The plan is that each district attorney shall largely devoted to criminal prosecutions This will not, of course, affect Lancaster and Douglas counties.

The reason for this lies in the fact that in many of the counties of the state criminal prosecutions have been most ineffilies, of course, no corruption or disinclination, bu. simply lack of knowledge of how to conduct such prosecutions. In a number of counties, owing to the small salary attached to the office, only very young and

## BOUND HAND TOOT

With muscles drawn and throbbing with pain, and the joints swollen, stiff ar 4 ten-der, the rheumatic patiest is a shelpless and dependent as though bound hand and foot. No disease causes such intense suffering, such excruciating sharp, herve-racking pains as Rheumatism, and this unfeeling monster, unless checked, crushes the

strength and hope of its victims.

When the system becomes infected with Uric Acid and other like poisons they are absorbed into the blood and lodged in the muscles, joints and nerves. Then with the suddenness of an electric shock, pains begin to shoot through the mustle or joint affected, which often swells and

inflames, and becomes tender, feverish and sore. Unless treated through the blood Rhenmatism grows steadily worse, finally ending in shrunken museles, immovable joints, shaky nerves, or crutches. The cure of Rheumatism can

permanent until the acid blood has been purified and the system cleaused of all promptly and surely, because it is a perfect blood medicine, and an entidote for the irritating acids that cause Rheumatism.

S. S. S. purifies and invigorates the illuted, stagnant blood, and when a free, healthy circulation is again established, the gritty, corroding particles are washed out of the aching muscles and joints, and the longest for relief comes at fast, and the cure is permanent because the cause has been removed and nothing remains in the blood and sys-

BEATRICE, Neb., Oct. 16,-(Special Telegram.)-The preliminary hearing of Eph clently conducted and enforcement of the J. Harvod, charged with being one of the law has therefore relaxed. Back of this murderers of David Jones of Wymore, was concluded in county court this evening shortly after 5 o'clock, which resulted in Harrod's being discharged by Judge Bourne on the grounds that there was not probable cause for holding the defendant. The defense introduced fifteen witnesses, ome of whom assisted in establishing an alibi for the accused. Probably a dozen witnesses from Wymore and the neighborhood where the murder occurred were examined, but nothing new was developed in the case. The principal witness was G. N. Showmaker of Dewitt, who testified to having talked with the defendant on the evening the murder occurred. When the judge rendered his decision Harrod was overcome with joy and grasped the hands of the judge and his attorneys.

### AMERICA MINES MOST COAL

Leads Even British Empire in Her Output of Fuel.

ANGLO-SAXONS DIG OVER HALF TOTAL

World Gets Four-Fifth of Its Black Diamonds of Which Three Countries Germany Comes Bad

Third.

WASHINGTON, Oct. 16.-The United States geological survey estimates the world's production of coal for 1901 at 866 .-165,540 short tons. The three great coal producing coun-

tries of the world are the United States, Great Britain and Germany. Austria-Hungary comes fourth, France is fifth, Bel glum sixth and Russia seventh. The last country, notwithstanding its vast area, produces only about 6 per cent as much coal as the United States.

Prior to 1899 Great Britain led world's coal producers, but during 1895, 1900 and 1901 the United States has made such remarkable increases in coal production, due principally to the activity in the iron and steel trades, that it now stands Twenty-second United States infantry far ahead of all competitors with a production in 1901 exceeding that of Great Britain by 47,965,938 short tons, or 19 per cent. Up to the close of 1900 the coal produc

tion of Great Britain and its colonies taken together, still exceeded that of the United States, the excess in 1900 being 3,368,825 short tons, but the output of this country last year exceeded by about 26,000,000 short tons the entire output of Great Britain and its dependencies, including India and the Transvaal.

Of the output of coal in 1901, the United States produced 33.86 per cent. Great Britain and its dependencies 30.86 per cent and Germany 19.42 per cent or combined 84.14 per cent of the total production.

During the month last past forty patients have been cared for by the Visiting Nurses' association, 436 visits have been made, five patients have been placed in hospitals. special nurses have been supplied in three cases, one patient has been sent to friends out of the city and there have been three deaths. The prevalence of typhoid fever among the city's poor during the last two months has been a heavy tax upon the dssociation, making its expenses heavier than ever before, having cost it \$289.55. The expenses of the month closing yesterday were \$142.60 and the treasurer reported but \$32 in the treasury. This is the first time the funds of the association have been entirely exhausted, but the women have no idea of dropping their work. It will be necessary to secure an advancement of funds to meet the present expenses, but they expect to raise this money and enough to meet the immediate demands before the close of another month. The annual meeting of the association will be held within a week of two, the date has not yet been fixed, and it is expected that membership dues for the coming year and subscriptions that usually come in at that time, will materially help for the present. The women intend to work for a membership of one thousand this year and if this can be done it will not be

necessary to ask very much outside assist-The new uniform for the nurses is to be completed this week. It consists of the blue gingham dress and white apron, cuffs, collar and tie and a navy blue circular cloak with veil and bonnet of the same shade. A very pretty badge has been supplied by one of the women consisting of silver Maltese cross enameled in white, lettered in silver, "V. N. A."

In the interest of the recently established School of Domestic Science, the Sisters of Mercy gave a luncheon to the members of the Home Queens' Circle and a few men on Wednesday afternoon at St. Catherine's academy. The menu which was wholly consistent with the hygienic rule that governs the preparation of all foods, in the classes, was equally attractive and was served and largely prepared by the young women of he school. The tables were especially pretty. Mr. John Rush, G. M. Hitchcock and

David H. Mercer were the speakers of the afternoon, Mr. Rush reviewing the work of the Sisters since their establishment in
