Trouble is said to be brewing in a number of nonunion mining camps in the McAlester and Hartshorn coal district. Organizers are making speeches nightly and an open war likely will be declared soon against the operators who have refused to sign the state recently promulgated by the union men of Arkansas and the Indian Territory.

MIDWAY FOR ST. LOUIS FAIR. Amusement Boulevard is to Be on the Plan of the Famous Chicago Street.

ST. LOUIS, Sept. 24.—The amusement boulevard of the Louisiana Purchase exposition, corresponding with the famous Midway Plaisance at the Chicago world's fair, along which will be placed most of the wooden palaces, was located and started today by Chief Engineer Richard H. Phillips, Director of Works Taylor and Director of Concessions Grogg.

The line runs from a point near the northwest corner of the site, between the location of the transportation building and Skinner road and the location of the machinery building and the same thoroughfare, running parallel with Skinner road until after it has ascended the slope of the wooden plateau.

On the summit of the plateau the boulevard will spread out in fan shape as it takes a trend toward the southeast until it ends somewhere in the rear of the southeast corner of the fine arts palace. Larger concessions, like the City of Jerusalem, will be located on the extensive area west of Skinner road.

Closure of Conference. The conference of heads of state institutions came to a close at noon today. The matter of chief discussion and greatest interest at the conference was the question of what to do with undesirable employees at state institutions. It appears that there are persons who are chronic mischief makers and wherever they go, no matter to what kind of a state institution, they cause trouble. The paper read by Superintendent Fitzgerald and prepared by Dr. Witte of Clarinda dealt with the subject in a free manner and recommended virtually that there should be a general exchange of information among superintendents for their mutual protection against undesirable employees and servants in the districts.

The morning the superintendents related their various experiences in this line and approved of what Dr. Witte had said. A paper on engineering was read by Clayton Durham of the Soldiers home and a paper on winter dairying at institutions by Superintendent Gase of the Orphan's home. A paper by Mrs. Hillis on juvenile courts was well received by the conference. The program for the next conference was arranged, with the paper by Superintendent Robert on "Compulsory Education" to be given, also a paper by Dr. Marion H. Pugh on "The Relation of Physical Defects to Mental Development," a paper by Chairman Cowles on "Insurance of State Institutions," a paper by Warden Jones on "Scientific Management of Charities," and a paper by Superintendent Miles on "Juvenile Courts and Their Influence at Reform Schools."

Bonaparte Dam Case. The attorney general plans to commence action very soon in the legal proceedings to establish the right of the state of Iowa to build a dam over the dam in the Des Moines river at Bonaparte. The legislature passed a law which requires the attorney general to commence proceedings for condemnation over the dam. This will force the matter into the courts again, and it is understood that the Meeks, owners of the dam, will again make a fight to resist the right of the state to give the fish a chance to get up the river. Announcement was made some time ago that one of the Meeks would be a candidate for the legislature, which indicates that the effort to get the state to pay a large sum of money for the dam may be renewed again. Another recent project is to utilize the power of the dam for running an electric interurban line across the southeastern part of the state connecting Bonaparte with Burlington and other cities.

DRUGS LESS THAN DISEASE.

The leading doctors say: "There are more deaths caused by drugs than disease; if you would keep his system fortified with an invigorating stimulant and tonic, you would keep his system fortified with an invigorating stimulant and tonic." Statistics show that these doctors are right and that the leading causes of death are consumption, grip, bronchitis, pneumonia, catarrh, cough, dyspepsia, malaria and all low fevers, nervous prostration, female troubles, sleeplessness and weakness from whatever cause; all these diseases are caused by a rundown condition of the system.

Mrs. Frank Grosvenor, No. 212 Twenty-first St., Galveston, Tex.

GALVESTON, TEX., March 13, 1902.

For three years after my marriage I felt peculiar bearing-down pains such as I had never experienced before. I tried different remedies but found it was only money wasted. I then consulted a physician who treated me for two months and then said my ovaries were diseased. I tried another physician but found that would never get well unless I had an operation. I know that would mean that I would never have a child and I dreaded the ordeal.

It has been impossible to hear from the town for several hours and at this time the situation there is unknown here. My sister-in-law then visited me and when I told her of my troubles she said: "If you had used common sense and Wine of Cardui you would not have been in such a plight." She had used it in her own case and she had carried her through three times when she had children. I sent for some at once and took it faithfully and now find to my great joy that it was all cleared for it. New strength and with it new hope came back to me and it seemed as if every dose gave me new life.

Within three months I was changed from a dragged out mortal weary of life to a hearty, healthy woman full of ambition and life. No operation was needed and better than all the pride and joy of the household. I have had two other children since without a particle of trouble. I am well and never take any medicine but Wine of Cardui. I only write that other poor sick women could know of this life-giving medicine and would take it without spending time and money on doctors, who don't cure.

WINE OF CARDUI, the simple remedy which Mrs. Grosvenor advises you to take has transformed her from a sick, discouraged woman to the bright, happy, healthy woman you see in this portrait. Instead of languishing on a bed of sickness Mrs. Grosvenor is now equipped for any duty of womanhood. There are some chronic cases which no medicine can cure but nineteen out of every twenty sufferers today may be cured by the use of Wine of Cardui. This vegetable Wine regulates the menstrual flow, making it regular and free from all painful and painless. The bearing-down pains which make life a torture stop when Wine of Cardui is used and the terrible smarting pains and the inflammation cease. Though powerful in correcting the irregularities of menstruation, Wine of Cardui is a very mild medicine. Any woman may take it without a doctor's supervision, although doctors often give it to their patients when their own remedies fail. This Wine of Cardui treatment is taken quietly at home. No embarrassing private examinations or offensive operations are necessary. If you secure a bottle of Wine of Cardui and begin taking it today you will feel health returning before the month is up. Why not secure a dollar's worth of Wine of Cardui from your druggist at once? Do not accept any other medicine but the Wine of Cardui treatment which Mrs. Grosvenor writes about.
