

ENCOURAGES STRIKERS HERE

Head of Coal Trouble Will Help Union Pacific Men's Cause.

WILL BRING RAILROADERS MORE MONEY

Great Financial Burden on American Labor Unions Will Be Relieved When Anthracite Miners Return to Work.

The press reports yesterday indicating that a settlement would be effected in the Pennsylvania coal mine strike aroused enthusiasm among Union Pacific strikers, whose cause will be vastly benefited, indirectly, by the termination of this gigantic labor war.

They will become invincible now, with their other potent factors in their favor and can project their fight through the winter and spring, too, if necessary.

Other conditions have arisen to encourage and quicken the hopes of the Union Pacific strikers. It now appears that their repeated assertions that skilled mechanics, such as are needed in Union Pacific shops, are decidedly scarce, have been substantiated in an incontrovertible manner.

Upon the same line David A. Boyd, the machinists' business agent at Detroit, writes: "I cannot get enough men to fill my orders. There is more work in this state alone than there are men to do it."

Over Hundred Thousand Members. One of the machinists' leaders said that organization has a membership of 105,000 and controls the major portion of the best mechanics outside of the union.

With all these stern facts and figures in view it is not peculiarly surprising that the Union Pacific is not getting competent and skilled mechanics, as its officials have so persistently claimed," asked one of the men.

President Burt arrived yesterday morning from Salt Lake City, where he was during the annual meeting of the stockholders. He was met at Union station by Chief Engineer Berry of the Union Pacific and proceeded at once to the shops, where the two remained for some time.

As showing the interest and co-operation of other local union for the strikers, local lodge No. 264, International Bartenders' League, has voted to make a regular weekly contribution to the Union Pacific strikers of \$50 until the fight is over.

Yon Take No Risk. In using Dr. King's New Discovery for Consumption, Coughs and Colds, it cures all lung troubles or no pay. 50c and \$1. For sale by Kuhn & Co.

THROUGH THE BARS IS SAFER

Doctor and Jailer Have Exciting Experience with Insane Man at Jail.

Dr. George Tilden, president of the Board of Insanity Commissioners, hereafter will investigate the condition of new charges while outside the cells in which they are confined—at least he will pursue this course until he becomes acquainted with each new patient.

The reason is found in an incident which occurred Wednesday evening at the county jail. The doctor and Jailer Tom Flynn were in an apartment there interviewing Edwin B. Rhodes, who had been brought in during the afternoon from 2523 Spaulding street by Deputy Sheriff William Roach on an insanity warrant sworn out by the young man's father.

For hours afterward the prisoner had the jail inmates in a disturbed state of mind and persisted in flooding the floor with water from the faucet and in scrubbing in the pools with his bare hands.

BARTON IS HOLDING BACK

Smelter Man Has Not Yet Accepted Presidency of Auditorium Company.

Guy C. Barton has not yet accepted the presidency of the Auditorium company. At the meeting of the board held at the Millard hotel yesterday Mr. Barton was not present and the committee having in charge the invitation extension him was given further time.

The most important action taken was the arrangement for a special meeting on the evening of Wednesday, October 23, in the Commercial National bank, for a complete rehearsal of plans and specifications for the auditorium. The occasion will be especially to render the eleven new members intimately familiar with the progress, the plans and the divers ideas in this connection.

It was arranged that all communications should serve on as at present till the president can appoint the new members on them.

VISIT THEOLOGICAL SCHOOL

Members of Presbyterian Synod Inspect Building at Twentieth and Emmet.

The synod of the Presbyterian churches of Nebraska, which is in session at Knox Presbyterian church, was entertained by the women of that church yesterday at luncheon at the close of the meal the members of the body accepted the invitation of the officers of the Omaha Theological seminary to inspect the new building of that school at Twentieth and Emmet streets.

The Secret of a Successful Merchant.

The success of a merchant depends largely upon his ability to please his customers. In order to do so he recommends his only articles which are to his knowledge most reliable. In handling medicine this is especially true, as people desire the best preparation on the market and appreciate the recommendation of their druggist.

Announcements of the Theaters.

With the special bargain matinee today and tonight performance "McFadden's Row of Flats" will close its engagement at the Boyd. Tomorrow afternoon the original Bostonians with a large number of original cast will open for two performances.

DIED.

SYLVESTER—George, October 15, 1902, aged 24. Funeral services Friday, October 17, 1902, at 2 p. m., from residence of his son, John Sylvester, American avenue, in the Mount Prospect Hill cemetery. Friends invited.

PATIENT LEAPS TO DEATH

Mrs. D. L. Garrison Jumps from Third Story of St. Joseph's Hospital.

RESULT OF MIND TEMPORARILY DERANGED

Suffering Woman Makes Fatal Leap While Nurse is Absent from Room a Few Moments—Body Horribly Mangled.

Mrs. Julia Garrison, wife of D. L. Garrison, vice president and general manager of the Nebraska Moline Plow company, leaped from a window in the third story of St. Joseph's hospital at 8:30 a. m. yesterday and received injuries from which she died within an hour.

The window is in the south side of the building and Mrs. Garrison fell on the asphalt pavement below, barely missing an iron picket fence which runs along this side of the building.

Two men employed at the hospital quickly carried the body onto the main floor of the hospital and physicians were summoned, but could do nothing.

INJURES THE CITY PAVEMENTS

Police and Engineer's Departments Will Stop Bonfires in the Streets.

Preparations are being made by the police and city engineer's departments for the active crusade against bonfireholders who every year at this time cause more or less damage to pavements by bonfires for the destruction of dead leaves.
