MAKES THE SOUBRETTE ANGRY

And then Maher is said to have made the mistake of his life, the sad memory of which provoked the lamentation which escaped his lips in the court room.

The story was that Maher had been in Omaha several days under the guise of a feather renovator.

According to his exposé, the pencil which Maher used was hollow and contained a rubber plug in one end.

There has been too much building of large enterprises on paper, for one thing, and I do not wish to be classed with those who have that method of doing their business.

HOW TO PRODUCE WORMS FROM FEATHERS

Stage Fairy Tells Police that R. E. Maher Has Been Reaping Bountiful Harvest of Coin from Omaha Homes.

"Wrecked on the shoals of might-have-been," muttered R. E. Maher, as he suddenly turned from Judge Berka's desk in the police court yesterday after paying a fine of \$1 and costs which was levied against him on the charge of being drunk.

Standing a few feet from Maher was a smiling little woman, who called herself "Gypsy Van," and is struggling on to fame as one of the shining lights in the dramatic firmament of the Star theater.

Wednesday night after a profitable day at his "magic" art, Maher, evidently finding himself several ducats to the good, decided he would throw aside the tedious cares of life and have a good time.

A SHARP ADVANCE IN PIANO PRICES

Is Noted Throughout the East—Made Necessary by the High Salaries Demanded by Mechanics and the Constantly Increasing Cost of Raw Material.

Fortunately for Omaha the Enterprising Piano House of Schmolter & Mueller Had the Business Sagacity and Forethought to Place Heavy Orders Early in the Season.

Our Stock Was Never so Large—The Variety Was Never so Great. If You Expect to Buy a Piano at All Better Not Delay the Matter.

In the piano business as in all other mercantile lines factory costs, rather than stocks on hand, is the retail barometer.

These weeks we are making a general clean up of all odd styles—there are a number of styles from some of our leading factories that the advance catalogue for 1903 show will be somewhat changed in their case designs, these we want to sell at once, and prices will be made that will get them off our floor quickly.

Then again we have several sample pianos shipped us on approval. These we will sell at dealer's prices.

A number of used square pianos and organs will be closed out at \$15.00, \$25.00, \$35.00 and up.

Remember we sell new pianos on \$1.00 weekly payments. We take organs and square pianos as part pay on new pianos.
