirements. Money is very plentiful in France and the French bankers are in a position to welcome the opportunity to make shipments. This is also the case in Germany, where the accumulation of gold is large. In any case the Bank of England's reserve is sufficient to enable it to spare some gold. Business on the Stock exchange languished as operators were watching the money market keenly. Consols and home ralls were dull. Americans reflected the changes in New York and were tolerably firm and closed quiet. Canadian Pacifics sympathized with Americans.

PARIS, Sept. 16.—Parquet stocks were somewhat heavy on the bourse today. Kaffirs were firm. Turks, Spanish 4s, South Americans and the most important industrials suffered from realizations. Later there was a recovery in Rio tintos, Spanish 4s and Turks, which stimulated the whole list. There were few offers toward the end of the day, but prices closed wavering. Spanish rails were weaker on the unsatisfactory rate of exchange. Thomson-Houston and Russian industrials reacted. Rio tintos were firmer on the announcement that copper had decreased by 2400 tons. The discount rate was 115-15 per cent.

BERLIN, Sept. 16.—Prices on the bourse today opened weak on New York and Vienna advices. Realizations prevailed. Mines declined the most heavily. Turks were depressed. Subsequently there was a tractional recovery in response to the better news from Vienna.

Coffee Market.

NEW YORK, Sept. 16—COFFEE—Spot Rio. quiet; No. 7, invoice, 7½c; mild, firm; Cordova, 8½11½c. Coffee futures opened steady, with prices 5½½ points lower and later showed no improvement in speculative business over recent extreme duliness, the market ruling flat most of the day. After midday prices worked up a little on a light demand from bull leaders in the absence of offerings, the market finally being unchanged to 5 points lower. Europe sent bearish cables; primary markets were featureless; the crop movement, while comparing bullishly with a year ago, attracted little attention. Total sales were 15.750 bags, including September at \$25c, October, 5.26c; December, 5.40%6.46c; January, 5.50c; May, 5.50c; Sec. July, 5.55c.

Dry Goods Market.

NEW YORK, Sept. 18.—DRY GOODS—The demand for dry goods for the home trade showed no material change today. A good supply of orders was reported for quick deliveries, but there was not much forward buying. Prices were firm, 1s print cloths the demand was mainly for wide goods. The expert demand was fair, but home prices were too high for much business.

MANCHESTER, Sept. 16—DRY GOODS—Cloths, quiet, with a moderate inquiry.

HOGS—There was a more liberal run of hogs here this morning than of late, but still for a Tuesday the supply was light. Conditions were against the selling interests, as there was a sharp break at Chicago and packers started in here bidding 56/10c lower than yesterday's general market. The hogs sold largely from \$7.55 to \$7.65, and as high as \$7.70 was paid. Trading, however, was not at all active, as buyers would not bid those prices only in a limited number of cases. The heavy packing grades in particular were neglected. The feeling grew worse instead of better ag the morning advanced, and the close was generally logific lower and slow at that. The last sales went largely from \$7.50 to \$7.60.

The extreme close of the market was very slow and weak. Heavy packers sold as low as \$7.50 and \$7.40, which was assily 20c lower than yesterday. Buyers did not seem to be at all anxious for that class of thogs and as a result they took them at their own prices. Representative sales.

Record Cattle Receipts.

Record Cattle Receipts.

KANSAS CITY, Sept. 16.—The receipts of cattle at the stockyards today exceeded 30,000 head, breaking all records, and at the close of business 34,650 head were in the yards. Most of the cattle are thin, from the range country, Kansas and the Panhandle turnishing large numbers. Buyers from all over the central west are here to purchase stockers and feeders. The farmers have a surplus of thin cattle, in spite of the big corn crop. Seventeen head of native steers, averaging 1,256 pounds, sold here today at \$5.75, the highest price for beef ever received on this market. The cattle were sent by C. C. Slaughter of Dallas, Texas. They were fed at Council Grove, Kan., and in twenty months gained 942 pounds.

Buy December Wheat for 80c.

With cash Wheat a premium over September, and September a premium over December, beers instead of buile are paying carrying charges. Experts from this country are averaging 5,000,000 bu, weekly, or fully equal to last year, largest on record. Stocks of Wheat everywhere are at a minimum, and not increasing. Threshing returns of Spring Wheat a big disappointment, and receipts at primary markets about half as large as one year ago. Crop this year under 600,000,001 bu; last year 780,000,000 bu. Such a combination warrants a price for December Wheat above 80c. I believe it will sell there. Purchases made now, and margined 5c per bu, should result in big profits. Write for my market letters.
