Hayden's Gigantic, Timely and Fortunate Purchase of Pianos and Musical Instruments

Our spot cash offer for the entire stock of one of the largest retail music houses in the east was accepted by the creditors. They carried some of the highest grade pianos and organs to be found in America. Becoming involved financially, through speculations they were compelled to close and our representative secured the entire stock for ready cash for 50c on the dollar. This stock has been received and the instruments are all in first class condition, nearly all of them new and perfect, with the exception of a few that were slightly scratched or marred on account of quick handling.

The Prices We Put on These Pianos Will Astonish the Shrewdest Buyers-

This will be without doubt the grandest sale of musical instruments ever held in America. In addition to pianos and organs this stock includes sheet music, guitars, mandelins, banjos, vielins, accordeons, clarienets and cornets, in fact everything in the way of a musical instrument manufactured. They were bought at 50c on the dollar, and will be closed out in the same proportion. This stock added to our own immense regular lines gives us the greatest variety and largest quantity of musical instruments ever owned by any one

We realize that we must make tremendous reductions in prices to dispose of these at once, as we have no room to store them. Below we mention merely a few of the thousands of grand bargains to be had in this unequalled sale. Remember we will guarantee every instrument bought in this sale just as freely as if you paid the regular prices.
