OMAHA HAS PLENTY OF CASH Statements of National Banks of the City Show Prosperous

Condition.

The statements of the national banks of Omaha just published, showing the condition at the close of business September 15, is an evidence of the general prosperous condition of the banks themselves and the country at large. There is but a slight decrease in the deposits compared with the July statement, showing that the drain in money which has caused so much comment and no little uneasiness in New York is not felt in Omaha nor in the west, because the reflex action of any stringency in the west would show in Omaha, as depositors would move their money to places where it might be needed. As compared with last year the deposits show a slight increase, which is considered as surprising by bankers, as it was expected that there would be larger withdrawais on the account of banks in the interior of the state, where it was thought that farmers would require cash for the movement of the crops which are now ready for the market.

The loan and discount account shows that the banks have been calling in cash in anticiyear at the corresponding time. Bankers generally express satisfaction

HURTS HIS CROPS Allegation of Douglas County Farmer in Suit Against Elkhorn Company.

Claus Mathles has begun action in the county court in an effort to collect \$1,000 from the Fremont, Elkhorn & Missouri Valley Rallway company as damages for the pation of the demand for money which is destruction of a portion of his vegetable expected to be more active during the crops, which he attributes to neglect on coming months. These loans and discounts the part of the company in caring for the are largely in excess of the loans of last embankments of its tracks. The railroad right-of-way runs through Mr. Mathies' farm, in this county, and the tracks are with the condition and say that business laid on embankments of gravel and clay. is on a normal footing with plenty of money The complaint states that, although the and a demand which is active enough for plaintiff has repeatedly in the past four years urged the railway company to construct ditches along the foot of its embankment, that has not been done and each year a portion of the plaintiff's crop of vegetables has been ruined by water washing down from the embankment.

LABOR AND INDUSTRY

New York City has 150,000 organized wage Morganville, W. Va., will have a \$1,000,000 plate glass plant. The Esnk of England employs about 1,000 people, pays £250,000 a year in wages and £35,000 a year in pensions.

The arbitration board of the Chicago City railway agreed upon a 10 per cent increase in wages, a uniform working day of nine hours and pay and one-half for all work over and above nine hours, and two holldays a month.

days a month.

The mevement for a strict law against child labor has been taken up in earnest in initians, and an effort will be made to push a stringent bill through the next legislature. Are educational qualification, similar to that in Massachusetts, is proposed.

A national convention of commercial telegraphers began in Chicago yesterday. The call has been sent to forty-three cities in the country, and a large attendance of delegates is expected. The purpose of the chivathical is to unite all the local unions of telegraphers recently formed into a national Lody.

A country of the West Virginia National

A company of the West Virginia National Guard, stationed at Rush Run, W. Va., was removed recently and another company substituted. It was found that the soldiers were persuading nonunion miners to quit, and also sharing their rations with the striking miners.

Now it is the milliners who have formed a union. They have been organized by the organization committee of the Chicago Frederation of Labor. Contrary to the general opinion the women are keeping the matter a close secret, as they fear discrimination if the matter becomes too generall, known.
