## MANY VETERANS MAKE TRIP

At Least Fifty from Council Bluffs Expeoted to Attend the Encampment.

LEAVE IN A SPECIAL CAR ON SATURDAY

Expected That a Heavy Train Will Be Accumulated by the Time the Party Reaches Burlington.

At the meeting of Abe Lincoln post last evening arrangements were completed for attending the national encampment of the Grand Army of the Republic to be held in Washington, D. C., October 6 to 11. Council Bluffs will be well represented at the national encampment and Colonel John Lindt of this city, state commander of the Department of Iowa, will head a goodsized delegation not only from this city, but from all portions of Iowa.

Heading the delegation from Council Bluffs with State Commander Lindt will be Captain Cousins, sheriff of Pottawattamie county and state inspector of the Grand Army of the Republic. From the list submitted last evening at the meeting of the post it is expected that between forty and fifty veterans of the civil war from this city will make the trip to the national encampment. Many of the old soldiers will take advantage of the low railroad rates, as in years past, to take their families with them and visit their old homes in the

A special car has been engaged for the Council Bluffs delegation and it will leave here at 10 o'clock on the morning of October 4 over the Burlington. It will be joined on its trip through Iowa by cars containing the old soldiers from other points along the line, and it is expected that by the time the train reaches Burlington there will be nearly a dozen special coaches of veterans, all bound for the national encampment at the nation's capital.

The headquarters of the Iowa delegation in Washington will be at the Hotel Barton, 723 Fifteenth street, northwest. The Hawkeyes will be headed in the parade by a band which has been engaged by the Iowans now residing in Washington. The members of the delegation will be conspicuous by a long yellow ribbon hanging over choir, under the direction of Dr. Claude the shoulder, from which will be suspended P. He gave as his reason that Pennsylvania had always stood by Iowa in the past, and when Iowa asked that the Old Soldiers' home be located west of the Mississippi the old soldiers of Pennsylvania voted with them and further induced the New York representatives to do likewise, and as a result the home was located at Fort Leavenworth. This being the case, State Commander Lindt is hopeful of the Iowa vote going as a unit for Stewart.

Thieves Visit Two Depots.

Thieves broke into the Rock Island and Milwaukee passenger depots Friday night, evidently in search of money, as the cash drawers at both places were found pried open. They failed to get any cash, but succeeded in stealing an overcoat at the Rock Island depot. There was evidence that the thieves had also made futile attempts at both depots to break into the safes, but were evidently not provided with the necessary tools. They also succeeded in breaking into a dining car, standing in the Rock Island yards, and here they got away with a quantity of plated table-

### WHERE LABOR SHOULD LOOK

Major Lacey Points Out the Difference Between the Twe Parties.

DEMOCRACY DOES NOTHING FOR TOILERS

Fallacy of Democratic Theory That Tariff is the Mother of Trusts Pointed Out - Congress Needs Power.

(From a Staff Correspondent.) OSKALOOSA, Ia., Sept. 27 .- (Special.)-Hon. John F. Lacey opened his speaking campaign this afternoon in the town of Bethel, Mahaska county, where he formerly lived, speaking at an afternoon meeting. Major Lacey discussed chiefly the trusts, the tariff, the Philippines and the question of labor union in politics. He is opposed by John P. Reese, until recently president of the District Mine Workers' union, hence the labor question has been thrown into the campaign in his district more than elsewhere. Major Lacey declared that the attempt is being made in the district to carry the labor unions into politics, and not only to divert them from their present prudent and useful purposes, but to unite them to the democratic party upon the Kansas City and Chicago platforms, which platforms were indorsed by the convention which nominated Reese for congress. He declared his disbellef that the time has come when a labor leader can carry his union into any political party at his own will and especially to make the labor unions a sideshow to the free trade party. Should Mr. Reese be elected to congress he would find that he must co-operate with the democratic party, and he will find that he has embarrassed every labor union in the country by the assumption that his election would amalgamate the unions with the democratic party. Every state in the union has some labor laws, but the democratic states of the south have given less recognition to labor than any others.

Labor Favored by Republicans. The laboring men of the country know full well that the republican states of the north have enacted wholesome and necessary laws along the various lines desired by the labor organizations. They know that by non-partisan action, keeping their unions cut of politics, they have been enabled to ask for legislation in Iowa of the republicans and in Missouri of the democrats They know," he continued, "that the congress of the United States has enacted numerous laws in the interest of the laboring people of the country. The miners of the whole country know full well that have personally prepared and secured the enactment of laws for their protection in the territories of the United States, the only part of the country where congress has the authority to regulate and control the operation of mines. There is only one party of labor in the United States and that is the party formed nearly forty years ago to make all labor free in this country. In regard to trusts Major Lacey declared

that the question is not new, for the republican party in 1890 passed the Sherman anti-trust law, which forced these aggregations of capital to change their form and lance, the maneuvers are described as folby becoming great single corporations evade lows.
