TROUBLE AT HIGH SCHOOL

Several Patrons Dissatisfied and Take Children Out of School.

BOARD MEMBERS ALSO DISGRUNTLED

Important Matters.

"Judging from statements made to me and other members of the board, matters Visit our art department and see the are not such as they should be at the High school," said a member of the Board of Education yesterday. Continuing he said that the trouble which had manifested itself last year in the management of the High school was again breaking out and as a consequence the parents of several puptls had already removed their sons from the school, although the new school year had commenced but little over a month ago. The parents who have removed their children from the High school make no secret about the cause. They do not hesitate to state that they are dissatisfied with the course pursued by Principal Ensign in his management of the pupils. While admitting that Principal Ensign is an educator of high class they contend he lacks the executive ability which a man in his position should have.

It was said yesterday that the whole matter would be given an airing at the meet-Finely improved farms in north central Missouri, \$35 to \$50 per acre. Go down with us and examine these farms. Prices are advancing rapidly. Buy now. Send for price list. Lougee & Lougee. of the school board with their complaints on the management of the High school but heretofore no member of the board has cared to make the matter pub"c by bringing it to the attention of the board. It was said yesterday, however, that the complaints have become so frequent that they can no longer be ignored and that at the meeting of the board next Monday there will be something doing.

Several members of the board are also taking issue with Superintendent Clifford and Principal Ensign over matters which have recently materialized in connection with the High school. It is said that Superintendent Clifford and Principal Ensign de- the Sioux City Traction company. At a cided on the addition of another teacher in the High school recently without consulting any member of the board or even the chairman of the committee on teachers until the new teacher had been selected by them. The members of the board, including the president and the chairman of the committee on teachers, feel that they should have at least been consulted before the choice was made.

The new rule promulgated by the principal of the High school with the authority of the superintendent relative to members of the foot ball teams securing statements from their parents or guardians exonerating the district from all blame or liability in case of accident to the pupil, it is said, was put in force without being referred to the Board of Education and securing its sanction. The members of the board feel hat they were slighted in this matter as such radical move had been made by the nois Central, lies in this city. His condi-High school faculty, the board should have tion is considered serious. Garari was shot at least been consulted.

matters when compared with the complaints which have been filed in the short time since the new school year began about the management at the High school. That many parents are dissatisfied with the way things are running at the High school is evident by the number of pupils who have been withdrawn there and placed in other schools before graduating.

Wright was in the city yesterday seek- new and the provisions for parole have ing the aid of the police and county never been investigated. Secretary Garrett of the governor's office, who has charge of the paroles and pardons, is having prepared the papers and blanks necessary. The parole cannot be granted without the recommendation of the superintendent of the hospital and the advice of the surgeon in charge, so that in fact the governor's action is more c'erical than otherwise, as there is no provision for an investigation into these cases by the governor or his representatives. More than a hundred of these victims of liquor or morphine are now in the state hospitals and it is anticipated the demand for paroles will soon become quite heavy. Until the superintendents act

Battleship Model Coming. Curator Aldrich of the state historical department has been notified that the model of the battleship Iowa, which is to be presented to the state of Iowa by the Cramps, ship builders, has been shipped to the state. It will first remain on exhibition in Dubuque for a few weeks in the Carnegie library, before coming to Des Moines. This out of compliment to Speaker Henderson, who was instrumental in having the model made. He had applied to the Navy department to have the model made for the state of Iowa, but there was no law authorizing the making of models for any purpose other than for the Navy department. He then appealed to the builders of the battleship and they have had the model con-

Greenfield Road Independent. F. W. Cherry, promoter of the railroad known as the Des Moines Southern, through Winterset to Greenfield, denies emphatically the persistent rumors that the project is one backed by the Great Western. The rumor arose from that fact that William Milchrist, Joseph S. Lawrence and it is expected to make connections during W. P. Manley. With this meeting the con- the building stage with the Great Western. trol passed from the Bank of Montreal to Mr. Cherry states that it is an independent Armour & Company and to Swift & Com- project and that he has no assurances that pany, who own a controlling interest in the any railroad company will purchase or connect with the fine. instructive. The average man is so busily

engaged in the labor of money-making that

he has little time and less inclination for

books which instruct; hence when he feels

out of sorts, either he gives no heed to

Nature's warning, or he consults a physi-

cian, at an expense which a little knowl-

edge would have enabled him to avoid.

There is probably no complaint upon which

the public is so little informed as hemor-

rhoids, or piles; this little book tells all

about their nature, cause and cure; it treats

of the different forms of blind, bleeding,

itching and protruding piles, describes their

symptoms, and points the way to a cure so

simple and inexpensive that anyone can un-

derstand and apply. The importance of

promptness and thoroughness is vital, for

the disease will not cure itself, and nature,

alone, unaided, will not accomplish a cure

while the consequences are too painful for

detailed description. You are told how piles

originate, the reason for their appearance

usually being that some of the rules of cor-

rect living have been violated, and (what

is more to the point) how you may rid your-

self of this bane of human existence. All

affections of the rectum are treated in sim-

ple plain language, so that all may under-

stand and learn how the cause may be re-

moved. Many people suffer from piles, be-

cause after trying the numerous lotions,

cintments and salves that are on the

market, without relief, they come to the

conclusion that a surgical operation is the

only thing left to try, and rather than sub-

mit to the shock and risk to life of an

operation, prefer to suffer on. This little

book tells how this may be avoided, and a

cure be effected without pain, inconveni

ence or detention from business. Write

your name and address plainly on a postal

card, mail to the Pyramid Drug Co., Mar

shall, Mich., and you will receive the book

Slow healing sores are unsightly, painful and dangerous. They are a constant care and source of anxiety and worry. Chronic, slow healing sores are frequently the after effects of some long standing debilitating sickness that leaves the consti-

tution weakened and the blood in a polluted, run down condition, when a scratch, cut simple boil or bruise, becomes a fearful looking ulcer that grows and spreads, eating deeper and deeper into the flesh in spite of everything that can be done to check its progress. Old people whose blood is below the standard and the circulation sluggish, are tormented with face sores, and often indolent, sickly looking ulcers upon the limbs that give them hardly a moment's rest from pain and worry. Ordinary sores are liable to become chronic unless the blood is strong enough to throw off the germs and poisons and no amount of Purify the Blood When thirty miles northwest of Whitefish external treatment Heal the Sore. they will continue to grow worse and worse,

and many times terminate in that most horrible of all human maladies, Cancer. S. S. S. cures slow healing sores by purifying and invigorating the germ-laden, vitiated blood and purging the system of all corrupt matter, thus striking at the real cause and removing every hindrance to a rapid and successful cure, and this is the only possible way to reach these deeply rooted, dangerous places S. S. strength-

ens and tones up the circulation, supplies the rich, nutritious blood needed for the rebuilding of the constitution as well as healing the sore, and you get rid of the old plague spot for all time. If you have a slow healing, stubborn sore, write us about it, and our Physicians
