The republican party may be relied upon to medify tariff schedules whenever their modification is demanded in the interest of sound and wholesome industry and commerce and the modification will never be made to destroy, but to build up.

We realize that in the evolution of production, under changed conditions, schedules from time to time need modification; that is to say a rate of duty imposed upon a specific article today, because of improved methods in production or otherwise may be found to be greater than necessity a few years hence, but we should have a care that modifications are made in accordance with the essential principles of protection.

There should be a clear and definite reason for making changes. They should be made after they shall have been found to be necessary. There should be no hesitancy in modifying any schedule if the duty imposed therein should be shown to work injury to our own producers or to our own them as the only way out of the sent to the a They were well patronized.

ZANGWILL IS MUCH PLEASED

He Considers Hay's Recent Note Noble and Historic Document, Setting Grand Precedent.

LONDON, Sept. 20 .- Secretary Hay's note o the powers which signed the Berlin treaty of 1878, on the subject of Roumania's treatment of the Jews, has aroused widespread interest in the Jewish community of London. Israel Zangwill, the author, who is an authority among his co-religionists and a ceaseless worker for the improvement of the position of the poorer among them, said to a representative of the Associated Press:

"Secretary Hay's note regarding the Roumanian violation of the treaty of Berlin is a noble, historic document, setting a precedent in political righteousness. It is a worthy pendant to President Roosevelt's setting The Hague international arbitration court in motion. Both tend to the creation of a non-existent branch of jusice-international ethics-the absence of which makes our civilization a farce, since all evil is canctioned if only enough people ommit It.

"America cannot be seriously injured by Jewish immigration and its action was undoubtedly chivalrous. Yet, as the main refuge and hope of the homeless Jew, it has a technical case for interference, even though not represented at the Berlin congress. The world is all inter-connected night. His condition this morning was fawith any action of one power that tends to incommode another. It is practically should this principle be pushed to its utmost limits when monstrous injustice is "Most Men Dig Their Graves With being perpetrated and an unoffending popbeing perpetrated and an unoffending population is being done to death. If the Eu ropean powers do not interfere to enforce the treaty of Berlin I do not see how they can escape the deduction that violation of treaties is a casus belli only when some commercial interest is to be exploited."

AIR SHIP COMPLETE SUCCESS Stanley Spencer Travels Thirty Miles and Has Complete Control of

His Machine.

LONDON, Sept. 20 .- Stanley Spender, the aeronaut, who yesterday traveled nearly thirty miles over London in an airship of his own invention, today furnished interesting details of his flight among the clouds. He said:

"At one time I feared an explosion of the balloon, but the automatic valve prevented a catastrophe. The engine also threatened to ignite the gas of the balloon, but this danger I also overcame.

"I had the engine under perfect control and could turn in any direction. The people in the London thoroughfares looked like black lines of ants. "When I alighted the machine came down so lightly that a child might have been under it without doing hurt. The distance

covered was much greater that at first reported, being fully thirty miles.

A fourth and most northerly station was established on Rudelfland, within sight of the headquarters which were occupied by the Duke of Abruzzi's expedition. It contained all the condensed stores originally intended for a dash to the pole.

Policy is a Wniting One.

MEXICO CITY, Sept. 20 .- The policy of the government regarding the silver question and the gold standard is officially declared to be to await developments. The government will not act precipitately, but will make inquiries into the production circulation and consumption of silver and the advantage as well as the disadvantage which depreciation of the white metal may occasion to this country. This is precisely capped." The will expressly shuts out all the attitude which the London Statist takes, advising countries using silver not to make haste to change the monetary basis without due study and preparation.

A TRUE SAYING.

The wrong kind of food fills more graves than any other cause. It is easy to retain good health by the use of proper food and it is pleasant, too. The Rev. G. M. Lodge of Iowa City, Ia., made a successful experiment. "I am 65 years of age and a preacher

Last winter I went to Kansas and had charge of two churches. A little use of Grape-Nuts food made me believe it be a true brain and nerve builder; wanted to experiment further with it, so I used Grape-Nuts for breakfast and supper for more than three months, with the best results. I not only never had better health in my life, but the effect on my brain was wonderful. I had become forgetful of names and persons and things, was often unable to recall even the names

Farewell Note Received from Supposed New York Murderer.

DETECTIVES SEARCH IS VAIN

Declares that He Was Soon to Kill Himself-Officers Half Inclined to Accept Note as Genuine.

NEW YORK, Sept. 20.-Captain Titus of be detective bureau has just received through the mails a short note supposed to quarters at Elsmereland, when scientific have been written by Hooper Young, suspected of the murder of Mrs. Joseph Pulitzer, it was enclosed in a small envelope such as is used in hotels for sending cards to the rooms of guests. Inside the envelope was a small sheet of paper on which was written:

"Search in vain. I have killed myself. "H. YOUNG." After a comparison with the known handwriting and signature of the missing man, Captain Titus, while not openly declaring that it was genuine, said that it did not look like the work of a crank and that the signature was written by a man evi-

dently used to writing it. An autopsy performed on the body of Mrs. Joseph Pulitzer, who was mysteriously murdered in a Fifty-eighth street flat and whose body was found in the Morris canal, showed that her death was caused primarily by a knife wound in the abdomen and not by chloral. Several blows were struck on the head before death, but the skull was not fractured and there was no signs of cerebral hemmorhage.

A police dragnet has been thrown out for William Hooper Young, grandson of the great Mormon leader, Brigham Young, who is suspected of the killing.

Among the books found in Young's room randum, on the front of which was stamped in gilded letters, "Practical Reference." On the inside were a number of notes headed "Blood Atonement," and followed by biblical references, including an excerpt from the Book of Corinthians, reading "To deliver such an one unto satan for the destruction of the flesh, that the spirit may survive in the day of the Lord Jesus." Detectives have traced Young to Brooklyn, where he went on Thursday morning to bid a friend goodby. To this friend he said he was going to the Rocky mountains. A trunk shipped to Chicago through the Wells-Fargo express was consigned to C S. Filing. The police do not believe it contained anything other than clothing belonging, possibly, to Mrs. Pulitzer, as very little of the murdered woman's apparel has been found.

John W. Young, father of the man suspected of the murder, who is now in Paris. has communicated with friends in this city. informing them that he will return to New York for the purpose of defending his son. Mr. Young has also cabled instructions to his most intimate friend to employ counsel for his son.

Chicago Detective Gets Trunk.

CHICAGO, Sept. 20.—What is believed to be convincing evidence that William Hooper Young is the murderer of Mrs. Annie Pulitzer, whose body was found in the Morris canal, near Jersey City, last Thursday, was discovered here today by the police in a trunk that had been shipped to Chicago from New York. It was consigned to C. S. Filing and marked "hold until called for."

As no such name is in the Chicago directory the conclusion was reached that

Thomas J. Rowe appeared for the petitioners, while Circuit Attorney Folk and his assistant, A. C. Maroney, appeared for the state.

The booth will be decorated with the post colors, blue and white, and the Ak-Sar-Ben colors. Many of the badges of former conventions will be on exhibition and the booth will be a lounging place for all members of the association. It will be in charge of the following committee: H. K. Burket, William Wulpi, R. F. Hodgin and Charles L. Hopper.

Many petitions were received, signed by members of the association who desire to join the Indianapolis club. This is to be organized to promote enthusiasm for the next annual convention, which is to be distributed by the convention and this club expects to land them, President John Purcupile presided at the meeting.
