GOLF TOURNEY THIS WEEK ship, match play against bogey, eighteen AFFAIRS AT SOUTH OMAHA FIRST FOOT BALL OF SEASON Fransmississippi Golf Association's Big University Squad Shows Up Well in Event at Omaha Geuntry Club. **Contest** Against Lincoln High School.

ALL SORTS OF CONTESTS ON PROGRAM

Championships for Men and Womer to Be Decided and Contests in Driving, Approaching and Putting on Bill.

By far the biggent golfing event that over occurred in Omaha will be the grand cournament of the Transmississippi Golf association, to be held at the Omaha Counry club this week, beginning Wednesday, September 24, and closing Saturday, September 27. With a membership at present of twenty-one clubs in Nebraska, Kansas, Iowa Missouri and Colorado, the organization has during its comparatively brief exlatence grown to remarkable proportions and as a consequence of the great interest felt by all its members there are expected fully 100 visiting players in Omaha for the big competitions.

There are all sorts of contests arranged. Of course the championships for men and for women come first of all in importance, and next is the club championship for teams of five entered from the different clubs belonging to the association. Add to those events a consolation affair for the second sixteen qualifying in the amateur championship, and contests in driving, approachng and putting, and you have the golf field preity thoroughly covered. Certain it is that the playing off with many contestants if all these competitions will keep the Country club links busy during every minute of the daylight hours commencing next Wednesday.

The Country club, meanwhile, is making preparation fully in keeping with the imrtance and extent of this tourney. When the visitors reach Omaha they will find that unprecedented plans have been made for their entertainment and comfort and pleasure also for their golfing. Several committees of both men and women have been working on the matter for weeks past, and they are now about ready to rest on their pars and announce that everything is shipthape.

Swell Sporting Event.

The idea is to have this tournament far and away the biggest and most elaborate of any swell sporting event ever held in NEBRASKA-M. the Transmississippi country. Omaha has already experienced unparalleled success in tennis, shooting and such affairs, and now the Omaha Country club proposes to set the standard beyond anything else with the real game of the aristocracy in America, the patrician sport of golf.

So many sided are the arrangements for Mickel the social features of the tourney that they almost threaten to overshadow the golfing itself. To date the following is the bewildering social schedule: An afternoon tea each day; a table d'hote luncheon each day at 12:30 and dinner at 7; music and dancing each night; a committee of charming Country club women to make visitors feel at home; divers other distracting fem-

inine features. All to occur at the club. If that round, coming each successive day of four, does not put a few golfers hors de combat for the later rounds of play it will be a miracle. Meantime Secretary Leavitt is proceeding with the entries just as if no such fate were in store for the players, and he will have the completed lists Monday night, as the entries close then. The official program for the wook's play reads: Wednesday, Ladies' Day.

Shortage of Funds Likely to Curtail Proposed Public Improvements.

W. H. MAYBERY, PIONEER CITIZEN, DEAD (From a Staff Correspondent.) (From a Staff Correspondent.) LINCOLN, Sept. 20.-(Special)-Coach Booth's Cornhüskers began the foot ball season today in an suspicious manner. Their opponents in the first game of the university schedule were Lincoin High school and in short haives of fifteen minutes Booth's pupils drubbed their adversaries most theroughly. The final score stood 57 to 6. Dr. Wright to Lecture on "Persia: Its Habits and Customs," at First Presbyterian Church Tonight -Magie City Gossip.

Nebraska played loosely in the first hal and the High school lads held their beefe From the declaration made last evening antagonists almost level. One touchdown was all the Cornhuskers could amass and by one of the councilmen of South Omaha it is very probable that the number of arc lights and general repairs that are made in the future will be extremely limited. For some time past at each meeting of the

antagonists almost level. One touchdown was all the Cornhuskers could amass and the High school in a single spurt advanced the oval twenty-five yards in successive gains before the 'varsity braced. Bell was credited with Nebraska's single touchdown in the opening haif. During the Intermission Booth and Cap-tain Westover, the latter only playing a few minutes, gave the 'varsity some sound advice, which bore fruit, the Cornhuskers piling up touchdowns from the blow of the whistle and giving the High school lads no quarter. Bell scored the second touchdown, and Bender, who had been on the side lines previously, set the crowd wild by skirting the end on the first down after the kickoff and racing across the high school's goal. A few minutes later, siter Sched and Bell had rendered valuable ald in carrying the ball into the enemy's territory. Bender bucked through for ten yards and crossed council resolutions and motions, providing for the repair of sidewalks, crosswalks, grading of sections of streets and other improvements have passed the council with flourish. Then came the reaction. Treasurer Howe notified the council that it must cut down the amount of expenditures of this kind, as the money was running scarce This had some effect, but it was not until almost a mandate had come sailing in from the keeper of the city coffers, that heed of the situation was taken. A communication is now on file from City

had rendered valuable ald in carrying the ball into the enemy's territory. Bender bucked through for ten yards and crossed the line for a fourth goal. Nebraska's fifth goal was chalked up by Follmer, a new man at end, who sprinted around the High school's right wing and ran sixty yards for the coveted score. Shedd, previously had made a long gain around the left end. The High school was tired in the second Treasurer Howe, showing the amounts that the city will be compelled to pay out on the first day of October. There is an original bonded indebtedness which must be met of \$37,066.10, followed up by interest on

bonded indebtedness of \$4.870.51. City Treasurer Howe said yesterday afternoon that there were sufficient funds on hand to meet all of these obligations. He said further, however, that the funds on hand that could be used for public improvements were

Shedd previously had made a long gain around the left end. The High school was tired in the second half, while the 'varsity's team play showed decided improvement. The interference was remarkably effective for so carly in the year. Other rough spots, while expected, were excussible. Booth is well pleased with his new material, which is the most promis-ing that has appeared on the campus in any of the three years he has been in charge of the Cornhusker squad. Bhedd is playing in improved form at end and Folimer is a most promising candi-date. Hubbard and Tobin are both high-class material for center, while Molony, Ringer and Cotton should take care of the guard positions. Captsin Westover is the only seasoned tackle, but Briggs and Wil-son are improving in practice and promise to make good. Thorpe and Benedict are all that Booth could desire at quarter, the best pair, in fact, that ever were on the squad. Bell and Bender are experience backs and some sensational work is predicted for them during the yeart. Mickel at fullback combines weight, speed and spirit in a manner that bids fair to make him a capa-ble performer in the position. The sub-stitute backs that are needed should be developed from the large field of candidates and altogether the prospects are fairly en-couraging. The lineup today: entirely too limited to allow the council to provide improvements of any kind, unless the provision was imperative. It was stated last evening that several arc lights on the outskirts of the city would be removed in order to cut down the amount and that no more fire hydrants would be located during the fiscal year.

It is also a well established truth that nine-tenths of all diseases originate with a breaking down of the digestion, a weak stomach weakens and impoverishes the system, making it easy for disease to gain a foothold.

Nobody need fear consumption, kidney disease, liver trouble or a west 'part and nervous system as long as the digestion is good and the stomach able to assimilate plenty of wholesome food.

Stomach weakness shows itself in a score of ways and this little book describes the symptoms and causes and points the way to a cure so simple that anyone can under stand and apply.

Thousands have some form of stomach trouble and do not know it. They ascribe the headaches, the languor, nervousness, insomnia, palpitation, constipation and simflar symptoms to some other cause than the true one. Get your digestion on the right track and the heart trouble, lung trouble, liver disease or nervous debility will rapidly disappear.

This little book treats entirely on the cause and removal of indigestion and its accompanying annoyances.

It describes the symptoms of Acid Dys-pepsia, Nervous Dyspepsia. Slow Dyspepsia, Amylachous Dyspepsia, Catarrh of Stomach and all affections of the digestive organs in plain language easily understood and the cause removed. It gives valuable suggestions as to diet, and contains a table giving length of time required to digest various articles of food, somothing every person with weak digestion abould know.
