

goodbye. For three squares along South Meridian street...

As soon as Captain Hyland of the police arrived there, he alighted and running to the door of the president's carriage...

After the president entered the operating room with the physicians he sat down on a stool and waited for the instructions from the physicians and surgeons...

"I am extremely sorry that I cannot continue my western trip," said he. "Can't you let me go ahead with it after this thing is over?"

Several of the surgeons turned to him and one said: "It is my opinion that you would be very indiscreet to continue on your feet, as would be necessary in your speech-making trip..."

"Very well, it will have to be that way," said the president, resignedly. "I will do as you gentlemen say. Now, what do you want me to do?"

"The president was told to remove his shoes and stockings and neither garments. He also removed his coat and vest..."

"Operation is Painful." The pain caused the president to utter several times in a low voice, but he said nothing that was distinct except to ask for a glass of water before the needle had been removed...

"You will be hailed upstairs in a few minutes," said a surgeon. When they brought the vehicle to the door, the president said: "Why, that's a wheeler, president."

After being taken to the upper room from the operating room the president was served with a light luncheon and chatted pleasantly to those in the room. He made several kind remarks to the attending nurses about the trouble he was causing and shifted his position several times nervously.

At 7:40 p. m., a white blanket was thrown around him and he was placed on the hospital stretcher and, escorted by a company of infantry, was taken to the train by four negro porters from the train. He bade goodbye to the nurses as he was being carried out of the hall to the elevator and thanked them for their kindness.

The history of the trouble. The leg which made an operation necessary was occasioned by a bruise he received at the time of the trolley car accident at Pittsfield, Mass., when the president's carriage was run into and demolished by a car. Beside being injured in the face and arm, the president was injured at that time received a blow upon the inner part of the left leg between the ankle and the knee, but he paid no attention to it, ignoring it as being a slight bruise not worth talking about.

Telegrams Pour in on President Arrived Before the Needles Arrive Out of His Leg. RICHMOND, Ind., Sept. 23.—President Roosevelt's train arrived here at 5:45 p. m. The president was resting easily and the wound on his leg showed no immediate effects of the short trip from the hospital to the train at Indianapolis. On the contrary, the president suffered less pain than he has for several days.

After consulting with Dr. Richardson, another member of the party, it was decided that in order to avoid the possibility of blood poisoning it would be wise to have an operation performed. The president was very much averse to anything of the kind being done. Nevertheless, when Loganport, Ind., had been reached he had been prevailed on to deliver the tariff speech which had been prepared for Milwaukee and was regarded as one of the most important of his proposed speeches for the west.

Beveridge Summons Doctors. At Loganport Senator Beveridge boarded the train and after a consultation with him it was decided that he should summon several of the best physicians of Indianapolis to meet the president and with this end in view the senators telegraphed for Dr. Oliver, Dr. Cook and Dr. Jameson to be at the Massachusetts avenue depot. When the train pulled into the station the doctors were there and they were taken by the senator immediately into the president's car. The physicians accompanied the party to Tomlinson hall and it was thought by those who noticed them that they were merely present as members of the reception committee.

When the president arose to acknowledge the reception given him at the hall and also when he got up from his seat to make his speech it was noticed by those near him in front of the hall that he stood with all his weight on his right leg, and the posture seemed so awkward and so much like a pose that it caused more than one comment. Little did they think that he did so because of the pain in the left leg.

During the delivery of his speech, when he had become aroused, he stood on both legs, and at one point in the speech he seemed to forget about his injury so completely that he took several steps, and in doing his leg against a sun that was stacked with others on the stage. An expression of pain passed quickly over his face, which was remarked upon by many listening to him, who could not understand why he should make such peculiar facial expressions.

ARRANGEMENTS AT CAPITAL. Cabinet Members and the Physicians Plan to Make Crippled Executive Comfortable as Possible.

WASHINGTON, Sept. 24.—The illness of President Roosevelt and the consequent abandonment of his western trip came as a total surprise to everybody in Washington. Secretary Moody and Wilson had both planned to join the president this week and accompany him for a time. Now, however, that the president is returning to Washington, Mr. Moody will postpone his visit until the time for his address before the Marquette club of Chicago, which engagement he will keep.

An official report of the president's condition came to the Navy department yesterday from Dr. George A. Lunge, the surgeon who was detailed to accompany the chief executive on his trip. It was addressed to Rear Admiral F. M. Rixey, chief of the bureau of medicine and surgery, and in his absence from the city its contents were not made public.

Dr. John Urie, the assistant chief of the department, who for a time was detailed to act as physician to the Roosevelt family, took the report to Secretary Moody, it was very much in accord with the statement issued by Secretary Cortelyou, issued from Indianapolis prior to the operation, and stating that there was a bruise on the shin, and that a minor operation was necessary. It was stated that the president would need rest and that it would be necessary to abandon the western trip. Dr. Urie is of the opinion that the president will be all right in a short time. Such words as that described are apt to be more painful than serious.

Care is Necessary. Whenever there is a break in the continuity of the skin, he said, it makes the circulation of the blood in that vicinity very poor and careful handling of the injury is required to prevent any ulceration. The doctor thought, from his present information, that a rest of a week or so would cause the wound to heal nicely and the cause of the disturbance to disappear.

Dr. Rixey, who is acting as physician to the late President McKinley and also to the Roosevelt family until he was appointed surgeon general of the navy, will be in the city today and will be available for assistance in the care of the president should his services be required.

No word regarding the president's condition, nor of his intention to return to Washington, had been received at the temporary White House up to midnight tonight. The general expectation, however, is that he will make his headquarters there during his stay in Washington. While the accommodations are not adequate for the entire family, they are ample for the president and Mrs. Roosevelt, should the latter join him, and a corps of servants, and can soon be put in shape for the reception of an accumulation of business on hand awaiting Mr. Roosevelt's return, and this, with the fact that the president has promised to witness the parade of the Grand Army two weeks from tomorrow, leads officials in Washington to believe he will remain here until that occasion has passed. Secretaries Moody and Hitchcock and Attorney General Knox are the only cabinet officials in Washington at this time. They were very much surprised to hear of the illness of the president. Both Mr. Moody and Mr. Hitchcock said they had not heard anything from Secretary Cortelyou.

London Press Already Comments. LONDON, Sept. 24.—The London newspapers are reporting the illness of the president and the details of the operation on President Roosevelt. They express considerable surprise at the unexpectedness of the operation, as well as sympathy for the president, although it is believed to be a trifling matter, and Secretary Cortelyou says that the president's condition is not serious.

VETERANS TO BE UNITED. Detroit Branch Votes for an Amalgamation of the Various Associations. DETROIT, Mich., Sept. 23.—When the convention of the United Veterans of the United States met here today, a resolution was adopted to amalgamate the various associations of Spanish war veterans.

Those Present. The senators and others of the party were not invited to ascend in the elevator, and the only ones present at the operation were Secretary Root and Private Secretaries Cortelyou and Cook. The doctors present were Drs. George H. Oliver, George J. Cook and Henry Jameson of this city and Drs. George A. Lunge and J. J. Richardson of Washington. Drs. Dowd and Mace, two internes at the hospital, were also present.

The president's nurse in the operating room was Sister Mary Joseph, but in his private room he was attended by Sister Regina, whom he became acquainted with at Montauk point. Sister Regina was one of the nurses who, at that great camp in Cuba, and there she performed much heroic work in attending to the fever-stricken men, among whom were a number of Colonel Roosevelt's own regiment of "Rough Riders."

OLATHE, Kan., Sept. 23.—Bessie Hickland, who murdered a 13-year-old boy at Wilder last July and was found guilty of murder in the second degree a few days ago, was today sentenced to twenty years in the penitentiary.

CUBA FORCING THE ISSUE. Motive Behind the Request for Withdrawal of Troops from the Island.

Disturbances on the Island Indicate Their Presence is Necessary to Make Good Guarantee of United States.

(From a Staff Correspondent.) WASHINGTON, Sept. 24.—(Special Telegram.)—Cuba's demand upon the United States to withdraw our troops from the island is taken here to mean a determination on the part of President Palma to insist that the United States should be maintained and in consonance with that pledge it persists in keeping troops on the island, notwithstanding the desires of the Cuban government. The fact is that already outbreaks have occurred in Cuba, indicating the willful lack of a determination to guard against national outbreaks and it has been thought best to keep the small force of American troops now in Cuba at their several posts. There are but 800 troops all told in Cuba, a mere bagatelle should an uprising occur, but as our nation stands pledged to preserve the life and liberty of its neighbor, we have no other door next but to keep the troops on the island.
