

politicians, but they are glad enough to help him to a post that will get him where he cannot keep in touch with Nebraska politics.

Senator Millard has received a telegram signed by Alvey A. Adee, assistant secretary of state, conveying the information that Mr. Thompson had been appointed minister to Brazil to succeed Charles Page Bryan, appointed from Illinois. The appointment carries with it a salary of \$12,000 a year.

ATTENDS TO SOME BUSINESS

President Sits Up on Lounge in Room and Reads the Papers.

WASHINGTON, Sept. 26.—The condition of President Roosevelt's injured limb is considered satisfactory by his physicians.

There has been no appreciable variation in his temperature since yesterday and after the examination of the wound this morning by Drs. Rice and Lung it was announced that the president was progressing favorably.

The inflammation around the wound is slowly subsiding. This morning the president sat up on a lounge in his room, read the papers and attended to some executive business.

None of the members of the cabinet called before noon and no visitors were admitted to his room. The president is obeying strictly the injunctions of the physicians for absolute rest and quiet, although the inactivity is exceedingly irksome to him.

Much of the time of Secretary Cortelyou and the White House force is employed in explaining to committees in the places which the president was to have visited on his western trip the keen regret which the president expressed on being obliged to abandon his journey. To some of these letters the president is giving his personal attention.

Drizzly, rainy weather outside yesterday and today has in no wise affected the president's spirits and he is cheerful in his enforced confinement.

The condition of President Roosevelt's injured leg shows steady and satisfactory progress toward improvement. There is only a slightly perceptible change from day to day as the healing process is naturally slow and tedious. The president spent the day very quietly, his principal visitor being Secretary Moody who had some Navy department matters to bring to his attention. Dr. Rice called for a short visit about 4 o'clock and Dr. Lung, the president's regular physician was with him for a brief time during the evening.

NO DANGER OF BLOOD POISON

Examination of Serum from President Roosevelt's Leg Discloses that It is Harmless.

INDIANAPOLIS, Sept. 26.—A microscopic examination of the contents of President Roosevelt's wound has been completed by Drs. F. W. Wynne, Charles E. Ferguson and W. T. S. Dodds of this city, and all three of the physicians agree that no trace of dangerous matters was found in the serum.

The five doctors who performed the operation to relieve the abscess on the president's leg expressed the conviction at the time that there was no danger of blood poisoning, but as a matter of precaution the serum was submitted for examination to the three microscopic experts.

SPEND DAY WITH MRS. MCKINLEY

Secretary Root, Senator and Mrs. Hanna and Others Take Lunches at Canton.

CANTON, O., Sept. 26.—Secretary of War Elihu Root and Senator and Mrs. M. A. Hanna reached here today from Cleveland to visit Mrs. McKinley. They were driven direct to the McKinley home in the family carriage and luncheon was served.

General and Mrs. A. R. Hastings, old friends of the family arrived over another road about the same time and were members of the luncheon party. Later all visited the tomb of the late president. The party returned to Cleveland tonight.

Hon. A. L. Vreie, insurance commissioner of Ohio, Hon. J. V. Barry, insurance commissioner of Michigan and Hon. D. H. Appleton, insurance commissioner of New York came to Canton this afternoon, being the guests of Senator Hanna in his private car from Cleveland to this city. They came as a committee appointed by the National Association of State Commissioners at its recent annual meeting in Columbus to present to Mrs. McKinley a memorial adopted by the association last year on the death of the president.

The commissioners, accompanied by Julius Whiting of this city, went to the McKinley home and presented the memorial to Mrs. McKinley. It is handsomely engrossed and the plush covering is lettered in silver with the monogram of William McKinley. The presentation was made in the presence of the distinguished guests at the McKinley home.

When Secretary Root, Senator Hanna and party and General and Mrs. Hastings visited the tomb of the late president, this afternoon they found the casket covered with beautiful wreaths sent by President Roosevelt and Mrs. Garrett A. Hobart. Senator Hanna and party spent most of the time here with Mrs. McKinley at her home, only leaving long enough before train time to visit the cemetery.

NET BY STEEL CORPORATION

Quarterly Dividend of Five Millions to Be Paid in Checks Mailed Today.

NEW YORK, Sept. 26.—The United States Steel corporation announced today that it would mail tomorrow for the quarterly dividend on its common stock due September 30, and that the checks would be payable September 29. The sum of the quarterly dividend is \$5,000,000, and that sum will be released to the money market.

J. P. Morgan & Co. today notified the shareholders of the various companies and corporations for which they act as fiscal agents that they would anticipate October interest and coupon payments next Monday, two days in advance of the required time.

Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system.

Hood's Sarsaparilla

which expels all humors, and is positively unequalled for all cutaneous eruptions.

SHAW TO PREVENT A PANIC

Secretary of Treasury Offers to Buy Outright 1904 Bonds.

AMOUNT IS NEARLY TWENTY MILLIONS

Also Issues Circular Explaining the Manner in Which the Government Will Prepay Interest on Its Obligations.

WASHINGTON, Sept. 26.—The secretary of the treasury has made public announcement that he will buy 5 per cent bonds of 1904 at 105. There are \$19,400,000 of these bonds outstanding.

Secretary Shaw also today issued the following circular, carrying out his announcement yesterday regarding the prepayment of the interest on bonds of the United States:

"In pursuance of authority contained in section 4909 of the revised statutes of the United States, public notice is hereby given that the interest maturing on the several interest dates between and including November 1, 1902, and July 1, 1903, on the registered 5 per cent coupon bonds of the United States of the following tenures, to-wit: One-half of 1 per cent per month on the amount prepaid under the following conditions:

"Owners of registered bonds desiring prepayment must present their bonds to the treasurer of the United States, who will stamp upon the face of the bonds the fact of such prepayment and return them to the owners, with the interest for the periods above mentioned.

"National banks owning bonds deposited with the treasurer of the United States to secure circulation or deposits may obtain prepayment upon application to the treasurer of the United States. The bonds so held, upon which interest is prepaid, will be stamped as above indicated.

"Coupons maturing upon the date included in this circular may be presented for payment at the office of the treasurer of the United States, or any assistant treasurer.

"In calculating the amount of rebate to be allowed, any fractional part of a month will be reckoned as a full month and the rebate for such fractional part of a month calculated as a full month will be retained by the United States.

"Prepayment under this circular will be made on or after October 1, 1902, and continue until November 30, 1902, but prepayment of interest on registered bonds on the loans of 1904, 1908 and 1925 will not be made while the books of those loans are closed."

Secretary Shaw believes that 105, the price he offers to pay for government 5's of 1904 is reasonable and just, and that though the current quotations are slightly in excess of that figure he said today that he regarded such excess to be the result of inflation.

At the price he offers a private investor would realize about 3 1/2 per cent for the risk the bonds have just met. The amount of 5's of 1904 now outstanding is \$19,410,350.

NEW YORK, Sept. 26.—The treasury has been directed to anticipate payment of \$50,000 Australian gold deposited in the San Francisco mint for account of two local banking houses.

COLOMBIANS FILE A PROTEST

Objection to the Landing of American Marines is Not, However, Considered Valid.

WASHINGTON, Sept. 26.—In regard to the protest against the landing of American marines on the Isthmus of Panama, the State Department today issued the following statement:

"The United States guarantees positively to New Granada, by the present stipulations of the treaty of 1846, that the Isthmus of Panama shall not be interrupted or embarrassed in any future time while this treaty exists."

Furthermore, in respect to the governor's reported statement that he considered the landing of the United States naval forces an attempt to assume the sovereignty of Colombia, attention is directed to this declaration in the same paragraph of the treaty:

"The United States also guarantees the rights of sovereignty and property which New Granada has and possesses over the Isthmus of Panama."

So far neither the State Department nor the Navy department has been informed officially of the protest of the Panama government. It was stated at the Navy department today that no mention of the protest was made in the long dispatch received from Commander McLean yesterday, in regard to which only a general statement was made public.

If Governor Salazar, in making the security of the lives and property of foreigners a ground for protest against the presence of the American marines, did so on the assumption that the transit was safe against interruption, then the officials here are not inclined to the same view.

They point out that there would have been an interruption of traffic on the Isthmus on Wednesday, when 800 insurgents attempted to capture a Colombian officer aboard one of the trains, had it not been for the presence of the American marines.

DINKELLA OUT OF PRISON

President Grants Pardon to Centennial's Second Mate After Twenty-Two Years' Confinement.

WASHINGTON, Sept. 26.—The president has granted a full and unconditional pardon to William Dinkella, convicted in 1880 before a United States consular court in Japan of the murder of Charles H. Abbott, the first mate of the American ship Centennial while lying in Higo harbor, the prisoner being the second mate of the ship. Dinkella has been in prison for more than twenty-two years, two years in Japan and over twenty years in the Albany, N. Y., prison. He always has insisted that the crime was committed in the heat of passion and when he believed his own life was in jeopardy, the testimony showing that the murdered man had beaten and choked the prisoner almost into insensibility when the prisoner secured his pistol and shot Abbott dead. The attorney general says that the element of pre-

mediation was entirely lacking and that in these circumstances the crime could not have risen above murder in the second degree, the maximum penalty for which is fixed usually at twenty years. In view of this fact and that of the uniformly good behavior of the prisoner while in the penitentiary, a full pardon is granted.

INCREASES GERMAN TARIFF

Special Commission Schedules Rates Higher, Even Than Those of the Government.

WASHINGTON, Sept. 26.—The State department made public today an important report from Consul Monaghan from Chemnitz, dated August 29, in regard to the proposed German tariff on foodstuffs.

The counsel says that while the German government itself had in mind a decided increase in the price of foodstuffs, as indicated by its proposed recommendations upon the new tariff, the tariff commission, which is composed mainly of agrarians, has drawn up a schedule of duties which presents an extreme advance even over the government recommendations. When now pays \$30 for every 250 pounds. The government's proposition is \$1.35 and the tariff commission determined on \$1.75. The respective figures for rye are \$35, \$4.48 and \$1.63, and all along the line as great and greater increases are noted. Mr. Monaghan says the German agrarians claim that secret understandings between the guilds of butchers and bakers are responsible for the high prices, but he transmits a statement of a butchers' guild that the great advance in prices is due to the "scarcity of live stock brought about by the closing of the German empire to the importation of live stock from the more abundantly supplied neighboring states."

Funeral of Major Powell

WASHINGTON, Sept. 26.—The funeral of Major John Wesley Powell, late director of the United States bureau of ethnology and formerly in charge of the United States geological survey, was held from the family residence today. The body was interred in the national cemetery at Arlington. The funeral services were attended by many former associates in scientific and patriotic societies. Public services preceding the services at the house were held in the national museum.

SENSATION IN WILL CASE

Court Appoints Administrators for the Estate of the Late Millionaire Stratton.

DENVER, Sept. 26.—A special to the Post from Colorado Springs says a sensation was caused today by the announcement that Hamilton, Henry M. Blackmer and O. P. Grimes had been appointed by Judge Orr of the county court as administrators of the estate of the late W. S. Stratton and that their bonds, in the sum of \$8,000,000, had been filed by the United States fidelity and guarantee company of New York and the American Bonding and Trust company of Baltimore.

Attorneys for the executors named in the will as above mentioned, the naming of which in the city today concerning the will of the late millionaire, are in said, against the men named especially Judge Orr then stated that, although the appointments had been made, their bonds had not been approved and would not be until after due consideration.

It is stated that Hamilton is a non-lawyer of Judge A. T. Gunnell, leading attorney for the executor, I. H. Stratton, and Mr. Grimes is a brother-in-law of Judge Orr, who made the appointments.

Tracy S. Dines of Denver, chief executor of the will, said the matter is absolutely unusual. The executors will fight the case to the bitter end and will not compromise a particle."

DIE IN WIND AND FLOOD

Hundreds Perish on Coast of Sicily When Tornado and Water-spout Combine.

LONDON, Sept. 26.—A dispatch from Rome today announces that a severe cyclone has swept over Catania, a city on the east coast of Sicily. Catania is flooded, and many houses, including the Villa Bellini, have been damaged. The railroads have suffered seriously. The cyclone also wrought havoc at Modica, a town of Sicily, where several persons were killed. Mount Etna shows further signs of activity, and the volcano of Stromboli is still active.

A dispatch from Syracuse, Sicily, direct, says that the streets of the city were flooded, swollen by the recent terrific storm, suddenly overflowed, inundated the town and that several houses collapsed and a number of families perished. The country in the vicinity of Modica is flooded, and the prospect of a heavy rain storm was started for that place in order to render assistance to the sufferers.

GOOD ROADS TRAIN RETURNS

Colonel Richardson is Informed that It Will Not Continue to the Coast.

GRAND FORKS, N. D., Sept. 26.—Colonel R. W. Richardson today received a telegram from F. L. Whitney, general passenger agent of the Great Northern, stating that it had finally been decided not to send the complete good roads construction train to the coast, and that the train will return to Grand Forks Saturday night. This action was taken owing to the small interest shown in the cities already visited. Mr. Richardson, Director Dodge, Secretary Taggart and Commissioner Abbott will continue to the coast, holding conventions in Portland, Seattle, and returning east about November 1.

STEEL TRUST WINS VICTORY

Court Sustains the Constitutionality of Act Passed by New Jersey Legislature.

TRENTON, N. J., Sept. 26.—Justice Van Sickle of the court of errors and appeals today filed a written opinion in the case of the United States Steel corporation case that was recently decided by the court in the corporation's favor. The case before the court was the suit instituted by Mrs. Miriam Berger.

The opinion filed today sustains the constitutionality of the act of last winter under which the corporation undertook to convert \$20,000,000 worth of preferred stock into a like amount of bonds. The opinion also holds that the procedure followed by the corporation carrying out the conversion plan was fully authorized by the general corporation act.

Troops Going to Macedonia

SALONICA, Sept. 26.—The militia force has been called out and troops are being dispatched into the interior of Macedonia.

UNIONIST ALLEGES BRIBERY

Charges Coal Company with Trying to Buy Peace.

NINE MULES TO BE CAVALRY MOUNTS

Foot Soldiers Are Being Worn Out with Long Tramping in the Mud—No More Serious Outbreaks.

SCRANTON, Pa., Sept. 26.—In a statement issued today District President Nichols accuses Michael Grimes, an ex-mine foreman, of being "at the head of a movement inaugurated by the coal companies to bribe a number of mine workers' locals for the purpose of using them as a weapon for Mr. Nichols declares at the close of his statement that "his informants stand ready to prove their assertions in court."

Mr. Grimes denies the Nichols statement and the coal companies also say it is not true. It is proposed to make use of nine mules in forming a cavalry troop of thirteen regiment men. The long marches through the mud are beginning to fatigue the soldiers.

PHILADELPHIA, Sept. 26.—No disturbance of moment occurred in the strike region today. There was a small riot at Centerville, where some strikers attacked nonunion men who were on their way to the mines, and Sheriff Knorr asked Governor Stone to send troops to quell the disturbance. Thus far no troops have been sent.

In the Lackawanna and Wyoming valleys universal quiet prevails and the soldiers were not called upon to suppress disorder, while at Forest City, the extreme southern end of the anthracite coal belt, the presence of the soldiers has had the effect of quieting the strikers.

At Lehigh, where the employees of the American Steel and Iron company have been fighting against the importation of laborers, there is a temporary truce, with the likelihood that all matters soon will be settled.

Hold Up Trolley Cars

SHENANDOAH, Pa., Sept. 26.—Sheriff Knorr of Columbia county this afternoon asked Governor Stone to send troops to Centerville. The governor referred the matter to General Gobin and the latter advised the sheriff to make further efforts to preserve peace. The strikers have been armed and some filled with nonunion men and stoned the workmen. Guards from neighboring colonies were called and drove the rioters back. A workmen's train was held up and those on board were warned.

Centerville is a small community and General Gobin says the men who have been violating the law there are known to be the sheriff, and instead of applying to the troops the latter should put them in jail.

WILKESBARRE, Pa., Sept. 26.—A peaceful condition of affairs prevailed in the Wyoming region today. Battalions of soldiers made a tour of the districts where disturbances have heretofore been frequent but found everything quiet.

At the office of the coal companies it was stated that since the strike has been called off, the number of their old men and those who were prevented from working have returned, and that the collieries now being operated have more men at work than at any time since the strike began.

At the strike headquarters those in charge during the absence of President Mitchell, who went to Philadelphia this afternoon, said that the ranks of the strikers are as firm as ever and that no concessions are reported anywhere in the region. About forty men and women, residents of West Virginia, were charged with breaking windows in the houses of non-union men at that place, were arraigned before a magistrate in this city this afternoon and held in bail for trial. General Gobin left for Shenandoah today. President Mitchell will be in West Virginia this afternoon, where he will address a meeting tonight.

Puddlers Have a Hearing

LEBANON, Pa., Sept. 26.—A committee representing the striking puddlers and finishers met General Manager Lord, of the American Iron & Steel company, at his office here this afternoon. The men were cordially received and submitted a proposition to the manager, which was discussed at length by the men and Mr. Lord. The conference lasted about two hours. The committee declined to give out anything for publication except that the board of directors of the company will hold a meeting to take action on the proposition of the striking employees. A reply will be given to the committee at 9 o'clock tomorrow morning.

INDIANAPOLIS, Sept. 26.—Secretary Treasurer W. B. Wilson, of the United Mine Workers of America, left today for Philadelphia to meet with President Mitchell. Mr. Wilson said that as far as he knew there were no negotiations toward settling the strike. The finances of the organization are in splendid shape, Mr. Wilson says.

French Miners Fall in Line

COMMENTARY, France, Sept. 26.—The national convention of French miners, in session here today, voted for a eight-hour day, including the time in descending and ascending to and from the mines and meses.

MITCHELL SUBMITS FIGURES

Uses Beer's Own Table to Show How Little Miners Receive in a Year.

PHILADELPHIA, Sept. 26.—President John Mitchell of the United Mine Workers of America today took the chair in a speech at the Third regiment armory tonight under the auspices of the South Philadelphia Business Men's league. He made the counter-charge that the operators are a group of lawless men in the employment of professional criminals as coal

HARD ON CHILDREN

When Teacher Has Coffee Habit.

"Best is best, and best will ever live." When a person feels this way about Postum Food Coffee, they are glad to give testimony for the benefit of others. Miss Evelyn Purvis of Free Run, Miss, says: "I have been a coffee drinker since my childhood, and the last few years it has injured me seriously. One cup of coffee taken at breakfast would cause me to become so nervous that I could scarcely go through with the day's duties, and my opinion also holds that the procedure followed by the corporation carrying out the conversion plan was fully authorized by the general corporation act."

PATTERSON GETS THE TIMES

Colorado Senator and R. C. Campbell Will Print Denver Daily in the News Office.

DENVER, Colo., Sept. 26.—The Denver Evening Times has been sold to United States Senator Thomas M. Patterson and R. C. Campbell for \$100,000, the change of management to occur October 1. Senator Patterson is the principal owner of the Rocky Mountain News and Mr. Campbell, who is Mr. Patterson's son-in-law, is business manager of the News. It is said the Times will be issued from the News office, but will be an entirely separate publication. It will be changed from a republican to a democratic paper.

FUEL FAMINE IN NEW YORK

Wood as Well as Coal Becomes a Rare Luxury.

FORMER GOES UP TO \$12 PER CORD

Soft Coal Jumps to \$8 Per Ton and Hard Costs \$15 When It Can Be Had at All.

NEW YORK, Sept. 26.—The coal shortage reached an acute stage today. The price of soft coal jumped to \$8 a ton, \$2.50 more than the price Wednesday, and three times as much as before the strike was inaugurated. The quoted price of hard coal was \$15 but it was merely nominal, as there was absolutely none to be had at any price.

The price of wood followed coal. Kindling wood, selling a few days ago at \$10 a cord, today brought \$12. Practically a complete fuel famine exists. Consumers throughout the city had postponed laying in a supply of coal, believing the strike would be settled and prices would fall.

The park department is seriously embarrassed. Ten days ago contracts were advertised for and today only one bid was found and that was for 200 tons of pea coal at \$5.75 per ton, which was quickly accepted.

A conference of representatives of the principal charitable organizations of the city will be held within a few days to consider the situation resulting from the coal strike. Many of the organizations made contracts for coal, but as these contracts are unenforceable, they will be for nothing. In former seasons the society for relieving the condition of the poor, the United Hebrew Charities and the St. Vincent de Paul society have distributed about 2,000 tons of coal each, a total of 6,000. The charitable workers estimate that they may have to provide on or twenty times the amount of coal they have given away in former winters.

Two steamers with a total carrying capacity of about 7,000 tons of coal have been chartered for the purpose of carrying Welsh anthracite coal from Swansea to the United States. The vessels are the British Steamer Sarmatia, registering 1,343 tons net, which will come to New York, and the British steamer Montauk, 2,230 tons net, which will go to Boston or Fall River. The latter vessel has been chartered to carry coal at 6 shillings and 6 pence per ton. Terms of Sarmatia's charter were not made public. Prices of Welsh anthracite are reported to range from \$5 to \$8 per ton, free on board at Swansea.

The British steamer Turret Crown, registering 1,142 tons net, has been chartered to load coal at Cardiff for Montreal and Quebec at 5 shillings and nine pence.

AGAIN IT'S BLEEDING KANSAS

Soil Soaked with Imaginary Blood Spilled in Cavalry Attack on Infantry.

PORT RILEY, Kan., Sept. 26.—The exercises of each regiment as an advance guard of an imaginary division, involving the employment of artillery, was the problem worked out in the field today by the maneuver division at Camp Root.

The Blue army was the defending force today. It was composed of two companies of engineers, Troops A, B and C of the Fourth cavalry, the Sixth, Eighth and Twenty-second regiments of infantry, the Twenty-eighth mountain battery and the Seventh battery field artillery. The Brown or attacking army was made up of the nineteenth battery field artillery, and Troops D, E and F of the Fourth cavalry.

When the invading army came upon the defenders both sides at once commenced a heavy fire, which lasted an hour and a half. After this engagement was confined to skirmishes by the advance guards of the two forces, the firing being light. At 12 o'clock the recall was sounded and each army retreated to the respective starting points.

The afternoon maneuver was the attack on the Blue army's rear guard by the Brown army. During the engagement Troop D of the Fourth cavalry, under command of Captain E. B. Winans, made a detour of about three miles around the hills toward the Republican river, covering much of the rough stretch of ground at a gallop. While making the detour the troop came upon a detachment of the Blue army's infantry. At a gallop the troop made a pistol charge on the infantry. The result of the troop's detour was that it succeeded in cutting off the enemy's rear guard from the main body, which left the latter exposed.

REFUSES TO TAKE THE OATH

Mabina, Former President of the Philippine Supreme Court, Will Not Swear Allegiance.

MANILA, Sept. 26.—The transport Sheridan, from San Francisco, arrived here today. It called at the island of Guam and brought here thirty-five political prisoners who took the oath of allegiance. Mabina, the former president of the Philippine supreme court and Filipino minister of foreign affairs, refused to take the oath and was left a prisoner at Guam.

No decision has been arrived at regarding Mabina, but he will probably be left at Guam indefinitely.

HELEN GOULD ISN'T TALKING

She Goes to St. Louis to Visit, Not to Discuss Railroad Difficulties.

ST. LOUIS, Sept. 26.—President Joseph Ramsey of the Wabash railway, accompanied by his family, who have been spending the summer at Southampton, L. I., and Miss Helen M. Gould arrived this evening from New York. Mr. Ramsey and Miss Gould, who is a heavy stockholder in the Wabash, were questioned as to the controversy between that road and the World's fair officials over the site for the fair ground entrance, but both were non-committal.

PATTERSON GETS THE TIMES

Colorado Senator and R. C. Campbell Will Print Denver Daily in the News Office.

DENVER, Colo., Sept. 26.—The Denver Evening Times has been sold to United States Senator Thomas M. Patterson and R. C. Campbell for \$100,000, the change of management to occur October 1. Senator Patterson is the principal owner of the Rocky Mountain News and Mr. Campbell, who is Mr. Patterson's son-in-law, is business manager of the News. It is said the Times will be issued from the News office, but will be an entirely separate publication. It will be changed from a republican to a democratic paper.

A LUCKY WOMAN

How Good Fortune Came After Years of Suffering—The Account as Mrs. Taylor Told It to a Reporter.

AN INTERESTING STORY FROM SOUTHERN MISSOURI.

Mrs. T. M. Taylor of No. 137 West Walnut street, Springfield, Mo., considers herself a lucky woman. And she has good cause, as the following interview will show:

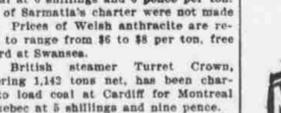

"I was afflicted with stomach trouble for about ten years," she said. "About two years ago it became acute. Just before confinement I was taken suddenly sick and had fifteen convulsions. I was under the constant care of a physician for months, but did not get more than temporary relief. My stomach felt as if it were full of stones, my kidneys had become affected and my back hurt dreadfully. Sometimes I could hardly get around because of the pain, the least exertion put me out of breath, my head would get dizzy till everything seemed to swim around me, my limbs ached—I was miserable."

"How was I cured? By Dr. Williams' Pink Pills for Pale People. I saw an advertisement in a paper and began taking them. One box caused an improvement and I kept on taking them till now I feel better than I have for years. Both my husband and myself never fail to recommend Dr. Williams' Pink Pills to all who are ailing."

Mrs. Taylor took a medicine that attacked her trouble at the root—the blood and nerves. Poor blood and disordered nerves are at the seat of nearly all the ailments which afflict mankind, and Dr. Williams' Pink Pills for Pale People have been proven to be a certain remedy for all diseases arising from this cause. They will cure locomotor ataxia, neuralgia, St. Vitus' dance, vertigo, neuritis, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness, either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; six boxes for two dollars and a half, by addressing Dr. Williams' Medicine Co., Schenectady, N. Y. Send for free booklet of medical advice.
