SCARCITY OF GIRLS MAKES MEN HUSTLE

Weddings of the Year Deplete the Ranks to that Extent Where Bachelors Have to Speak

Of the things that have happened of late to interest society, and there have been is at least the most talked about. Of course everybody was there-"everybody" in the sense in which that word is applied when congeniality is combined with Tuesday evening, October 21. numbers—excepting the men. As a result of this tournament, not less than a dozen clubs for the game this winter, and it is beginning to look as though the monopoly that whist has held upon fashionable interest for so long is at last to be broken. Of course this does not apply to that set of women who play whist three mornings and four afternoons of every week; it has become a habit with them that not even the fascination of the little game can

Last week saw the first of the several coming-out receptions promised for the fall and early winter that are to give to society almost a dozen young women, all of whom are especially charming, and though prominently in the affairs of the summer. And, by the by, these girls are especially welcome just at present, for the numerous weddings of the last year have sadly depleted the ranks of the young women, to such an extent, in fact, that the man who would make sure of company of his choice nowadays has to speak promptly, and that little habit of telephoning and invitation soul of the society girl a year or so ago is practically unknown this fall.

LATENSER AND ROWE BID W. F. Johnson Debates the Matter that Came Before the Open

OMAHA, Oct. 11 .- To the Editor of The Bee: In your report of the meeting of the school board Monday night you seem to me to miss the point in the matter of Rowe and Latenser and the heating plant in the new High school building. I did not charge the architect with anything. I asserted that he did all possible to prevent Rowe getting the contract. An effort was even made to throw out Rowe's bid, when he was the lowest bidder, because of some supposed irregularity. The committee as a whole did not know why so much opposi-

tion to Rowe, I did assert at the meeting on Monday that Rowe had informed me that he had testified before the grand tury that Latenser, in his own office, asked him how much be would give him to get the connot give him 1 cent. Rowe further asserts that he testified before the grand jury that in the matter of the Pacific school heating plant Latenser asked him if he would give him \$300 if he would get him the contract; that he answered as afterward in the matter of the High school, and another con tractor got the work.

I know nothing about the facts of this grand jury testimony, but if it was given and Miss Olive Murphy of Sioux City are as Mr. Rowe asserts and was a simple reguests at the home of Mr. and Mrs. James cital of facts, it perhaps furnishes all the explanation necessary as to Rowe's difficulty in getting the contract and his difficulty in carrying it out. I understand that Mr. Rowe has dene business long enough in Omaha to establish a reputation for strict honesty. As to Mr. Latenser, the committee has had difficulty at a number of other points, the plaster and stone carving contracts, for example, neither of which is finally settled.

The school district of Omaha has paid John Latenser, architect, in the past four years some \$15,000. The district has right to expect a quality of service and ; quality of out and out honesty that cannot be questioned. Mr. Latenser stated in the meeting on Monday night that he might be dishonest, but "you can't prove it." We
