Perqua Invigorates. In all such cases Peruna is a godscud. Peruna comes to those who are unable to afford the expensive luxuries of change of scene and climate. Peruna comes to such people with refreshment, recuperation

and a renewal of vigor and spirits. Nervous Women.

No nervous woman ought to neglect to give Peruna a fair trial. It is almost absolutely certain to help her, and in some cases the relief is magical.

Margaret Reimer, 21 Cedare Terrace Hot Springs, Ark., writes: "I was very much run down about a year ago and all medical treatment failed to bring the required relief and toning my system needed. I was advised to try Peruna which I did only when everything else failed. One bottle really made an entirely different woman of me and four bottles toned up the system and restored me to perfect health. I shall always speak in the highest praise of Peruna and cheerfully recommend it to any and all in need of a tonic. With the very best wishes for your success."-Margaret Reimer.

Mrs. Margaret Little, 47 Hoyt street, Brooklyn, N. Y., writes:

"I have been troubled with constipation and indigestion for over a year, my complexion was ruined and I was pervous and losing flesh every day. The doctors advised that I go to a sanitarium but a number of people advised me to try Peruns before going to that expense, and I did so. I found that the first bottle regulated my bowels, cleared my complexion, and by the time I had taken six bottles my stomach and digestion was in perfect working order and has remained so ever since.

"As this was very much cheaper than going to a sanitarium, I have every rea-son to be grateful."--Margaret Little. Mrs. Mary A. Eugelhard, 2825 Madison street, St. Louis, Mo., writes:

"I have been a hard worker all my life, and very often I need a tonic. Nothing does me so much good as Peruna. It acts like a charm, and I feel like a new woman. I do all my own work and a lot of other work besides. I will give Poruna all the credit."-Mrs. Mary A. Engelhard.

Miss Mamie Powell, Lake Charles, Louisiana, writes: "I sincerely believe that Peruna is woman's best Triend, for it has certainly been that to me. I had had headaches, backaches and other aches every month for a long time, but shortly after I began taking Peruna this was a thing of the past and I have good reason to be grateful. I take a bottle every spring and fall now, and that keeps my health perfect and I certainly am more robust now than I have been before and am weighing more. I do not think anyone will he disappointed in the results obtained from the use of Peruna."-Miss Mamie Powell.

Pe-ru-na Cannot Be Imitated.

There is no use trying to imitate Peruna. It has been tried many times by men skilled in pharmacy and chemistry but they have always failed. The imi-Indeed, it would be a good thing if all tators of Peruna don't fool anyone who has ever taken Peruna or who has ever I had to try and regain my health people suffering from nervousness could regret that it was necessary for them to I had to try and regain my health people suffering from nervousness could make the movement during the week of in another way and was induced by travel and recuperate their nerves by witnessed the good results of Peruna. cisions of the courts, attorney generals and school superintendents are adverse to the TROUBLE BREAKS OUT AFRESH reading of the Bible, but books containing selections from the Bible are in use.

The subject is one which has occasioned a great deal of discussion among the leading educators of the country during the past few years. At the forty-first annual convention of the National Educational association, held last July in Minneapolis, this question was discussed and the association took a stand upon it in its resolutions as which resulted in the latter being stabbed fellows:

follows: It is apparent that familiarity with the English bible as a masterpiece of literature is rapidly decreasing among the pupils in our schools. This is the direct result of a conception which regards the bible as a theological book merely, and thereby leads to its exclusion from the schools of some states as a subject of reading and study. We hope for such a change of public senti-ment in this regard as will permit and en-courage the reading and study of the Eng-lish bible as a literary work of the highest and prose which it has inspired and in arge part formed. We do not urge this in the interest of sectarian instruction of any kind, but that this great book may ever be the teachor's aid in the interpretation of history and literatures and prose which it has change agency in the development of true citizenship, as well as in the formation of pure literatury style. That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous, run-down women, there is no better tonic and nervine than Dr. Pierce's Pavorite Prescription. restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.

doors and a hole drilled into it. They had not succeeded in getting the doors open and if they had would have got nothing but a dozen postage stamps,

Surprises Illinois People.

YORK, Neb., Oct. 10 .- (Special.)-C. C. Crosson, a farmer living near York, and Alfred B. Christian made an exhibit last week at the Mercer county, Illinois, fair, of York county farm products, grains, seeds, grasses, vegetables, etc., which opened the eyes of illinoisans when a comparison was made both of quality and yield, and the week. exhibit won such favorable comment that the local Illinois newspapers gave considerable notice and description of the exhibit It was a hard matter to convince the Illinois farmers and tenants that in many cases one crop nearly paid for the land here, and that York county farmers could raise more grain, more hay, seeds, and vegetables and
