CHRISTIANS DOWN TO WORK

Three Important Mission Boards Put in a Busy Day in Omaha.

WOMEN'S BOARD FINISHES ITS SESSION

American and Foreign Boards Meet and Day's Work Concluded with an Endeavor Rally in the

(Continued from Second Page.)

Dr. W. T. Moore, formerly of London, Engand, out now president of Canton uniconvention and declared that nine-tenths of the speeches delivered at the average convention shoud be done away with, to give time for actual business. His proposition received some, but not much, encourageto write your story, stating your age, date ment, delegates from St. Paul, Colorado and elsewhere responding that the convention proused interest wherever it went; that it by one person; also give a reference as to is wanted in many places and that for the your age, and send the statement, with general boards to meet every other year. as proposed in Dr. Moore's motion, would spirit of the denomination, which delegates its legislative work to no board and which goes enmasse when it goes at all. The motton was lost.

Statistical Secretary Reports.

G. A. Hoffmann of St. Louis, statistical secretary, read a report in which he stated: "By careful computation there have been \$2,000 confessions, baptisms and additions to earn \$200. If you have any friends who have passed the century mark, do not fall last year. This does not include changes to have him or her send a statement as or reclamations of our own membership, requested. Duffy's Mait Whiskey Co. of but simply the new material coming into Rochester, N. Y., has been doing business our churches. About fifty of these were successfully for 50 years, and can refer ministers of the gospel who had a credit-you to the publishers of The Bee, or to able standing among their own people. We have during the year dedicated over 200 houses of worship and organized 250 new congregations. The reports as gathered from the various state secretaries are sum-

"One of the most remarkable features of the growth of the Church of Christ is the progress of our missionary work. In the year 1874 there was one national missionary society. Now there are four. This society raised in 1874 \$4,671. Last year the four societies raised \$464,902. Thus the growth in missionary giving to national society work is one hundred times as large as it was twenty-seven years ago in our

Board of Church Extension.

G. W. Muckley of Kansas City, as correspending secretary, presented the fourteenth annual report of the Board of Church Extension of the American Christian Missionary society, from which the following ta-

ary society, from which the following tables and excerpts are taken:

The receipts for church extension this year, through the corresponding secretary, amount to \$43,503.46. This amount lifts out fund up to \$36,044.34. From October 1 to October 15, we have received over \$5,000. It will be remembered that it has been our effort to increase the fund to \$36,000 by the time of this convention, in order to reach a half million by 1906. This has been accomplished and a few dollars to spars. The receipts from the churches contributed through annual offerings are \$17,536.4. We have gained \$52 contributing churches and \$4,259.74 in receipts over last year.

The receipts to the annulty fund this year have not been so large as last year. The number giving is greater but the amount is less because of a single gift last year of \$12,000. The receipts to the annulty fund last year amounted to \$27,233.32. The receipts this year are \$17,556.55. If aged brothers and sisters are intending to leave money to this fund at their death it will be to their advantage to give it to the church extension fund upon the annuity fund. More than \$20,000 has been substit will be to their advantage to give it to the church extension fund upon the annuity fund. More than \$20,000 has been substit will be to their advantage to give it to the church extension fund upon the annuity fund has the fund at their death of the annuitant. The income to the annuitant is regular, no time or money is building churches to pay, the money is building churches to pay, the money is where the donor warts it to be without any contest of the will. Up to September 30, 1902, there have been seventy gifts on the annuity plan and there is \$72,884.14 in the fund.

This board has received \$2,574 in bequests during the year, and made seventy-three during the year, and made seventy-three funds of the proposed by the seventy sitts on the annuity plan and there is \$72,884.14 in the fund.

This board has received \$2,574 in bequests during the year, and made seventy-three funds o while earning the income for the annuitant, and at death the money is where the donor warts it to be without any contest of the will. Up to September 30, 1902, there have been seventy gifts on the annuity plan and there is \$72,694.14 in the fund.

This board has received \$2.874 in bequests during the year, and made seventy-three loans in twenty-nine states and territories, the loan aggregating \$79,939.25. Mutual Church Insurance Society.

The board of managers of the American The board of managers of the American Christian Missionary society in their annual meeting at Minneapolis last October referred the matter of the organization of a mutual church insurance society to our board for investigation and recommendations to the board of managers at their meeting this year. The plan presented by Fred Scamell of Atchison, Kan., to the board of managers at Minneapolis contemplated the taking up of mutual church insurance by the board of church extension. The board invited Brother Scamell of Atchison to be present at its regular meeting to son to be present at its regular meeting to present his plan. After hearing him fully and considering his correspondence and that of the corresponding secretary with other church extension boards, your board passed the following resolution as their report to this meeting of the board of managers:

agers:

"That in the matter of the organization of a mutual church insurance society, after careful investigation, we deem it impracticable and inexpedient for either the board of church extension of the American Christian Missionary society, or the American Christian Missionary society, to undertake the organization of such insurance company."

Rev. A. L. Orcutt of Indianapolis, secretary, read the seventh annual report of the Board of Ministerial Relief of the Church of Christ, and remarked that the amount of new money received this year is \$731.07 less than last year's amount.

WORK IN FOREIGN FIELDS

Board of Managers of Missionary Society Makes Report of Remarkable Record.

At 2 o'clock Saturday afternoon the Board of Managers of the Foreign Christian Missionary society met at the First Christian church and there approved the report of the board, which is to be submitted at the full session at the Coliseum next Tuesday, and which appears below in

With Rev. C. P. Newman of Detroit as chairman and Rev. George A. Miller of Covington, Ky., as secretary, the board considered and approved as its sentiment recommendations that the missionary board attempt to enter no new field in the Turkish empire at present, because of the immense expense that would be necessary in the accomplishment of any appreciable good, and that the missionaries cultivate the harmonious relationship with the missionaries of other denominations there. These commendations were the result of the deliberations and correspondence had by a committee appointed at the Minneapolis convention to consider the matters. J. H. Garrison, editor of the Christian Evangelist of St. Louis, made the report in the

capacity of chairman. Another recommendation was that an effort be made to recruit to greater strength the life membership of the board.

On motion of Mr. Garrison the board de cided to send a letter of sympathy to General F. M. Drake of Des Moines, who has been such a liberal donor to the church and who is now suffering from injuries re ceived in a recent full.

The treasurer's report may be summa-

SUMMARY RECEIPTS.

Best Year in History. The past year has been the best in the history of the society. This is true with respect to the work done and the money received for its support. The lives of the missionaries have all been spared except two. C. E. Molland of Wuhu, China, and Moses Fillan of Bithias, Turkey, are dead, Several have come home on furlough and are here to rehearse all that the Lord has done with them. Others have gone back to their fields after a season of rest and refreshment at home. Eight new workers have been employed. Two have gone to the Philippines, three to Africa, one to China, one to Japan and one to Honolulu. Four more have been appointed and will sall soon.

more have been appointed and will sail story, read a report in which he stated: careful computation there have been of confessions, baptisms and additions denominations in our work for the year. This does not include changes eclamations of our own membership, simply the new material coming into churches. About fifty of these were sters of the gospel who had a credit-standing among their own people. We during the year dedicated over 200 es of worship and organized 250 new regations. The reports as gathered the various state secretaries are sumpsed thus:

1901. 1902. Gain. churches. 10,873 10,957 4c cmmunicants. 1,179,581 1,207,377 26,535 bible schools. 8,002 8,271 299 scholars, officers 774,544 786,599 22,185 The are appointed and will sail more have been appointed and will sail soon.

Finances—The whole amount received in the year is \$118,223.62. This is a gain of 36,-462.48 over the previous year. The churches have given \$85,595.83; the Sunday schools \$5,270.25. There is a gain of stay in the number of contributing Sunday schools. Four have been appointed and will sail soon.

Plinances—The whole amount received in the year is \$118,223.62. This is a gain of \$6,595.83; the Sunday schools have given \$85,595.83; the Sunday schools have given \$8,595.83; the Sunday schools \$1,205.85; the Sunday s

The bequests amount to only 2,381,00. Compared with last year this is a loss of \$11,664.60. The amount received on the annuity plan is \$29,410.98. After paying interest to the annuitants and not counting the value of this fund to the work the society has a net profit of \$4,018.98 from it.

In Foreign Lands.

In Foreign Lands.

China—In China work is carried on at nineteen stations and out-stations. The missionaries number twenty-six, the native helpers seventy-two. The converts for the year number ninety-three. In the eight Sunday schools there are 552 scholars enrolled; in the ten day schools 388, and in the two boarding schools eighty. The impatients in the hospitals number 255; the out-patients 20,850. The work has the following departments: Evangelistic, educational, medical, literary and industrial. A hospital and two homes have been erected in Lu Cheo Fu. In that city a heathen temple has been cleansed and remodeled as a home for the teacher in the school. Japan—Regular work is carried on at forty-four stations and out-stations. The missionaries number thirty, the Japanese evangelistis, teachers, Bible women and other helpers twenty-seven. There are thirteen organized churches. The additions for the past year number 179. In the twenty-one Sunday schools there are 250 pupils enrolled; in the day schools there are 143. Japan has witnessed an evangelistic movement of unusual scope and power.

People Are Hospitable.

Among Sultan's People.

Turkey—Work is being carried on at twenty-eight different places. There are three missionaries and thirty evangelists, teachers and helpers. The seventeen churches have a combined membership of 275. The additions for the last year number 21. In the Sunday schools there are 274 papils. The church in Sivas grows steadily, under the care of G. N. Shishmanian. Joseph Halgaan has been in cbarge of the work in Constantinople. G. N. Shishmanian has visited Zara, Lidjeh, Haineh, Diarbekir and Harput. Garabed Kevorkian spent several months visiting the churches in his district.

Cuba—Work is carried on in Havana and Matanzas. There are two missionaries in each place. Havana is a city of 250.009 people. In that city five or six weekly services are conducted at three points. In one the worship is in Spanish, in another in English and in a third in both languages. In addition to preaching the gospel Sunday schools and a day school are taught. Hadiento to preaching the gospel Sunday schools and a day school are taught. Hatvan is not only a difficult field, but a very costly one. Rents are enormously high; butter is 40 cents a pound, meat from 30 to 35 cents, milk 15 cents, ergs 36 cents, ice 11 a week all the year. Fruit is costly.

Three Points In Hawani. Among Sultan's People.

Three Points in Hawaii.

Hawaii—After A. E. Cory left Honolulu for China the mission was left without a leader for some months. In course of time A. O. Hushaw was appointed superip-tendent. The work is carried on at three

A. O. Hushaw was appointed superintendent. The work is carried on at three different points.

Africa—Dr. Layton has given his time to the preaching of the gospel. A meeting is heid at least every day. He has been conducting a clinic, which has an average attendance of thirty. He has performed a few surgical operations and he has been called a distance to see state officials, missionaries belonging to other societies and traders. One town is especially receptive and urged Dr. Dye to come and dwell among them and teach their children. Six months before this town had celebrated a cambial feast, killing several, for the funeral ceremonies of the old chief, who had died.

England—The net increase in the fourteen churches in England is 18i. The scholars in the Sunday, schools number 223. The active members of the Christian Endeavor societies number 37i, the Juniors 226. The churches have raised for self-support \$19.28, for the evangelistic fund \$5.56 and for the foreign missions \$1.83. The grand total is \$24.887. Some progress has been made in the reduction of church debts. J. H. Bicknel has spent most of the year in evangelistic work. It is necessary for him to give up the work in England and return to America.

In Philippine Islands.

The Philippines—The work in the Philippines was started a little more than a year ago. At the present time there are four missionaries in Manlia. ago. At the present time there are four missionaries in Manila.

As in former years, the churches in Canada, England and Australia co-operate with the Foreign society. This fellowship is most helpful and most delightful.

From every field the cry comes for respond are very scarce. This is the most serious problem before the society. In the coming year the income should exceed \$20,000 at the very least. We have been aiming for three years to reach that amount. Thus far it has not been done. There is need of more men like General Drake and Lathrop Cooley, who will give their thousands to evangelize the world.

Appoints Committees.

Appoints Committees. A. McLean, chairman of the Foreign Missionary society, announced the following ommittees, to be organized Monday: On Order of Business-B. S. Denny, Iowa;

T. A. Abbott, Missouri; F. M. Rains, Ohio. On Nominations-C. M. Chilton, Missouri, W. R. Warren, Pennsylvania; A. W. Taylor Illinois; A. D. Harman, Minnesota; J. C.

On Missionary Supply-J. H. Hardin, J. H. McNeill, Indiana; B. B. Saunders, Texas: Farmer, Bee Building, Omaha.

W. H. Baker, Kentucky; W. S. Priest, Kan-On Propertionate Giving-A. B. Philputt, Indiana; L. Harvnot, Iowa; G. B. Van Arsdale, Illinois; W. J. Russell, Pennsyl-

On Forward Movement for Foreign Missjons-B. A. Jenkins, Kentucky; J. E. Pickett, Colorado; H. A. Denton, Missouri; J. F. Stone, West Virginia; W. W. Williams,

TALK CHRISTIAN ENDEAVOR

ance of This Branch of the Church.

Saturday evening was devoted to the hristian Endeavor work. The Coliseum building was well filled, as this was the first session of the convention in charge of the men. C. H. Plattenberg of Ohio spoke on the "Transforming Power of Christian

on the "Transforming Power of Christian Endeavor," saying:

The coming historian will characterize the nineteenth century as the age of new forces. He will mention steam and electricity and their wonderfully transforming power in the industrial world. But he will dwell with vasily greater emphasis on certain new forces and new adjustments of religious things, such as the Sunday school, the missionary propaganda, temperance retorm, woman's work and the Endeavor movement. Nor is the last the least. For the Endeavor movement marks an awakening as distinct as the crusades, and immensely more momentous. The crusaders mobilized a Christian army for the purpose of rescuing the tomb of the Savior from the hands of the Saracens, but this new crusade has mobilized a greater army for the higher and nobler purpose of rescuing the world for Christ and the church. It has injected new energy in the siuggish stream of the church's life. The church can nevermore be what it used to be-still, formal, lifeleas—a collection of dry bones, a heav retrigerator in which warm hearts were chilled into indifference.

Prof. Seely, speaking of the decadence of Rome says. The empire perished for want of men. The world and the church need men today.

The Christian Endeavor can furnish such men, for it lays hold of the untainted mind and unperverted heart of the child, and it should give daily, hourly, diligent care to the Scriptural indoctrimation of the child-mind, for we believe with Felix Adler that the unpardonable sin is the sin against the purity and freedom of a child's development.

With millions of young people trained, disciplined and my museed for this holy war-Endeavor," saying:

ment.
With millions of young people trained, disciplined and massed for this holy warfare, what stupendous victories for Christ and humanity may be looked for. Such an army, loyal to such a cause, would be invincible.

ciples of Christ During the Next Five Years" was discussed by Claude E. Hill of Missouri, who said:

Our first question is, What of the disciples of Christ during the next five years? Upon the answer to this question will depend the answer to the one forming the subject of this address. And, brethren, I am glad we do not need to consider the movement during the next fifty years, for then the element of uncertainty would enter. The question of consolidation or absorption, of course not to our disappearance, would be question of consolidation or absorption, of course not to our disappearance, would be up for treatment. But we can speak of the next five years and be approximately correct. That is about as far into the future as I can go, and you will not fall to note a slight difference between this attitude and the real accomplishment of some Old Testament prophets. It is my judgment that during the next five years the Disciples of Christ will surpass all previous periods of that duration in substantial growth and enlargement. We are rapidly forging to the front rank of American religious bodies and it is my belief that we are now entering on our greatest period of growth and development.

Christian Endeavor is founded upon a

development.

Christian Endeavor is founded upon a well defined and by most a well understood principle. It cannot fail. It may evolve into something better, but it will be the evolution which we believe our own movement tends most encouragingly and gloriously toward—the one fold and the one Shepherd. During the next five years Christian Endeavor will grow. In our own rank it will grow as in none other and as it has not before. We will come to better understand its inevitable trend, and it is as natural for movements as it is for individuals to seek congenial company.

We should have succeeded without Christian Endeavor, but with it the moment of tian Endeavor, but with it the moment final and complete victory is hastene And in contemplation of the glorious co And in contemplation of the glorious con-summation let us not forget to give to this movement its just show of honor. Or yet while the struggle is on and the conflict deepens let us not forget this youthful ally which so nobly and bravely fights by our side, helping to break down the waits of sin and diversion. In our tents and around our camplifes let us always welcome it, and in councils of war or campaign for Christ which are being planned not deny its voice or refuse whatever word of wisdom it may speak. may speak.

He was followed by C. E. Morgan and C A. Frear, who spoke briefly, after which the meeting adjourned.

better work might be done if better provis ion were made for placing the superintendents in contact with the workers a

their conventions. He has discovered that the old are holdng back in the work for fear of being in the way of the young and that the young are holding back because fearful of doing the work less successfully than their elders. As one remedy, Superintendent Pound proposes that in Christian Endeavor work there be a regular course, to terminate after a fixed term of service. The junior service is already seven years and the intermediate four years, and Superintendent Pound suggests that with the seventh year the third or young people's grade be gradu-
