In either event it is presumed that the names of the candidates will be inserted on the regular ballot, as would have been the case had they been nominated by their party conventions.

Mr. Hazelton tendered his resignation as senator to Governor Cummins last July on assuming the position of postmaster, and the same was accepted by the governor. The Nineteenth senatorial district, which Mr. Hazelton represented in the upper house of the state legislature, comprises the county of Pottawattamie alone. Heretofore for many years it has been the custom of the republican party in this county to give the county precincts the two representatives, and the city of Council Bluffs the senator. It is believed that the county central committee will adhere to this pre-

Senator Hazelton's term expires in January, 1904, and in the regular course of events his successor would be nominated and elected at the general election in November, 1963. Consequently the term of cinct, A. W. Meisner, rep.; J. H. Bryant, vember, 1903. Consequently the term of whoever will be elected to fill the vacancy will expire at the same time, although it is presumed that the man elected to Mr. Hazelton's unexpired term will be the logical nominee again in the fall of 1903.

There was some question as to how the vacancy should be filled, but at a meeting of representative republicans yesterday atternoon in County Chairman Wright's office it was decided that the right way was county convention having authorized it to fill any vacancies that might occur in the

LACEY TO OPEN THE CAMPAIGN

Makes the First Speech in the Ninth District Today at Red Oak.

Major John F. Lacey of Oskaloosa, congressman from the Sixth Iowa district arrived in the city yesterday and expects to remain here until Wednesday morning, when he will go to Red Oak, where on the evening 150 of that day he will deliver an address formally opening the republican campaign in the Ninth district. The same day Congressman Walter I. Smith of this city will speak at Iowa Falls in the Third district, Friday at Storm Lake in the Eleventh district, and Saturday at Carroll in the Tenth district. Congressman Lacey's visit to Council 500 two days to spare to it, owing to President Roosevelt's western trip being declared off.

According to the former plans the president was to have been in Oskaloosa today. Major Lacey's opponent in the Sixth disrict is Thomas T. Reese former president of the Iowa Mine Workers. Speaking of the and until a few years ago was the recogsituation in his district Congressman Lacey said last evening:

"There are about 4,500 mining votes the Sixth district and of those 1,200 to 1,500 are colored. In former years the majority mie county as Chief Justice Dunkle of of the miners have voted with the democrats, so Mr. Reese's candidacy, it is thought, will not effect that vote very materially. Many members of the Mine Workers' union with whom I have talked resent the attempt of Mr. Reese to take the union into politics. I have always stood well with and taken to the city jail. Smith is the miners as all national legislation on their behalf has been through me. They have always professed a very kindly feeling between Broadway and First avenue owards me, but whether they will feel compelled to vote for their former president in preference to me remains to be seen. So and saw a shadow ahead of him. He made far the campaign in the Sixth district has been exceedingly quiet."

COUNCIL PASSES UP PAVING Contrary to Expectation Nothing but Routine Business is Taken Up.

Contrary to expectation, the city council last night failed to take up the question of the Harrison street paving or matters in connection with the uncompleted paving contracts. Routine business alone occupled the attention of the aldermen and the session consequently was a brief and uninteresting one.

Acting on the recommendation of the mmittee of the whole, the council decided to acquiesce in the request of the park commissioners and expend \$300 if necessary in grading the hill on Graham avenue opposite to the driveway entrance to Pairmont park. It was also decided to extend the curbing on the portion of East Pierce street about to be paved seventeen feet from the lot line, so as to reduce the area to be improved to thirty-six feet in The city solicitor was authorized to con-

fees judgment against the city for \$450 and costs in the personal injury damage suit while visiting in Council Bluffs, October 20, 1990, suffered a fall owing to a defective sidewalk and broke his shoulder blade. He sued for \$6,000 and the case was assigned for trial in the district court yesterday, but in view of the impending settlement

was continued. The council voted in favor of renewing the fire insurance on the South Main street hose house despite the vigorous opposition of Alderman Casper, chairman of the committee on bridges and city property.

The city marshal was instructed to noify the Union Pacific railroad to replace the crossings over its tracks at Eighth street and Tenth avenue and to notify the state senator in this county to fill the Rock Island. Three Tramps Supposed to Have Been Killed and Ten Cars of Freight Destroyed-New Pardon

(From a Staff Correspondent.) DES MOINES, Sept. 29 .- (Special.) -- The state executive council this morning adopted a revision of the instructions which are annually sent out to assessors throughout the state of Iowa. The important change is to emphasize the instruction that in making assessments, especially of real estate, the duty of the assessor is to ascertain the actual cash value of the property and make the assessment on this basis. The law of Iowa provides specifically that the property shall be listed for taxation at 25 per cent of its actual cash value at the time of making the assessment. Evidence placed before the state executive council, acting as a Board of Review last summer, showed that the assessment of real estate in Iowa for taxation purposes is not to exceed 18 per cent on an average. This is a gross violation of the law. The council will send out instructions to the assessors that they must make the assessment in January next, in accordance with law, or the Board of Review will be under obligation to arbitrarily increase assessments in the state. Members of the council insist that they will enforce the law in this case, as well as in the matier of of C. Simpson of Manilla, Ia. Simpson, assessment of railroad and similar prop-

A small dish of the gasoline was turned off the flame, and either she failed of the stove ignited the oil, which immediately set fire to her hair. In fighting the mad fiames her hair was thrown over her face, which burned her so badly the skin that those present did the best possible to put out the fire, smothering it with a cloth, and ears painfully burned before the flames could be extinguished.

Organizing for the Federation.

T. P. Menton of Boone, state organizer for the American Federation of Labor, is in the city and reports having organized the teamsters in Oskaloosa and Knoxville the past week and brought the clerks' union of Albia into the federation. He has calls to go immediately and do organizing work in Newton, Creston, Winterset, Allerton, Mystic and several other cities of the state. He roports that there is a great deal of interest manifested in the labor movement in Iowa.

Pardon Rules Prepared. Governor Cummins has had printed in pamphlet form the pardon law and the governor's rules relating to suspension of sentence prepared by himself and his pardon secretary, B. W. Garrett. These pamphiets may be had on application to the pardon secretary by persons interested in pardons or paroles or suspension of sentences and remission of fines. This is the first time that any definite pardon rules have ever been prepared, the work heretofore for many years being done in accordance with the whims of the officials and to meet each separate case. Now it is proposed the matter of paroles shall be systematized so that all who are interested may know exactly what is desired in order to secure a pardon or parole, and what is

ATTENDANCE IS DISAPPOINTING Complete Enrollment of State University Will Fall Below

1,600.

IOWA CITY, In., Sept. 29 .- (Special.)-President MacLean of the university gave out today the following somewhat disappointing statement: "Our complete enrollment to date is 1.130

students, and on this basis, the enrollment for the year will not exceed 1,600 students. The enrollment of our graduate college, which last year numbered 127, is, from the nature of the case, not yet made up, so the reports really are only for the college of liberal arts and the five professional colleges. The increased standard of admission, particularly in the professional colleges, have been maintained at the expense of numbers.

"Our new year began with a summer term having an increase in enrollment of 25 per cent as compared with the preceding year. On this basis, we had exepcted a similar increase for the year, but the enrollment of the week just closed would indicate that we shall not have this rate of increase. The damage to the corn crop in lowa has caused a considerable number of students to delay a year. The unprecedented "Freshmen rains" of the opening week may have caused further deay.

"The outlook for the university in the character and qualifications of the students and the increased number in the faculties, n the additional equipment and new buildngs, was never brighter. The foundations for two of the medical buildings in the new medical quadrangle, are in, and the building era at the university, insured by the appropriation of \$700,000 for the buildings alone, by the last legislature, begins to

(From a Staff Correspondent.) WASHINGTON, Sept. 29.- (Special Telegram.)-Secretary Shaw is in New York today to confer with the republican national campaign committee, and it is stated at the Treasury department that Mr. Shaw WITHOUT FIRE PROTECTION will make arrangements to deliver speeches in a number of cities next month. His tour of speech making will begin in New York in October on the occasion of the laying of the cornerstone of the new custom house, and will end in Omaha just before election. His OTTUMWA, Ia., Sept. 29.-The city water litinerary as now arranged is as follows: supply company today made a demand on New York, Boston, Hartford, Baltimore, Columbus, Indianapolis, Princeton, Ind. tract with it or it would shut off its water. Ernst G. Timme, auditor for the State and other departments, today submitted his annual report to the secretary of the treasury. Among other items falling under the supervision of the auditor are those relatg to expenditures and disbursements for the expenses of United States courts of the VARICOCELE HYDROCELE and country. The total expenditures and disbursements of the United States courts in Nebraska during the last fiscal year were \$47,475; in Iowa, northern district, \$37,157; southern district, \$46,054; in South Dakots \$66,006.

H. H. Hight of Nebraska, who has spent year teaching school in Guam, under American direction, is in Washington on a visit; to his father, who has resided here for several years. Mr. Hiatt says the schools in Guam have been compelled to close because of lack of money to maintain them. He also said that the courts will shortly be compelled to close for the same reason. The cause of the bankrupt condition, according to Mr. Hiatt, is due to failure on the part of the government to appropriate the sum necessary to carry out the civilizing influences planned by those in authority. The naval appropriation bill originally carried \$250,000 for the island, but this sum was stricken out of the bill before it finally became a law.
