UMPIRE MORAN ASSERTS HIS AUTHORITY

Effects of the Angels to Monkey with the Man Who Wields the Indicator Prove Expensive in the End.

A little piece of obstinacy on the part of the Angels in the fourth inning Sunday demolished their chances of winning the second game with Omaha, and the Rangers were victorious by 9 to 4. Because Pitcher McPherson and his mates refused to play ball when Moran said so, the umpire put and a series of hite that followed resulted in seven runs for Omaha before the inning closed. Till then the game had been a grand contest. Twiriers Owen and Mc-Pherson were on a wire edge, and nelliber side had scored, each having but one small bit. Eight thousand poonle were on a state of the seven poonle were on the seven poonle were poonle were poonle were poonle were poonle were poonle were poonle p a couple of locals on base by calling balls, hit. Eight thousand people were out, and the batting for Omaha in the fourth.

Just then Duffy asked Moran to clear left field of treepassing spectators, as the crowd was not sufficiently large to make their presence along the fence necessary.

Moran sent a policeman out, and after the crowd was started toward the foul line by Morrissey, 4; by Leever, 7. Passed ball: Kling, Time: 1:25. Umpire: O'Day. said, "Play ball." But McPherson wished to wait till the last man was across the chalk, and said so.

"No, I'll not wait another minute," responded Moran, and then he called one ball to Carter. McPherson got busy then, but all he could do was to complete the gift, putting Carter on first. This brought Duffy and his cohorts running in to prosponded Moran, and then he called one test, and as they surrounded Moran the latter began calling balls to Wright, and soon had him on base also.

That brought plainly before Duffy what threatened him, and he began playing ball again. McPherson threw the ball to Dolan, who had been waiting at the plate all this time. Joe poked out a single, and there were three on base. Stewart came up and McPherson hit him, forcing in Carter. Amateur Harry Welch, Stone's substitute. followed with a single to left, and on a very wild throw by O'Brien all four scored.

More Work for Undertaker. This started pandemonium, and Thomas added to it by following with another single. Then Gonding put the ball to short, and on a play for Thomas at second both

men got safe. Owen sacrificed them ahead one, and Genins batted to Cockman, who foozled, letting Thomas tally and Frank to Here the visitors again swarmed in for a kick, and Mr. Gatins remonstrated in terms too forcible to please Moran. The next minute Duffy was hunting for another shortstop, as the immediate incumbent was marching off the field under the escort of a policeman. Duffy then decided

that it was no use to beef longer, and he put his team back to work a second time. O'Brien was pulled in to short, Mc-Vicker was sent from right to left, and Evers put in right. The Omahas were Brown. finally cut off, but not till Gonding had scored. This lead of seven runs was further increased by Omaha in the seventh, when Carter scored the only earned run on his double, followed by another of the same kind by Wright. Another came in the eighth on Thornton's amazing error and Gonding's single.

The Angels started out in the fifth to overtake that figure seven, but it was useless. In the sixth two hits and an error by Gonding gave them one, and in the eighth two singles, a hit by pitched ball. three more. But that was all,

Fielding features were not many, Harry Welch's catch in the seventh being the notable one, while Carter and Siewart did great work. Score:

TEBEAU'S MEN ARE VERY ANGRY Assert Umpire Tindill Has Favored Indianapolis in Pennant Race.

MINNEAPOLIS, Sept. 21.-Members of

the Louisville American association base ball team, now playing a series of games with the Minneapolis team, are highly in-dignant at the way in which they have been treated by Umpire Tindill. Two games were scheduled for this after-Two games were scheduled for this afternoon between the visitors and the home
team and as the pennant, for which the
Louisville and Indianapolis teams are making a close fight, greatly hinged on the
results of these contests, Captain Clymer
and his men used their best efforts to win
both. The first was won handly by a
score of 6 to 2, after a hard fight. When
the second game of the day started it was
3:50, the sky being quite cloudy. By mutual
agreement Captain Wilmot of the home
team and Captain Clymer of the visiting
club two full games were to have been
played, rain or darkness not excepted. But
after three and one-half innings of the
second game had been played Umpire Tindill declared the contest off on account of
darkness. The official's action greatly incensed the visiting players while the crowd
also showed its disapropoul of the unpire's darkness. The official's action greatly incensed the visiting players while the crowd also showed its disapproval of the umpire's ruling by hoots and hisses. A wrangle ensued between Tindill and the visiting players, and for a time there was promise that the umpire would be attacked. He finally got under cover, however, and two officers gave him protection. When Minneapolis played Indianapolis last Friday, in the sixth inning, with the score \$ to \$ in favor of the home team a heavy rain set in. In the seventh inning the rain was coming down in torrents and although the players were drenched, Umpire Tindill allowed play to continue. In this inning the visitors tied the score. There was a perfect downpour while the eighth inning was in progress, but play went on uninterrupted. In

pour while the eighth inning was in progress, but play went on uninterrupted. In this inning Indianapolis scored two runs and secured enough runs to win the game, as in the locals' half of this inning they failed to tally and the game was then called on account of rain.

In view of this action and today's deal on Tindill's part, the Louisville management has been led to believe that Umpire Tindill has favored Indianapolis and on the other hand discriminated against Louisville in the series played here. Had Umpire Tindill called the game when rain started Friday, as the rules demand, and had he allowed play to continue in this afternoon's game, which the Louisville in had he allowed play to continue in this afternoon's game, which the Louisville ing team felt sure of winning, the two leading clubs would now be on almost even terms. The Louisville team still has a chance to win the pennant, but in order to do this they will have to win three games which are scheduled for tomorrow, while Indian ground in the chances at the present time greatly against the Kentucky team.

Toepperwein Makes World's Record at Clay Targets Down at

San Antonio. BAN ANTONIO, Tex., Sept. 21 .- A new world's record at wing shooting with rifles was established by Adolph Toepperwein today when he broke 986 out of 1.000 clay targets thrown from traps. Toepperwein's previous record and which until today stood alone, was 979. Best runs today without a miss were 106, 113, 122, 212, 228.

Preparing for Coursing Meet. SIOUX FALLS, S. D., Sept. 21 .- (Special. -Preparations are rapidly being completed for the second coursing meet for the Aber-deen cup, to be run near Madison on Sep-tember 30 to October 3. This will be the deen cup, to be run near Madison on September 30 to October 3. This will be the big coursing event of the northwest, and will be second only to the Waterloo meet, which will be held at St. Louis about November 1. The Aberdeen cup, which was won last year by Jack McKen of Sloux Falls, was presented to the coursing fraternity by the Aberdeen Coursing club. It is a beautifully engraved, solid silver cup, valued at about \$250, although to the coursing fraternity it is worth much more, of course, for it greatly increases the value of any kennel to win it. Added to the value of the cup will be a purse of \$350, making a total value in prizes of \$600. Mc-Keon, winner of the cup last year, has forwarded it to Secretary Danlels of the Madison Coursin club, and it has been placed on exhibition in a drug store at that place.

Nashville the Pennant Winner. NASHVILLE, Tenn., Sept. 21 .- The ern league base ball season closed today, with New Orleans, Chattanooga and Mem-phis the winning teams in the final games. Nashville secured the pennant and Little

Rock is second. Golf Record at Country Club. At the Country club yesterday Miss Partsch made the course in 71, which es-tablishes a new record for the links.

HURON COLLEGE PROSPEROUS

Attendance Shows Large Increase Over Last Year, with More

HURON, S. D., Sept. 21.-(Special.)-The opening exercises of the fall term of Huron college were interesting and quite largely attended. The annual address was delivered by Rev. William M. Jennings, pastor of the Presbyterian church at Brookings. A large number of new students were present and many of those of last year have returned-others are arriving daily. The enrollment during the first two days of the term exceeded that of last year by about one-third, and correspondence indicates that a much larger number will be enrolled within the next few days. The number is so great that it has become necessary to fit up apartments heretofore unused in the fourth story of the college building. Accommodations for thirty more young men and about the to the number present last year, have been assigned rooms in the building. Four new

did not return this year. The trustees are planning to secure enwith promise of success. It is confidently expected that with the opening of the next spring term buildings will be begun on the campus which has been donated to the

college for this purpose.

CUSTER CITY, S. D., Sept. 21 -- (Special.) -A mine which is attracting considerable attention at the present time in this dishas ever been found in the Black Hills.

ranging from three feet to seven and a half money the next day. feet in width. All of the veins which have been cut by the drift carry free gold, but all of them do not carry the telluride ores which are so very rich, there being about three feet of this kind of ore. Work is going on in the crosscut, and the ore which being taken out is being sacked for shipment, precautions being taken to see that none of the rich ore is lost. Since the strike was made on the ground about a month ago enough of this rich ore has been taken out to pay for the work which has been done on the property. and for the machinery to install a concen-BREAKS NEARLY A THOUSAND trating plant, which it is expected will be put in operation within a short time. It is a difficult proposition to treat the ore, and the company has not as yet decided what kind of a plant, aside from the concentrators, it will place on the ground. There is a good milisite on the property and the new owners of the ground will not have any trouble about water, for a good sized body of it flows in Laughing Water creek.

New Machinery Arrives.

The large invoice of machinery recently purchased in Chicago for the Saginaw Min-

so have just begun on this property, and the stable of the same number of young women, in addition length and by about 300 feet of crossmen have been added to the faculty, two expose it for a width of seventy. The ore of them taking the places of others who is a low grade proposition and will avdowment and funds for the erection of new which carries florine and gives values of buildings. This work is already under way, \$25 a ton and better. This is the same SIOUX FALLS, S. D., Sept. 21 .- (Spe- is well prepared to do extensive work on cial.)-On Tuesday of this week, before the property and to make the improve-Judge McCoy of the Fifth judicial circuit, ments which are contemplated, and which it will begin as soon as the necessary arrangements can be made. Work of de-Commissioners at a meeting in this city veloping the ground is being continued against the Great Northern Railroad com- and it is showing up better with every pany. The suit resulted from the failure day's work. There is an immense amount of the railroad company to comply with of ore already exposed by the workings on an order of the railroad commissioners re- the ground and a great deal of it has been quiring it to establish a station and con- placed on the dump, all of which is availstruct a depot building at the town of able for milling just as soon as the comroad north of Watertown. The Great work of the company, while it develops Northern was notified some time ago that the ground, also is putting ore on the the complaint of the people of Stockholm dumps, so that there will be a good supagainst the road would be heard by the ply on hand when it is wanted. It is in railway commission, but no representative one of the best locations along the gulch of the road appeared on the date set be- and surrounded by good and producing fore the commission and the commission properties, being just across Poorman accordingly carried the matter into the gulch from the Hidden Fortune, the ground from which Otto Grantz took out a fortune in less than three weeks' work. This prop erty is being worked by a strong company and there is no reason why it should not within a year be numbered among the pro-

ducers of the Black Hills. The Red Cloud group of claims, also owned by the company on Dead Dog hill in sisting of a farm of 160 acres, situated the same vicinity is opened up by a shaft forty feet deep. This shaft is following down a six-foot vertical in the porphyry, and when the shaft has been sunk a little farther stations will be established and crosscuts started along the vein for the purpose of stoping out ore. The ore in this vertical is small a state of the purpose of stoping out ore. The ore in this vertical is small as a s in McCook county, this state. The land is forty feet deep. This shaft is following easily worth \$5,600. The donor is I. D. down a six-foot vertical in the porphyry, Smith of Madison. The other day Super- and when the shaft has been sunk a little intendent Sherrard received an invitation farther stations will be established and in response. Superintendent Sherrard this vertical is similar to that found in the carries very good commercial values runnings from \$15 to \$25 a ton. Some very rich ore is taken from the vein, but the average, while not what might be called rich, is better than the average shipping ore, and selling at \$7.2007.40; bulk, \$7.2507.30. states that this handsome gift now gives Gilt Edge mine in Strawberry gulch, and nually and permanently care for five chil- while not what might be called rich, is

what the company now has on the dump would more than pay for the work which has been done on the property did it wish to ship it, but se it is the intention to have Rich Old Salmen Mine is Now the Still a treatment plant of its own in operation Cattle Receipts for the Week the Largest in within a short time it is being held to be

treated in that. The company owns a splendid mill site on Deadwood creek, convenient to both groups HOGS CONSIDERABLY LOWER FOR WEEK of claims, so that the ore from either of them can be brought to it with very little trouble and at the minimum of expense. The plant which will be erected by the company will be a stamp mill, with a cyanide tailing plant attached, and will have a capacity of 100 tons to start with, which will be increased as soon as conditions warrant.

Shipments to the Mint.

The United States assay office in this trict is the Gold Fish, situated below this city has shipped, so far this year nearly city on Laughing Water creek. The mine \$1,200,000 in gold to the mint at Philadelwhen owned by its original locators was phia, and the coming months promise to considered one of the best specimen mines raise the monthly shipments considerably. in the Black Hills, and paid them many Several new treatment plants will be in opthousand dollars for pounding the quartz up eration before the end of the year, and in a martar and then panning it out. It was with the output of these going through the known then as the Salmon mine, and so office the aggregate should amount to almost rich were some of the specimens taken \$2,000,000 for the year. Next year promises from it that they really contained more to be a banner year for the office, for at gold than quartz. After working it for a least a dozen new plants will by that time number of years in this manner, gophering be turning their product of gold over to it. along the vein, taking only the rich ore Not all of the gold by any means that is and leaving the ore which did not carry produced in the Hills passes through the free gold, its owners ran out of the rich office, most of the big companies shipping streak and then sold it to a company of their gold direct to the mint. The office, eastern people, who have, since they came since its establishment, has been of great into possession of it, performed a great benefit to the Black Hills, making it a condeal of work on it, with the result that they venient market for the small producers, have opened it up richer than it ever was, one in which they can deposit the product and some of the ore which is being taken of their mines and receive pay for them in from it today is richer than anything that the shortest possible time, for often it is essential that the money for their clean-The ore is a telluride bismuth, carrying ups be paid to them at once, whereas did sept. free gold, and it would be hard to tell how they have to wait for returns from the sept. much a ton of it would run. The new com- mint it would cause them, in many inpany has a shaft down seventy feet and from stances, great inconvenience. As it is now, this shaft a crosscut has been run for sixty they can deposit their bricks with the asfeet, and in its course has cut three veins, sayer, have them tested and receive their

Report from Mining Congress,

The Black Hills Mining Men's association met in this city last Thursday evening and received the reports from the members of the club's delegation which had attended the International Mining congress at Butte, Mont., and which had succeeded in securing the next meeting of the association in Deadwood and Lead. One of the conditions of the congress coming to the Hills was that \$3,000 be raised within thirty days from the time of the adjournment of this year's session. At the meeting on Thursday evening this amount was guaranteed, the Mining Men's association assuming the responsibility for raising it. Of amount the association will subscribe \$1,000. the city of Deadwood \$1,000 and the city of Lead \$1,000. At the meeting committees were appointed and arrangements started to perfect plans for entertaining the congress when it comes here next year and it is certain that when the time comes nothing will be lacking and the delegates to the congress will be given the time of their lives, even though the Mining Men's association has to bear every item of expense.

MANCHESTER, Sept. 21.—The tendency of the cloth market last week was against buyers and the turnover did not equal that of the last week. Deader cotion and the poorness of prices recently obtained compel producers to insist upon advances. Almost all transactions were at somewhat higher rates. Nevertheless manufacturers are increasing their engagements. There was a better Indian inquiry, offers are slowly improving and prospects are encouraging. Many leading china makers are in a fairly strong position and decline to repeat previous sales. The miscellaneous, Levant and South American trades were limited.
