

HUNT FOR TRAIN ROBBERS

Intimates that Several Suspects Are Already in Custody.

NEBRASKA STATE BANKS SHOW UP WELL

Have an Unusual Amount of Cash on Hand and Are Ample Able to Furnish Money to Move Crops.

(From a Staff Correspondent.)

LINCOLN, Oct. 17.—(Special.)—An arrest or two in the train robbery case is expected at any time. In fact, it is hinted various men have been questioned for the robbery and the night of the robbery. Most of these have been let go, but it was hinted tonight by an officer that a few suspects might be found in some of the rear cells if a thorough search was made.

The Burlington people have turned more loose on this robbery than ever before in a similar case. Local detectives, Pinkertons and county officers have been busy at work, and the net is gradually narrowing. It was said today that the express company has reported that the booty of the robbers, silver, gold, nickels and pennies, amounted to a weight of 400 pounds. The impossibility of carrying this far and the belief that it has been cached somewhere near the scene has led to a watch being kept that will not be relaxed for weeks.

The officers have given it out that they will pay the \$1,000 reward to the man or men who give the information that will lead to the capture of the men, and will not claim any of it for whatever part they may have in the capture or the actual taking.

Several of the fellows who have been "arrested" were found to be ne'er-do-wells who boasted in their cups and talked unrespectably. Their stories have been run down and found to be simply bombast.

Contest Over Water Rights.

Secretary Dubson of the State Board of Irrigation has set the hearing of the controversy over extending the rights of the big water right in Scotts Bluff county, to occur at the office of the state board in the capital October 26. Three claimants appear as contestants for the irrigation rights covering a tract of some 60,000 acres of land in that county. Years ago the Farmers' Canal company acquired the original water right, but after building some twenty-one miles of canal, failed to complete the work as contemplated and agreed to sell out. The intending purchasers were the Farmers' Irrigation district and Robert Walker. At that time the irrigation district named was formed. It voted an amount of \$400,000 of bonds for the completion of the canal and other works, but the deal for the transfer of the right seems never to have been completed, because the bonds were never sold. Recently William Frank applied for a water right claimants for the big water right in Scotts Bluff county, to occur at the office of the state board in the capital October 26. Three claimants appear as contestants for the irrigation rights covering a tract of some 60,000 acres of land in that county.

The state treasurer today received \$17,000 more of the old bonds of the \$250,000 issue which was recently refunded, making \$175,000 of that issue thus far turned in by the holders. It is understood that some of the holders of the old bonds refuse to turn in their holdings.

Requisition issued today from the governor's office for Joseph Warwick, who is wanted by the Douglas county authorities for the alleged theft of sundry clothing, including a dress suit, coat, collars, shirts, neckties and other accessories of the four hundred, from David H. Hoffman. The value of the goods is placed at \$40. The papers show that Warwick is now under arrest in Chicago and Thomas Hayes is deputed to go after him.

The Farmers' Grain, Flour, Feed, Coal and Live Stock association of Thayer, York county, has filed articles of incorporation with an authorized capital stock of \$10,000. R. B. Price and fifteen others appear as incorporators.

Condition of Nebraska Banks.

Secretary Rorpe of the State Banking Board has just completed his quarterly report of the condition of Nebraska banks. It shows that the number of banks increased during the three months from 438 to 468, and comparisons made with the condition as shown three months since must take into consideration the increase in the number of banks.

"It must be gratifying to Nebraskans," said Secretary Rorpe, in discussing his report, "to know that at a period when there are rumors of a severe financial stringency in eastern money centers and eastern banking institutions are finding it extremely difficult to maintain a legal reserve the banks of this state were never in a more prosperous and healthy condition. Never in the history of the state has its banking facilities and equipments been in so good a position to meet any seemingly possible emergencies."

"On September 15, 1902, Nebraska banks under state supervision held a reserve of 28 2-3 per cent of their total deposits. The amount required by law is 16 per cent, except in cities of 25,000 population, where over 20 per cent reserve is required. Of this reserve \$12,015,877.87, or 36 1-6 per cent, is in the banks' vaults and with others west of the Mississippi river, and \$16,183,520.00, or 16 1-2 per cent, is with banks east of the Mississippi river. With a large reserve and a surplus of 10 per cent, the banks are in a position to meet any emergency that may arise."

Abstract of the condition of the state and county banking institutions, at the close of business on September 15, 1902. Total number of banks reporting 468, together with the comparative statement of the 458 banks reporting on June 1, 1902.

Table with columns: Assets, Liabilities, etc. for various banks and categories.

The Illustrated Bee

FOR CONVENTION VISITORS the next number of The Illustrated Bee will be of special interest. It will contain a large number of pictures of the prominent men of the church of the Disciples of Christ with short but well written and authentic history of the church. In addition to this feature the number will offer the usual attractive literary and pictorial treats, all of them especially calculated for the Bee's patrons.

FRANCIS MARION DRAKE is a name highly honored in the Christian church, for General Drake is not only one of the wealthiest men in the church, but his stewardship of the wealth placed in his keeping has been such as has enabled him to forward the material welfare of his brethren. A splendid picture of the soldier, lawyer, financier, statesman and philanthropist is used for a frontispiece of the forthcoming number of The Illustrated Bee.

ORIGIN AND GROWTH of the church of the Disciples of Christ is the title of a special article dealing with the history of the church and telling of its birth and advance to its present proud position among American religious bodies. Accompanying this article are pictures of a great many of the leading workers in the church, men and women, most of whom are in attendance on the convention now in session at Omaha.

CRACK GOLFERS OF THE WEST shows the photos taken by a staff artist of the leading players who took part in the competition for the state championship at the Country Club links. Some of the best known golfers of the west are shown in characteristic attitudes in this collection. For some of the pictures were posed, all being snapshots taken as the contest progressed around the links. In the lot are splendid pictures of R. R. Kimball, winner of the tournament, and Warren Dickinson, the runner-up.

PARIS A CITY OF WORKSHOPS is told about by Frank G. Carpenter in his weekly letter, and the writer gives us quite another Paris, instead of the effervescent life of the gay capital which receives the time of most writers. Mr. Carpenter gets down to the real Paris, the industrial life of a city which has more than 90,000 workshops and manufacturing plants, and tells us about the people who earn their living by exercise of skilled hands. It is illustrated from pictures made in Paris.

VIENNA'S FAMOUS POOL TOWER where insane people were confined and treated worse than criminals under the mistaken notion of a hygienic diet, is to be razed. A special article describes this structure, which was designed as a charity and intended by the kind-hearted emperor who had it built to embody the best that could be contrived for the unfortunate lunatics, but which was little less than a place of torture.

ION HUNTING IN LAND OF OPIUM tells of the great number and exceedingly ferocity of wild beasts in the land where King Solomon derived his golden treasure. In that tropical region the jungle has closed in on what was once a populous and highly developed region, and beasts and reptiles roam or creep about the muddy ruins of forgotten cities. Some of the exciting adventures of Dr. Carl Peters, the noted German scientist, who recently explored this region are given.

INDEPENDENT OF THESE FEATURES, the next number of The Illustrated Bee will have more of special interest than any recent issue has contained. Pictures of the delegates to the Nebraska Grand Lodge, Degree of Honor, and the officers they elected; pictures taken at the Glenwood apple carnival; old settlers of Co. Co. county; the Battle Creek Soldiers' Relief Corps; and other pictures of interest will be flanked by the usual chatty comment, selected anecdotes and personal comment. If you are not a subscriber you should order the paper from your newsdealer today.

CONDITION OF THE WEATHER. Nebraska's Rain Clouds Pass, but Iowa Will Get Rain Instead.

WASHINGTON, Oct. 17.—Forecast: For Nebraska—Fair, Saturday and Sunday.

For Illinois—Rain Saturday with rising temperature; Sunday, clearing and cooler. Fresh southeast winds, becoming northwest.

For Iowa—Showers Saturday; Sunday fair, warmer in north portion.

For Kansas—Fair Saturday, cooler in east portion; Sunday, fair.

For Missouri—Showers and cooler Saturday; Sunday, fair.

For Montana, Wyoming and Colorado—Fair, Saturday and Sunday.

For North and South Dakota—Fair, and warmer Saturday; Sunday, fair and cooler.

Local Record. OFFICE OF THE WEATHER BUREAU. CMAH. Oct. 17.—Omaha record of temperature and precipitation compared with the corresponding day of the last three years:

Table with columns: Year, Normal temperature, Maximum temperature, Minimum temperature, etc.

ROBBERS CUT MAN'S THROAT

Believe Him of Menace and Leave Him by the Wayside to Die.

WINDPIPE IS COMPLETELY SEVERED Unable to Speak, but Writes His Story and as a Result One Man is Under Arrest and Police Search for Another.

NOBOLK, Neb., Oct. 17.—(Special Telegram.)—George Hodges, colored, was found about 1 o'clock this morning a block east of the Main street bridge, by a hick driver, with his throat cut almost from ear to ear. The hickman called a policeman and the two conveyed the injured man to the office of Dr. Munson, where his wound was attended to. The trachea was cut two-thirds of the way through, and the external layer of the jugular vein severed. The doctor said the cut was clean and smooth, as though done with a razor. It required fifteen stitches to close the wound. A silver tube was placed in the trachea.

He was quite weak from loss of blood, but after a saline injection he revived sufficiently to tell something of his condition. Though unable to speak, he could by signs and writing give answers to questions put to him. In this way it was learned that he had been employed as coalheaver at the Fremont, Elkhorn & Missouri Valley round house. Two days ago he quit work and yesterday, in company with two white men, had been drinking considerably.

He had about \$20 with him, and after about 10 o'clock he and his companions started across the North Park. When they reached the place where he was found, he was knocked down, robbed and his throat cut. Two warrants were sworn out today for the arrest of Max Spahr and J. A. Baird. Baird was arrested at the sugar factory yards, where he was sitting on the Fremont, Elkhorn & Missouri Valley switch engine. He denies having had anything to do with the deed, admitting, however, that he was with the other two, who were strangers to him, until they began to quarrel. Then he ran away and knew nothing of the colored man having his throat cut until this morning. He is held pending an investigation.

Spahr has not as yet been apprehended. That the men did not die is a miracle, as he must have remained where he fell at least two hours before being discovered. He had died profusely and at the time of his discovery was delirious. He seems to have a good chance for recovery.

MICKEY STATES HIS POSITION Says Positively that at No Time Has He Made Any Pledge to Railroads.

GRAND ISLAND, Neb., Oct. 17.—(Special Telegram.)—Hon. J. H. Mickey and Hon. G. W. Norris addressed an audience at Ancient Order of United Workmen hall this evening, both addresses being well received. Mr. Mickey in closing especially emphasized the fact that he was not nominated by the railroads, but was untrammelled in every way, saying:

"I have noticed that in some newspapers it is charged that my nomination was brought about by an agreement among the railroad interests of the state, based upon an arrangement with me previous to the meeting of the state convention. This is a serious charge. The people have a right to know if it is true. A man who would consent to be used by his class and the railroad interests of the state, would not be worthy of support. I desire to say most emphatically that under no circumstances would I place myself in such a position. Let me go further and say that I received the nomination for governor without any such single pledge as what I would do if elected. I am still entirely untrammelled and will remain so, only saying that if elected, as far as I have the ability I shall do what I think is for the welfare of the whole people of the state. I contend that I have an ambition that I would be said of me: 'He made a good governor,' and it shall be my purpose so to conduct the affairs of the state that this may be truthfully said."

Twenty-second Nearing Home. BEATRICE, Neb., Oct. 17.—(Special Telegram.)—The Twenty-second United States infantry, enroute from Fort Riley to Omaha, camped four miles east of here last night. The troops broke camp at 7 o'clock this morning and will spend the night near Pritch.

WOMAN IS BURNED TO DEATH Mrs. John Mackay of St. Joseph, Who Has a Daughter Residing in Omaha.

ST. JOSEPH, Mo., Oct. 17.—(Special Telegram.)—While getting breakfast this morning the clothing of Mrs. John Mackay, wife of an employe of the Burlington, caught fire from an ordinary stove and she was burned to death.

Her husband was at home at the time Mrs. Mackay has two daughters living in Kansas City and one in Omaha.

DOCTOR WORKS FOR CHARITY Lorenz Performs Many Operations in Chicago Free of Charge.

CHICAGO, Oct. 17.—Dr. Adolph Lorenz will leave Chicago for Salt Lake City and San Francisco next week.

His achievements in this city have brought him a great number of requests from all parts of the United States and he has accepted one in Salt Lake City. He performed twenty operations today, all free of charge.

SNYDER WANTS NEW TRIAL Brother Sentenced to Five Years Asks that His Case Be Reopened.

ST. LOUIS, Oct. 17.—Arguments for a new trial in the case of I. M. Snyder, banker and promoter, convicted of bribery and given the sentence of five years in the penitentiary, were commenced in Judge Ryan's court today.

At the request of Judge Pritch, for the defense, the arguments were continued one week.

THREATENED DEATH FROM KIDNEY TROUBLE

Saved By Pe-ru-na.

The Remarkable Experience of an Old Lady 84 Years of Age Whom Pe-ru-na Cured of Catarrh of the Kidneys.

CONFINED TO HER BED. BEGAN THE USE OF PERUNA.

Rode Seven Miles in A Carriage to Do Some Shopping After a Few Weeks Use of Pe-ru-na.

HAVING HER PICTURE TAKEN FOR THE PERUNA CO.

MRS. SUSANNAH McHENRY OF BURBANK, CAL. HALE AND HEARTY AT THE AGE OF 84 YEARS THANKS TO PERUNA

BURBANK, CAL.—Mrs. Susannah McHenry, now of this place, was attacked with kidney complaint while living at Billings, Mo., and was advised to come to California in the hope that a change of climate might help her, but this failed to do, as she was confined to her bed and the doctors in attendance had finally told her they could do nothing for her.

It was then she began to use Peruna and had improved so much within a few months that on April 8, last, she rode seven miles to Los Angeles, spent the forenoon on a shopping tour, and at noon tripped on a long flight of stairs to have her photograph taken. Her letter reads as follows:

"I think I owe my life to the use of Peruna. I have tried innumerable doctors and medicines, but of no avail. The doctors gave me up, saying they could do nothing for me, as my death was only a matter of a short time. I began to use Peruna and am glad to say that instead of being confined to my bed with the dread kidney complaint I am up and about."

"I am 84 years of age, yet I rode seven miles to Los Angeles, spent the forenoon shopping and climbed a long flight of stairs to have my photo taken to send to my friends."

The Peruna manufacturers as a sample of what their valuable medicine has done for me. I candidly believe I would have been in my grave today but for the use of Peruna."—Susannah McHenry.

Kidney Trouble in October. Look out for kidney trouble in October. The heat of summer is past. The activity of skin perspiration has ceased. During the hot months a great portion of the blood poisons have been eliminated through the skin by sweating.

In October the cold days and nights put an end to this and throws the whole responsibility upon the kidneys. The kidneys are obliged to do an extra amount of work. This is very likely to lead to kidney disease.

More cases of kidney disease originate in October than all the other months of the year. Catarrh of the kidneys is very apt to set in when free perspiration of the skin is stopped. A short course of Peruna is very desirable to prevent this. At least those who have experienced any warning symptoms of kidney disease should begin Peruna without delay.

Caution of Kidneys. Peruna reaches the seat of the difficulty by eliminating the catarrh from the kidneys. Even after all other remedies have failed Peruna brings prompt relief. Catarrh of the kidneys in October has become so established in this climate that it is stupendous folly to neglect any precaution. There is no use to take diuretics. There is no use to take "remedies" that simply stimulate the kidneys. What is needed is a remedy that operates to cleanse the kidneys of all catarrhal taint. This is what Peruna will do. Peruna is absolutely unique as a remedy for this class of diseases.

Take No Substitute. Substitutes for Peruna are without exception, frauds. Peruna is in a class all by itself. Nothing is just as good. Nothing can be substituted with any success whatever. Insist upon having Peruna. Beware of substitutes. Never allow any one to persuade you that he has a remedy that will do the same thing that Peruna does.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, president of the Hartman Sanitarium, Columbus, Ohio.

AGENTS WANTED

To Take Subscriptions for The Twentieth Century Farmer

We want an active agent in every town and hamlet to take subscriptions. There is a good regular income in it for every active agent who will give all or part of his time to the work. This is a splendid opportunity for any farmer who has a horse and buggy and wants a remunerative occupation for the fall and winter months. Special inducements to experienced canvassers.

Address for further particulars.

The Twentieth Century Farmer. Omaha, Nebraska.

Inner Lining of Stomach

Must be cured by destroying the unhealthy mucus that prevents proper flow of the gastric juice. Ordinary Dyspepsia Tablets, Pepsin and Soda cannot reach the seat of disease. Nau's Dyppepsia Cure will make a complete cure. Send for booklet, Free to FRANK NAIL, 203 Broadway, N.Y. City.

Sold by Sherman & McConnell, Lutz Co., 16th and Dodge Sts., Omaha, and leading druggists.
