**GREAT WESTERN TYPE FOUNDRY**

'Phone 1076. 1114 Howard Street.

This cut is a representation of the building where 23 vehicles with MOFFETT ROLLER BEARING AXLES were built during the past season; where 437 sets of Rubber Tires were applied during the past season, besides an increase of nearly 140 per cent in our repair work. What does this mean? That we are today the foremost vehicle builders in this section of the country.

**You Can't Keep a Good Thing Down  
 Merit Always Wins.**

The order of the Knights of Ak-Sar-Ben is young in years, but strong in popularity and good works. The people from the entire west enjoy its festivities, and are proud of its accomplishments. It is strong, and popular because it is deserving.

Buyers crowd the store where the Hummer Plow is sold. The retail dealer, happy and content, takes his wife to church in an "A" grade buggy, behind a spanking team. He is able and willing to contribute liberally when the hat passes around; believing that the organ should peal and the choir sing the praises of the Hummer Plow.

The farmers of the entire country are cheerfully giving to the Hummer Plow the praise it so justly deserves; and the dealers who handle it rejoice at its victories over all competition. It wins every race.

Because of the profitable business the Hummer Plow has brought him, he is cheerful and filled with charity towards all mankind, and really feels sorry for his competitor whom he sees rushing to the country to fix a beam hitch plow, that refuses to work.

Are you a Knight? Do you handle the Hummer Plow?
