#### OMAHA LOSES FIRST GAME

Milwaukee Bunches Hits on Brown in the Sixth Inning.

ROURKES TREAT KENNA VERY TENDERLY

Inability to Bat at Right Time, Alded by a Little Bad Work on the Part of Umpire Moran, Ends in Defeat.

Under lowering skies Milwaukee won tha first game of the final series from Omaha Saturday, 3 to 2. Rain threatened all the afternoon, and clouds were dense, so that the light lasted just long enough for the nine innings. It was a bair-raising contest from the start, with both teams playing ? as fast and clean a fielding game as has | 5 been seen here this year. The Rangers were crippled by the loss of Stone, who has sprained his ankle, but that counted for nothing yesterday, as Welch, Stone's amateur substitute, made two hits of Omaha's six and had no chances in the field.

teur substitute, made two hits of Omaha's six and had no chances in the field.

A group of four hits in the sixth inning won for the visitors. Till then neither side had seared. Pilcher Brown was throwing by Menefoc, 3. Time: 1:35. Umpire: Brown. had scored. Pitcher Brown was throwing and for five innings did magnificently, letting only seventeen men to bat and allowing but two hits, one a scratch. In the sixth Kenna started on him with a single, which O'Brien duplicated and after Cockman had gone out McVicker scored both with a double. Then Thornton went out and

The trie was sufficient, for though Kenna gave the Rangers a gift base start in five not forthcoming. In the "lucky seventh"

the locals did get started on one such base on balls given to Welch after one out. Thomas followed it with a two-bagger, scoring Welch, and then made third on Gonding's short single. From those positions

lost their temper at Umpire Moran, who second on Welch's single. Then Thomas came up and bunted. Kenna secured the when Kenna threw it, but Moran called him out. Omaha players were frantic at the ruling, and at the end of the inning Third Baseman Cockman, who made the out, said Stewart was safe. Gonding followed with a ball to Gatins, which would have scored Stewart.

"Slats" Davis was out coaching in an

"Slats" Davis was out coaching in an Omaha uniform, having just arrived, and was warmly received. He batted for Brown in the ninth, but struck out. Dan Whitney, an Omaha amateur, was also on hand in a white suit for an outfield emergency.

MALARIA

# An Invisible Enemy to Health.

Malaria is an invisible atmospheric poison. The air becomes infected with the gases and microbes arising from the marshes and low lands, damp cellars, sewer pipes, badly ventilated houses and decaying vegetable matter, and we unconsciously inhale them into the lungs, when they are taken up by the blood and circulated throughout the system.

Malaria gives no warning of its coming; no immediate effects are seen, and no violent symptoms appear until the unfortunate sufferer is completely at the mercy of this hidden foe. This invisible enemy may be following us night and day, but often the first intimation we have of its presence is a chilly, creepy sensation running over the body, sometimes followed by a slight fever, and an always tired, drowsy and depressed feeling. The blood soon becomes deeply poisoned, thinned and weakened by the teeming millions of microbes and germs, and an irregular, slow circulation is the result. This condition of the blood gives rise to innumerable

and serious troubles: torpid liver, enlargement of the spleen, loss of appetite and feeble digestion, a pallid or yellow skin, boils, carbuncles, abscesses, indolent ulcers, and pustular and scabby skin

LOUISVILLE, Kv., March 26th, 1902. Por several years I suffered with Chills and Fever. caused by Malaria in my system, and each summer for several years I would relapse. Finally my physician prescribed S. S. S. In all, I took three bottles, and they entirely cured me, and I have never been troubled since. I am sure no other medicine could have given me so complete and immediate relief, and I cannot speak too highly of S. S. S. My partner in business is now taking S. S. S. for an eruption of the skin and general run down condition of his system, and though he has taken but

one bottle, already commences to feel better. 931 West Market St. I. SHAPOFF. eruptions of various kinds, are common symptoms of malaria. Frequently the health becomes so impaired, and

such a lifeless condition ensues that the person loses interest in his surroundings and faith in all human remedies. Malaria, if allowed to remain in the system, lays the foundation for other diseases that very often prove fatal or permanently wreck the health. Malaria can only be worked out of the system

through the blood, and a remedy that can destroy the germs and microbes and neutralize the bad effects of the poison offers the only hope of a cure, and the only medicine that can accomplish this is

S. S. S., which not only purges the blood of all morbid, unhealthy matter, but keeps it pure and healthy. It searches out and destroys every trace of Malarial poison, and keeps the blood in such a vigorous condition that poisonous matters of no kind are allowed to accumulate, but are promptly expelled from the system.

During the fall is an opportune time to begin the fight against this invisible enemy, for the hot, sultry summer days have caused the germs to multiply and still further impoverish the blood and weaken the constitution, and now more than ever the Malaria sufferer needs a good blood purifier and bracing tonic.

A course of S. S. S. at this particular season will relieve you of Malaria and its attendant evils, reinforce and build up the system, purify and strengthen the sluggish blood and quicken the circulation, when the appetite and digestion improve and all the vital powers rapidly recuperate under the invigorating tonic influence of this great vegetable remedy. Its freedom from all minerals makes it the ideal remedy in all Malarial troubles and perfectly

adapted to the most delicate constitutions. If you have any symptoms of Malarial poison, write us fully about it, and our Physicians will take up your case and advise you without charge. Book on Blood and Skin Diseases, free.

You may boom an oil region as much as you like and by creating excitement get people to invest in fictitious stock; but, if oil is not there in paying quantities; investors are going to soon realize that their enthusiasm has excelled good judgment and in the future they will be a bit skentical on oil stocks.

There are people ready to snap up a thing just because it is new when reliable propositions of known value are in easy reach. When doctors drop down in a town with statements that they are so sure of not pay a dollar until cured, some people do not stop to think that the stranger exin a corner of his drawer or in a bank to his credit or sign a note as security, "on account of being strangers." Of course, they will give a receipt for the patient's

'protection," but the proposition as a rule belongs to the schemer and tricksterit is the commencement of a chain of intrigue and you will do well to let them If their success has been so phenomenal, why did they not stay where they were

succeeding? Success is the best argument any man can offer and the strongest proof of merit. Success is our stock in trade, and every year added to our long stay in this city makes bank and commercial references less necessary, though we take pleasure in furnishing them when desired. No doctor can build up an ever increasing business year after year as we have without superior merit.

Our methods of treatment are our own and original. In preparing ourself for the degree of doctor we were struck with the idea that if our examinations for the degree could have been limited to two or three studies, instead of ten or fifteen, as all schools require, how much easier it would have been for us to thoroughly master them. This thought we at once applied in our practice after leaving school, and have steadfastly refused to treat or divide our time upon anything except the class of diseases selected as Our Specialties.

The most learned professors of foreign countries and the best teachers and hospitals of America, regardless of expense, have been sought, while no amount of labor or careful research has been spared in fully equipping ourselves for the successful performance of our professional duty to every patient reposing trust in us, until today, we doubt if there is a single county in the United States that does not contain someone who can testify to the superior merits of our treatment. We cure VARICO-CELE OR HYDROCELE in one week permanently, NERVOUS AND SEXUAL DE-BILITY in the shortest possible time, according to complications or the severity of the case, and the worst forms of BLOOD POISON IN 20 TO 40 DAYS. We make no charge for private consultation and give each patient a legal contract in writing to hold to our promise. Is it not worth your while to investigate a cure that has made life anew to multitudes of men? If you cannot call at our office, write us your symptoms fully. Our home treatment by correspondence is always successful. Address,
