### FIGHT INSURANCE COMBINE

Burlington Business Men Ask the Governor to Take a Hand.

### COURT CONSTRUES THE BALLOT LAW

One of Best Known of Iowa's Civil War Soldiers Dies in the State Hospital at Independence.

(From a Staff Correspondent.)

### DES MOINES, Oct. 18.—(Special.)

Governor Cummins had laid before him today by the business men of Burlington an important matter relating to the insurance combine in Iowa. It appears that about five years ago the insurance companies known as the Iowa board companies prepared and adopted what is known as the Iowa standard insurance policy for fire insurance business. Under one clause of this policy it is provided that in case the insured accepts insurance in any unauthorized company the policies with companies that comply with the law are all void and uncollectible. Now it is claimed that the Iowa board companies have made use of this clause to compel insurance in their companies alone and under this arrangement have effected a strong combination or trust and have selected an agent, a Mr. Bennett of Cedar Rapids, who makes all rates for all the companies, and they have thereby increased the rates in all cities of Iowa. It appears that this matter was laid before the state auditor by the Burlington business men and he replied that the Iowa uniform policy, contrary to general understanding, was never approved by him. He also enclosed a copy of an opinion by Attorney General Mullin, in which the latter reaches the conclusion that the clause can be construed in only one way—that of rendering invalid all the board business in case other business is accepted, but he strongly condemns the whole clause and declares it should be eliminated. Now the governor is asked to see if he cannot take steps to have the combination broken up.

The young men of Mountaineer college who have been drilling for their parts in the cantata "Belshazzar" and the young women who have been making elaborate costumes for the same performance are in despair, and the cantata will not be given. All because it came to the ears of the president that the young women were going to wear tunics which would give a full display of their shapely arms. This was shocking. Further it was learned that the students would give what was perilously near a dance. For a Methodist institution, this was awful. President Lewis immediately called the faculty together and stated the situation. The faculty was shocked. The women members blushed while the gentlemen said it was "outrageous."
