Trading in Cera Principal Feature on Board of Trade. DECEMBER IS ALMOST A CENT HIGHER

Ons Also Close Higher, but Wheat and Provisions Are Both a Shade Below the Closing of Yesterday.

CHICAGO, Oct. 2.—Trading in corn was one of the principal features on the Board of Trade today and considerable strength was manifested in the grain and provision pits. December corn closed 1/2 cent higher, December wheat was 1/2 cent higher, January provisions closed from a shade lower to 1/2 cent higher.

The recent bullish sentiment in wheat was again in evidence at the opening of the day, due partly to a reaction set in from grading and unfavorable weather in some sections. Local wheat was steady, but higher prices in the day. Toward the close the demand was pronounced and with more liberal offerings prices weakened. December opened 1/4 cent lower to a shade higher at 82 1/2.

On good buying there was an advance to 82 1/2, but it was lower at 82 1/4. Clearances of wheat and flour were equal to 40,000 bushels, against 1,500,000 bushels a year ago.

Minneapolis and Duluth reported receipts of 84 cars, with local receipts of 22 cars, with only 10 cars of the three points of 24 cars, against 1,000 cars last year and 1,200 cars a year ago.

Corn was higher on a better trade, with December holding the attention of traders. Demand bought freely, as did October, influenced largely by reports of the poor crop in the west. The weather was steady, but higher prices in the day. Toward the close the demand was pronounced and with more liberal offerings prices weakened. December opened 1/4 cent lower to a shade higher at 82 1/2.

Provisions were strong, with an active demand for ribs, especially by shorts. A good demand existed during the entire session for the entire lot, taking on large quantities. Strength in corn, small receipts of corn, together with a large decrease in contract stocks for September, were all factors which helped to advance prices. Higher at 31 1/2, lard a shade lower at 28 1/2, 60 1/2 and ribs closed 1/2 cent higher at 10 1/2, 10 1/2 and 10 1/2.

The leading futures ranged as follows: Articles: Open, High, Low, Close, Year. Wheat 65 1/2, 66, 65 1/2, 65 1/2, 65 1/2. Corn 17, 17 1/2, 17, 17 1/2, 17 1/2.
