thortage of Funds Likely to Oripple the plaint alleges that Mr. Augustson was cut Department Temperarily.

FIFTEEN THOUSAND DOLLARS NECESSARY

Board of Fire and Police Commissions ers Addresses Communication to Mayor and Council, Appealing for Assistance.

Shall the Board of Fire and Police Commissioners by off sixty of the members of the fire department and close six or seven of the engine houses for the remainder of the year or will the city council make an additional appropriation of \$15,000 to augment the nearly exhausted fire fund?

Such is the question which the first named body submits to the latter in a communication approved at its meeting of last evenifie. For some time past the fact | factory results attained. has been recognized that the fire department fund would not be sufficient to endure to the end of the year at the established rate of expenditure, and early in application to the city attorney, received an opinion to the effect that the members would in law be personally liable for any indebteduces incurred in excess of the amount available in the fund of the de-

The condition of the fund was also brought to the notice of the city council through the financial statement of the comptroller, and at a recent meeting a number of expense bills which must have come out of the fire department fund were disallowed in the passage of the appropriation ordinance. At that meeting also the council adopted a resolution calling the attention of the Board of Fire and Police Computesioners to the state of affairs and advising economy. The communication of the board to the council is in reply

Letter to Mayor and Council. Following is the full text of the com-

munication:

To the Honorable Mayor and City Council of the City of Omaha—Dear Sirs: We desire to direct the attention of your honorable body to the lack of funds necessary for the maintenance of the fire department of the city. The appropriation was \$125,000, of which, according to the statement of the comptroller, there will be collected, together with back assessments, the sum of \$118,625.31, thus making at the disposal of the board for the maintenance of the fire department \$119,625.31.

It also appears that the Board of Fire and Police Commissioners, composed of the mayor, as chairman, and Matthew H. Collins and others, as members, carried over from last year bills amounting to about \$2,500, which the board as above constituted paid out of the funds of 1902. It also appears that said board, at about January 2, 1902, increased the fire force by the addition of nine members, at a salary of \$70 each per month.

We are informed that this action was taken at the request of the Commercial club of this city and upon some agreement or understanding with your honorable body and the mayor that the increased expense would be provided for in some manner.

Amount of the penciency.

Amennt of the percenery.

The present Board of Fire and Police Commissioners, since its induction into office on August 4, 1992, has continued the force as it then found it and has not in any manner increased the expenditures for the fire department. There has been expended in that department up to October 1 the sum of 196,245.97, and if the same rate of expenditure is continued until the end of the year it would require \$125,327.86. This shows that there will be a deficiency in the fire fund of \$8,704.65. The principal expenses consists in the salarles of the employes of the department. The other expenses, such as the alarm service, telephone bills, grain and provisions for the horses, etc., being fixed by centract, are beyond the control of this board.

The city\_atterney has advised this board that it must not expend beyond the amount of the funds provided. It will thus be seen that the only way in which the board can reduce its expenditures to come within the appropriation will be to reduce the force of firemen. In order to make the necessary reduction the board will have to discharge at least sixty men for the remaining two months. This can only be done by closing six or seven of the fire houses, thus exposing a large part of the city to the ravages of fire. Such a reduction would utterly cripple the fire department.

It is a condition for which this board is in no way responsible, but which must be ment. The force us now constituted, with its men, is all too small for a city spread over the territory covered by Omaha. Such a reduction of the fire department can be thought of only as a last resort, but under the law it is the only thing this board can do unless the funds are provided. To provide the funds is neither within the province or power of the Board of Fire and Police Commissioners.

We also call your attention to the further fact that it is imperatively necessary that the department.

ince or power of the Board of Fire and Police Commissioners.

We also call your attention to the further
fact that it is imperatively necessary that
the department have 6,000 feet of hose,
which will cost about \$6,000. Much of the
hose which the department is now using is
dangerously old and roteen. You will thus
see that if any semblance of fire protection is to be afforded to the city for the
hazardous months of November and December, the board must have \$15,000 more
fire funds. We deem a simple statement
of the facts to be sufficient.

Two Resignations Accepted. The resignation of S. D. Osborn who has been a patrolman on the police department for the past fourteen years, and that of

Charles S. Berg a member of the fire department, were both accepted. From the intentions of the board as expressed last evening there is every indicaion that John Pillar, who has been keeping a saloon at the southeast corner of Ninth and Douglas streets, will have his license revoked. It was reported to the poard that about 2 o'clock on Sunday morning Officer Ryan had found John Heitfeld on the street suffering from the effects of a beating which it was said he received at the saloon in question. The officer, it was stated, went to the place and in response to his inquiries met with only abuse from Pillar and his bartender, John Slovsky, Pillar will be summened to appear on Monday night next and show cause why his

license should not be revoked.

Time Sixth race, handicap, for 3-year-olds and Sixth race, handicap, for 2-year-olds and up, one mile and a sixteenth, over the hill: Zoroaster won, Star of the West second, Daly third. Time: 1:41.

CHICAGO, Oct. 12.—Jack Demund, backed from 5 to 3 to 5 to 5, won the free handicap, the feature of the card today, at Worth, in a gallop, with aix lengths to spare. Scarlet Lily finished two lengths in front of Rolling Boer for the place. Captain Hugh Bradley, in the first race, wen by six lengths. Rose of May won the second race all the way, Weather, raining and cold; track heavy. Summary: First race, five furiongs: Captain Hugh Bradley won, Angelo second, North Pole third. Time: 1:552-5.

Second race, mile and sixteenth: Rose of May won, ida V. second, Dark Secret third. Time: 1:552-5.

Third race, six furiongs: Phylo won.

#### WORD TO FARM TOILERS. BAER SAYS THEY ARE CHEAP

### PAINE'S CELERY COMPOUND

The Home Friend of the Farmer and His Family in the Autumn Season.

After the labors and tolls of the summer ime, and harvesting of crops in the early autumn, many of our farmers, their wives daughters and sons, find themselves in a condition of health demanding careful attention if suffering is to be avoided later on. Many experience kidney trouble in some billousness, nausea and vomiting, with loss of appetite and depression of spirits. Thousands who have been exposed to cold, damp winds and rains while toiling in the harvest fields, now feel the twinges of terrible rheumatism; others run down by worry, overwork and irregular dieting are tormented with the pangs of dyspepsia.

To thousands of rundown, sickly and half dead men and women in farm homes we recommend with all honesty and confidence the work's friend, Paine's Celery Compound, the only medicine that can quickly and fully restore strength to the weak body and vigor to the muscles. Paine's Celery Compound tones the stomach; it removes poisonous acids from the blood which cause rheumatism; it feeds the weak and deseased purifies the blood and gives true vitality and life. The use of Painc's Celery Compound in autumn means the establishing of perfect physical vigor to withstand the rigors of a severe winter.

CREIGHTON JUNIORS Second Team from the University Defeat Bellevue's Foot Ball

Aspregation.

Creighton university's second team yesterday won a decided victory over Believue's foot ball eleven by a score of 22 to 0. It was a clean, swift game and Believue's seeming advantage in weight was easily offset by the speed and team work of the Creighton Juniors.

Coad kicked off at 2 p. m. Believue twice advanced the ball for the required gains and seemed in a fair way to gain the day, but the flerceness of the defense soon put a damper on Believue's hopes and the ball passed into the hands of Creighton. Coad was given the ball and, dashing through a gate in the line, Spurted fifty yards for a touchdown. He kicked goal. Sloan kicked off and Creighton started on the march down the field. McCaffrey made two good end runs and succeeded in crossing the goal line. No goal. Sloan kicked off for Believue, but time was called after one or two scrimmages.

off for Bellevue, but time was called after one or two scrimmages.

In the second half Bellevue took a bruce and held Creighton to short gains. Creigh-ton, however, was not pleased with this slow procedure, and summoning all their latent energy the boys added two more touchdowns to their list.

For Bellevue the stars were Sloan, Shei-

Chicago Detective Talks About Alleged Boodlers of South Omaha. REFERS TO THEM AS "PENNY GRAFTERS"

Chenpest Men He Ever Knew to Risk Good Reputations and Freedom

> for Sake of Lining Their Packets.

Bernard Baer, the Chicago detective who worked up the evidence upon which four members of the South Omaha Board of Education were arrested, says the alleged boodlers of the Magic City are the cheapes he has known in a police career of many years. Interviewed by the Record-Herald, Mr. Baer said:

"South Omaha's Board of Education boodlers didn't get round shouldered carrying away some of the bribes they accepted They were the cheapest men, in the matter of price, that ever risked good reputation and the freedom of this life for the sake of lining their pockets with the public's money; the cheapest that I ever met, and I've brushed shoulders with pickpockets who would steal car fare from a washerwoman without a qualm of conscience.

"Eight dollars is the price that three members of South Omaha's educational directory demanded as a salve for their con science in little boodling transactions which I arranged for the purpose of getting the evidence against them," continued the cap tain vesterday as he discussed the develop ments in the western city. "Eight dollars is what they wanted for selling out the people they were serving in this particular case, but I understand that was an exconnection with some schoolhouse repair or advances in salary." work when their fingers only closed over

"In the ordinary run of buying up a public official the bribe-giver would land in an insane asylum if he went forth with anything less than a three-figured offer, and in most cases the 'man with a price' turns his duty to the public if he isn't shown where he can add about \$1,000 to his bank account.

Recalls Chicago Boodlers.

"But out in South Omaha they worked it different. There may have been method in madness, but if there was it failed to come to the surface during my inquiry. Just think of it-\$8 the purchase price of a man with the opportunity to sell public interests out body and soul. Eight dollars-I wonder what those fellows on our old boodling county board, who wore silk underwear at the people's expense until the warden of the penitentlary took them in charge, would say to those figures?

"My investigation had only to do with their selling themselves out to folk who wanted school board contracts for furnishing supplies and the like, but while here I heard that they were even trafficking with the teachers and principals, making place for them on the pay rolls in return for a \$5 or \$10 bribe and raising their wages in consideration of additional 'pres-

ents' in like amount. "The board members, if appears, have had a few breaths of scandal of this port blown in their faces before, and the town has been waiting to get them where they couldn't squirm. But stobody thought of ooking for the penny and nickel bribe taker; they were all searching up in the the channels through which bribes amounting to thousands of dollars might be expected to fall into the laps of unacrupulous office holders. Lately the talk of 'easy money' in the school board bobbed up once more, and the Taxpayers' league, an organization similar to our citizens' association, sent here and asked our agency to member. take up the inquiry.

Diseards Dress Suit.

"I went to South Omaha expecting to have to do business in a dress suit. Instead, I found the graft these people were after could be arranged better in a pair o jeans and a tattered coat. They were look ing for something cheap. Maybe they figured that if the price was kept down there would be less chance of a disclosure of their misdeeds. You must remember that the scandal has only to de with four members of the board; I heard no word or mention of suspicion regarding the other five, and I believe them upright, conscientious gen-

"I appeared as field agent for a typewriter concern that wanted to put in twelve new machines in place of some already in BUFFALO, N. Y. Oct. 12.—Joe Gans, the lightweight champion, had no trouble in disposing of Kid McPartland before the International club at Fort Erie, Ont., tonight. He knocked the New York man out in the fifth round.

The blow that did the business was a left hook to the pit of the stomach, the same blow with which McPartland has won many fights. McPartland writhed on the stoor while Charlie White counted the ten seconds, but a few seconds later he had fully recovered.

Gans did not exert himself at any stage, although at times he showed flashes of his speed when the men came to close quarters. He made McPartland do the fighting, contenting himself with blocking and looking for a chance to land one decisive punch. use by the board. We were to take the

Apportionment of Money.

There was a bit of careful hedging when it came to turning over the money. These high priced gentlemen were all so trustful of one another that each insisted upon his neighbor getting the boodle and apportioning it. Finally it was agreed that I should 'lay the money down,' and a certain one of the clique was to happen along conveniently so no one else might have the good fortune to pick up this price of a half ton of coal. "Instead of cash I offered them checks. One of them lost no time in cashing his paper, but the others returned the telltale instruments and asked for cash. I opened their letter in the presence of witnesses. hen sent the currency required in a box of rigars and this was accepted in the presence of witnesses, too. Just to make my case more than certain I induced one of the members of the ring to put a mythical
