"Vivella"

A Non-Shrinkable Flannel

Something that would not shrink, in the way of flannel, has been the dream of manufacturers ever since flannels were first made.

"La Vida"—One seldom hears of a special sale of "La Vida" corsets for they are as simple as bread and butter.

to Lincoln by a circuitous route, arriving before daylight, and since have kept in hiding. The reward of \$1,000 offered by the Burlington was doubled in order to stimulate the chase.

Reports of the booty taken from the express safe vary from \$1,500 to \$20,000, but General Superintendent Calvert of the Burlington and Adams express officials declare positively that the former figure more than exceeds the loss.

Express Messenger Lupton, who checked the robbers by hastily removing the money packages in the local safe, throwing them under the stove, where they escaped attention, will be rewarded by the express company with a promotion.

Story of Engineer. RAVENNA, Neb., Oct. 11.—(Special Telegram.)—Engineer Abraham Clayburg says about three miles out of Lincoln regular stop signals were seen and the train was lagged in a regular manner with red lanterns.

The leader and one of his confederates then went back to the express car with the bag of dynamite and blew the safe open. It must have taken two blasts to do the job.

The robbers were seen in the front of the engine and stand there in front of the engine and stand there in front of the engine.

James Lupton, the express messenger, says that when he heard a commotion at the first stoppage he figured out that it was a holdup. He hastily opened the small safe in the car, which contained all of the money to which he had access.

He had just accomplished this when there was a knock upon the car door and a demand to open it. He made no response and the demand was repeated several times.

Finally he opened the door and the robbers entered. He was ordered to climb down out of the car by the robbers and was escorted by one of them some distance along the track away from the car.

The messenger finally opened the door and was invited by the robbers to vacate the car. This he did, and together with the engineer and freeman they were marched forward at the point of a revolver in the hands of one of the robbers.

Within five minutes after the robbers entered the car the explosion took place. The explosion made a fearful crash, indicating the use of a very heavy charge. Five minutes later there was a second explosion, as loud as the first.

Supervisor Beal of the Burlington is of the opinion that the robbers returned to Lincoln by a circuitous route, arriving before daylight, and since have kept in hiding.

TROOPS RULE NEW ORLEANS

Martial Law, Although Not Declared, Has Practically Been Established. PLANS ARE MADE TO RUN CARS MONDAY

Many Influential Men Are Striving to Aid Governor and Mayor in Settling Strike, Which Has Cost Many Lives.

NEW ORLEANS, La., Oct. 11.—Though martial law has not yet been declared and will not be until the conditions in the street are such that extreme measures, New Orleans is practically under military rule.

The presence of the soldiers and the expressions of firmness and determination in Governor Heard's proclamation to the citizens demanding a restoration of order has restored confidence in the authorities, though the strikers are more sullen than ever.

Plans are being laid to start the cars Monday and Governor Heard says they will continue to run.

This afternoon at 4 o'clock a subcommittee of citizens of the city's executive committee called on Governor Heard at the St. Charles hotel and remained with him two hours.

United States Senator Murphy Foster, who settled the general strike in 1892 in three days when he was governor, arrived here this morning with W. S. Parkinson, who gained national prominence in 1891 when he led the crowd which lynched eleven Italians in the parish prison.

At 5 o'clock this morning a report reached Adjutant General Jemel that an attempt would be made to rush the army of the First regiment on Girod street, because of the supposed sympathy of many members of the command with the strikers.

The command with the strikers, and take possession of the armory and ammunition. Picket lines were thrown out on St. Charles and Carondelet streets, and no one was allowed to pass unless he could give a good account of himself.

Citizens' Committee Formed. A citizen's committee has been organized and efforts are being made to recruit independent companies to support the state troops.

No efforts were made to run cars today and it is the general impression that the first attempt under the new conditions will be postponed until Monday in order to prevent a recurrence of the mobs that certainly occurred on Sunday.

All negotiations between the state and city officials, the railway company and striking street car employees came to an end today when the car men refused to accept the proposition made by the company through the railway company.

As soon as these conditions were made known to the governor he issued the following proclamation: To the People of New Orleans: During the past two weeks your city has been in a condition of unusual and grave excitement.

Job Hatched in St. Joseph. Original Plan Was to Pull it Off Near There, but One of the Party Weakened.

ST. JOSEPH, Mo., Oct. 11.—(Special Telegram.)—The robbery of the Burlington train at Woodland, Neb., as an early hour this morning was not a great surprise to the secret service men of the Burlington company in St. Joseph.

At a point about one and a half miles up the track the robbers ordered a halt and compelled Engineer Clayburg to get out of the car and walk ahead of them to the express car door.

PRESS FEEDERS ON A STRIKE Twelve Hundred Walk Out and Printing Business Is Badly Demoralized in New York.

NEW YORK, Oct. 11.—A strike of 1,200 press feeders employed in the book and job printing trade of this city has involved 500 pressmen and has, it is stated, nearly tied up the business in a large number of plants.

Some time ago many feeders demanded an advance in wages from \$15 to \$14 a week and struck to enforce it.

WASHINGTON, Oct. 11.—The Union Veterans' union today installed Commander-in-Chief R. G. Danforth and the other officers elected yesterday and then adjourned. General Danforth made a brief address in which he referred to the success of yesterday. He believed, he said, that the discussion would result in the improvement of the order. The trouble was due to the effort to make the order a political organization, but he contended that the fact that it is to be a political order will prove its main source of strength.

ST. LOUIS, Oct. 11.—Circuit Attorney Folk today issued informations charging the defendants in the case of Charles J. Decker, John A. Sheridan and Adolph Madera with perjury. They have already been indicted on two counts charging bribery in connection with the suburban and city lighting scandal. With this additional charge the defendants will be compelled to put up \$4,000 bonds each.

FOOD VS. RECREATION. Good Food of the Greatest Importance. There is really no need to go away for rest if one will take scientifically made food that rebuilds the nerve centres and makes work a comfort and pleasure. One of our prominent novelists was sent to Colorado. "Ride every day, sleep in a tent, eat when you are hungry," my physician told me, but food did not satisfy me and rest would not end the fatigue that had me in its grip. I was eating a mere machine-made, sleeping, walking, riding, but unequal to a day's work and with no zest for the day's pleasure.
