ARRANGING FOR CAMPAIGN

Leaders from All Parts of Ninth District Attend the Conference.

LOCAL SPEAKERS TO BE USED IN THE MAIN

Campaign to Be an Old-Fashioned School District Affair in Which Every Community Will Be Reached.

The republican campaign in the Ninth congressional district will be opened about October 1 and as Chairman Spence of the state central committee styled it will be a "school house" campaign. In the several counties comprising the district local speakers will be employed almost entirely, although one or more meetings may be arranged for in the district for which speakers of national prominence from other states may be secured.

This was decided upon at the conference held yesterday afternoon in the office of Chairman George S. Wright of the republican county central committee. R. H. Spence of Mount Ayr, chairman of the state central committee presided and every county in the district except Adair was represented. A. F. Dawson of Preston, secretary to Senator Allison, who is in charge of the state bureau of speakers and campaign literature, Congressman Walter I. Smith and National Committeeman Ernest E. Hart were also present.

The meeting was held in the office of Chairman George S. Wright of the republican county central committee. R. H. Spence of Mount Ayr, chairman of the state central committee presided and every county in the district except Adair was represented.

Discuss Henderson's Declination. The action of Speaker Henderson in declining the congressional nomination in the Third district was discussed informally at the conference and the consensus of opinion was that it was a sore blow to Iowa.

Timber wolves have been seen within the last few days in the outskirts of the city. A young calf belonging to the city surveyor Ernest E. Cook, who lives in the Eleventh home on Madison park, was attacked by a wolf.

The Council Bluffs Bowling association will give its closing dancing party for the season at the clubhouse Saturday evening, September 27, when a special program will be given.

The funeral of Lyman Campbell, who died Tuesday evening at his home in Hardin township, will be held this morning at 9 o'clock from Mount Home church. Burial will be in the Keokuk cemetery.

Notice to Subscribers. All the numbers of "The Living Animals of the World" are now on hand and can be obtained for the next few days at the Council Bluffs office of The Bee. It is requested that those desiring to fill out their numbers call at once and get them, as unsold copies will be returned in a short time.

shortly before midnight. After getting the flames under control the firemen discovered the unconscious form of Thomas J. Hooks in the shed. Hooks died an hour later of burns. It is believed he crawled into the shed while intoxicated and that sparks from his pipe caused the fire.

ALASKA COAL OIL FLOWING

Cotella Has the First Flow and it's Knocking Everything Out of Its Way.

SEATTLE, Wash., Sept. 17.—A special to the Times from Valdez, Alaska, says: The first flow of coal oil in Alaska was struck at Cotella on September 1 at a depth of 300 feet. The gusher took everything away and rose 150 feet before it finally stopped. Cotella is thirty miles south of Copper.

HAY CHAMPIONS JEWS

(Continued from First Page.)

to be treated without distinction of creed on a footing of perfect equality. "With the lapse of time these just prescriptions have been rendered nugatory in part as regards the native Jews by the various laws and municipal regulations of Roumania.

Premise is Wrong. "Starting from the arbitrary and controverted premise that the native Jews of Roumania, domiciled there for centuries, are 'aliens, not subject to foreign protection,' the ability of the Jew to earn even the scanty means of subsistence that suffices for a frugal race has been restricted by degrees until nearly every opportunity to win a livelihood is denied and the helpless poverty of the Jew has constrained an exodus of such proportions as to cause general concern.

What They Suffer. "Many branches of petty trade and manual production are closed to them in the overcrowded cities where they are forced to dwell and engage, against fearful odds, in the desperate struggle for existence. Even ordinary artisans or hired laborers they may only find in the struggle for portation of one 'unprotected alien' to two 'Romanians' under any one employer. In short, by the cumulative effect of successive restrictions the Jews of Roumania become reduced to a state of wretched misery. Shut out from nearly every avenue of self-support which is open to the poor of other lands and ground down by poverty as the natural result of their discriminatory treatment, they are rendered incapable of lifting themselves from enforced idleness.

Denial of College Buildings. The trustees of the Iowa State college at Ames are in a deadlock over the question of building one or two new college buildings. At a meeting held yesterday every trustee was present except Mr. Boardman, who is critically ill and may never be able to attend another meeting. On a motion for the adjournment of the meeting the agricultural hall the vote was a tie, six for and six against. Those who favor the building of an agricultural hall say that the other departments can get along very well for the present, and that the agricultural hall will be a great benefit to the college. Those who oppose the building contend that it would be illegal to build an agricultural hall when the appropriation for commencing the work was for a central or main building. The board adjourned without taking action, no building is ordered and no building plans adopted.

Reward for Capture of Fugitive. Governor Cummins this morning offered a reward of \$300 for the arrest and return to Denison Jail of William Numley, a negro, who attacked the sheriff some time ago and succeeded in breaking away. He was in the Crawford county jail awaiting trial for the murder of a woman. The Milwaukee railroad in July last. The evidence against him seemed to be conclusive. Articles of incorporation were filed today by the National Fountain Pump company of Sioux City, capital \$50,000, by J. B. Ripple, Francis Cooner, William Telephone company of Keokuk county, capital \$10,000, by A. F. Bridger and others.

Purchase Harlan Portrait. The state executive council today directed investigation as to an old portrait of the late Senator Harlan offered for sale by a woman in Osage. The legislature last winter appropriated money to have the picture purchased, but it was supposed that the several portraits could be had and the state might make a choice. It seems that only one is offered. Before it is purchased an investigation will be made as to its value.

Christening Party Starts. The Iowa party to the christening of the cruiser Des Moines started for Boston this evening, the governor's party occupying an entire sleeping car, which will be kept all the way through. The governor is accompanied by his military staff and invited guests, including Miss Macomber, who is to give the name to the cruiser. The mayor of Des Moines, with aldermen and city officials, have started over to Boston Friday evening. No change in the personnel of the party has been made since the announcement on Sunday last.

Switchman Killed at Carroll. CARROLL, Ia., Sept. 17.—(Special.)—Dave Shollenberger, a switchman in the Carroll yards, met death in a peculiar manner. In attempting to make a flying switch with a carload of lumber he slipped off the brake beam underneath the cars and was terribly mangled, the wheels cutting one leg off and crushing the head. About two years ago he met with a similar accident, but was fortunate in saving his life. His brother John was working with him and threw the switch at the time of the accident. The inquest was held this afternoon and the funeral will be held Thursday.

Brakeman Dies on Duty. AMES, Ia., Sept. 17.—(Special Telegram.)—Thomas Galis, passenger brakeman on the Chicago & Northwestern, dropped dead from heart disease at Jordan, west of Ames, at 10:15. He was on the platform of passenger No. 6, while on his way to Clinton, his home.

Death Caused by Burns. DES MOINES, Sept. 17.—Ewing & Jewett's big lumber yard was discovered on fire

Duffy's Pure Malt Whiskey

MEDICINE FOR ALL MANKIND.

Cures Consumption!

Look for Trade Mark on the Bottle. Dear Sirs:—After reading your advertisement I bought a bottle of your whiskey, which cured me of a bad cough and a weak heart. I have not had any more of either since I began to use it. It is a most wonderful medicine. I have never seen any other like it. I have tried many others but they all failed. I am now in perfect health and feel like a new man. I think that if I had known of your whiskey when I was at home in Chicago, I would never come out here for my health. ED SCHUBARTH, 1683 Market St., Denver, Colo., Aug. 18, 1902.

Stopped Hemorrhages. Nashville, N. H., Sept. 11, 1902. Gentlemen:—It is with great pleasure that I write to inform you that I have used eight bottles of your Pure Malt Whiskey. I would not have been here today only for your wonderful medicine. I have never seen any other like it. I have tried many others but they all failed. I am now in perfect health and feel like a new man. I think that if I had known of your whiskey when I was at home in Chicago, I would never come out here for my health. ED SCHUBARTH, 1683 Market St., Denver, Colo., Aug. 18, 1902.

What They Suffer. "Many branches of petty trade and manual production are closed to them in the overcrowded cities where they are forced to dwell and engage, against fearful odds, in the desperate struggle for existence. Even ordinary artisans or hired laborers they may only find in the struggle for portation of one 'unprotected alien' to two 'Romanians' under any one employer. In short, by the cumulative effect of successive restrictions the Jews of Roumania become reduced to a state of wretched misery. Shut out from nearly every avenue of self-support which is open to the poor of other lands and ground down by poverty as the natural result of their discriminatory treatment, they are rendered incapable of lifting themselves from enforced idleness.

Emigration a Natural Result. "Human beings so circumstanced have virtually no alternative but submissive resignation to their lot. It is not favorable to them. Removal under such conditions is not and cannot be the healthy, intelligent emigration of a free and self-reliant being. It must be, in most cases, the mere transplantation of an artificially produced, diseased growth to a new place. "Granting that in better and more healthful surroundings the morbid conditions will eventually change for good, such emigration is necessarily for a time a burden to the community which makes alien immigration a matter of self-reliance and the knowledge and ability that evolve the power of self-support must be developed and at the same time avenues of employment must be opened in quarters where competition is keen and opportunities scarce. The teachings of history and the experience of our own nation show that the Jews possess, in a high degree, the mental and moral qualifications of conscientious citizenship. No class of immigrants is more welcome to the shores when coming equipped in mind and body for entrance upon the struggle for bread and inspired with the high purpose to give the best service of their own race to the land they adopt than the Jews. It is not the paupers by physical and moral oppression in their native land, and thrown upon the long-suffering generosity of a more fortunate community, their migration lacks the essential conditions which make alien immigration either acceptable or beneficial. So well is this appreciated on the continent that even in the countries where antisemitism has no foothold it is difficult for Americans to resist their only goal.

Right of Remonstrance. "The United States offers asylum to the oppressed of all lands, but its sympathy with them in no wise impairs its just liberty and right to weigh the acts of the oppressor in the light of their effects upon this country and to judge accordingly. Putting together the facts now painfully brought home this government during the past few years that many of the inhabitants of Roumania are being forced by artificially adverse discriminations to quit their native country; that the hospitable asylum offered by this country is almost in every refuge left to them; that they come either unfettered by the conditions of their exit to take part in the new life of this land under circumstances either profitable to themselves or beneficial to the community; and that they are objects of charity from the outset and for a long time—the right of remonstrance against the acts of the Roumanian government is clearly established in favor of this government. Therefore, consistently and of purpose or not, these helpless people, burned and spurred by their native land, are forced by the sovereign power of Roumania upon the charity of the United States. This government cannot be a tacit party to such an international wrong. It is the duty of the United States to protest against the treatment to which the Jews of Roumania are subjected, not alone because it has unimpeachable ground to remonstrate against the resultant injury to itself, but in the name of humanity."

How Uncle Sam is Interested. "The United States may not authoritatively appear to the stipulations of the treaty of Berlin, for which it was not and cannot become a signatory, but it does earnestly appeal to the principles contained therein, because they are the principles of international law and eternal justice, advocating the broad toleration which that solemn compact enjoins and standing ready to lend its moral support to the fulfillment thereof by its co-signatories, for the act of Roumania itself has effectively joined the United States to them as an interested party in this regard. "You will take an early occasion to read this instruction to the minister for foreign affairs, and should he request it leave him a copy. I have the honor to be your obedient servant, JOHN HAY."

Rock Island Deal Legal. Iowa's Attorney General Holds No Laws Have Been Violated. GOVERNOR CUMMINS CONCURS IN RULING. For the Next Legislature to Enact Laws to Head Off This New Device for the Watering of Stocks.

(From a Staff Correspondent.) DES MOINES, Sept. 17.—(Special Telegram.)—The opinion of Attorney General Mullan in the matter of the consolidation of the Rock Island properties was filed today and with it Governor Cummins filed his concurrence in the conclusions. The attorney general says the conclusion to the legality of the consolidation under an Iowa charter and the inquiry as to whether or not it could not be prevented as being against public policy. He filed the facts of the organization of the Iowa company and the New Jersey companies before the attorney general and asked for a legal opinion as to whether the new Rock Island company of Iowa is a lawfully organized corporation and whether the transaction described can be arrested at the instance of the state, or stating the inquiry in its broadest terms: "Is there any remedy under our laws for so grave an offense against public policy?"

The attorney general's opinion is exhaustively and he reaches the conclusion that the transaction is entirely legal in every phase under the Iowa laws; that there is nothing in the Iowa laws to prevent the purchase of the stock of one railroad company by another, provided they are not parallel and competing, and nothing preventing the classification of stock in the manner done by the Rock Island reorganizers. There is nothing to prevent the issue of stock of a face value far beyond the actual value of the property purchased, and the attorney general says he finds nothing done in violation of the policy of the state as indicated by the acts of the legislature and decisions of the courts and no proceedings on behalf of the state to prevent the reorganization. He says that the laws as they exist. Governor Cummins files his concurrence in this view and adds: "The thing done is neither a merger nor a consolidation. Not a mile of track nor a dollar in value is added to the Rock Island property. It is simply a new device for watering securities. It is for the next general assembly to say whether it is wise to permit our laws to so remain that such things are possible."

Premier Bond is Satisfied. Newfoundland Statesman Pleased with Progress of Fisheries Treaty Which He is Negotiating. NEW YORK, Sept. 17.—Sir Robert Borden, premier of Newfoundland, who recently visited Washington with the object of furthering a fisheries reciprocity treaty with the United States, in a dispatch to the latter reports that his mission had been a failure, he said: "I was unable to accomplish anything in the way of a fisheries reciprocity treaty with the United States. I had no success in the latter part of the week or the first of next. I do not see any indications that the project will fall of success. It is not, of course, proper to make public at the present time the positions which I may submit, but I have no reason to believe that they will not be well received."

Output of Packing Houses. Marketing of Hogs Shows a Slight Gain Over Last Week's Figures. CINCINNATI, Sept. 17.—(Special Telegram.)—The Price Current says the movement of hogs continues light. The total western packing is 285,000, compared with 240,000 the preceding week and 345,000 last year. Since March 10 the total is 9,840,000, against 12,510,000 a year ago. Prominent places compare as follows:
