There is no doubt but that the organization of the beef trust is just as complete as it ever will be. The combination was to have been consummated September 29 and put into operation, but the time was a bit 'out of foint' for such a proceeding and it was postponed. Just then President Roosevelt was turning over the trusts and the money market was inopportune for floating bonds, but there is no doubt that the announcement will be made as soon after election as the money market gets in a satisfactory condition. COAL STRIKE CALLED OFF

Theodore Roosevelt, president of the United

Theodore Roosevelt, president of the United States of America:

WILKESBARRE, Pa., Oct. 21.—Hon. Theodore Roosevelt, Washington, D. C.: Dear Sir—We, the representatives of the employes of the various coal companies engaged in operating mines in the anthracite coal fields of Pennsylvania, in convention assembled, having under consideration your telegram of October 15, 1962, addressed to John Mitchell, president of the United Mine Workers of America, which reads as follows:

Workers of America, which reads as follows:

"I have appointed as commissioners Brigadier General John H. Wilson, E. W. Parker, Judge George Gray, E. E. Clark, Thomas H. Watkins, Hishop J. L. Spalding, with Carroll D. Wright as recorder. These names are accepted by the operators and I now earnestly ask and urge that the miners likewise accept this commission. It is a matter of vital concern to all our people, especially to those in our great cities, who are least well off, that the mining of coal should be resumed without a moment's unnecessary delay."

We have decided to accept the proposition therein embodied and submit all questions at issue between the operators and mine workers of the anthracite coal region for adjustment to the commission which you have named.

In pursuance of that decision we shall re-

an opposition plant. I also believe that this movement on the part of the packers will make it profitable for the small butcher

have named.

In pursuance of that decision we shall report for work on Thursday morning, October 23, in the positions and working places occupied by us prior to the inauguration of the strike.

We have authorized John Mitchell, president of the United Mine Workers of America, with such assistance as he may select, to represent us in all hearings before the commission.

JOHN MITCHELL, Chairman of Convention.
W. B. WILSON,
Secretary of Convention.

The debate on reinstatement was im mediately resumed. One delegate strenuously objected to the adoption of the resolutions because no provision is made in them MORRISTOWN, N. J., Oct. 21.—Harvard defeated Yale, holder of the title in the team championship of the intercollegiate Golf association, today over the links of the Morris County Golf club. hall who wanted to be heard. Wilson Ridicules Opposition.

W. B. Wilson, national secretary of the convention, voiced the sentiment of President Mitchell and the national organization in a strong speech. He said in part:

It seems to me a rather peculiar position for any of the delegates in this convention to take that after they have gone through a struggle of five months and have secured the terms which they laid down when the strike began.

When the employers refused to accept this proposition the miners said: "We will submit the entire question to arbitration and abide by the decision of the arbitrators." Totals 22 16 Princeton and Pennsylvania met for the list time in the afternoon, the former win-

cannot return to work until there is an unconditional surrender."

Within the last two weeks the operators
have entirely changed their position upon
that point and they now say they are willing to submit this matter to arbitration.

Now, then, the question raised is in anticipation of the dismissal of some of the
men. You have not returned to work, you
do not know yet whether or not you are
going to be dismissed from the positions
you occupied before the strike, but you are do not know yet whether or not you are going to be dismissed from the positions you occupied before the strike, but you are anticipating; you have already secured a proposition by which the question of dismissal of those men, if they are dismissed, will be submitted to arbitration, and the operators have agreed to abide by the decision of the arbitrators. We can just as well afford to meet them on that ground now as we could have afforded to meet them on that ground now as great deal better than we could then, in view of the fact that even if some of the men are left out, and in view of the additional assurance given by Mr. Mitchell yesterday, that if any men were let out the United Mine Workers would take care of them, I believe it would be folly to risk the chance you now have, or risk the chance of ultimate defeat rather than to accept the complete victory that is now before you.

Some of you say we should not accept this proposition now. Would it not be well to ask: "If you do not accept this proposition, what will you substitute for it? What will you put in its place? What has made your struggle the complete success it has been up to the present time?" It is the fact that it has been so handled as to command the admiration, the respect and the confidence of the entire American people. If, then, you turn down a proposition made in good faith by the president of the United States, looking to the termination of the difficulties now existing, can you expect to retain that confidence that admiration and respect?

You should accept it because it is the proposition that you yourselves made when the struggle began. You have won that

—In a game characterized by absolutely rotten work, Iowa defeated Simpson college of Indianola on Iowa field today, 10 to 0. Had it not been for the magnificent playing of Ocheltree on the defense, Simpson would not have been kept twenty yards away from the Hawkeye goal in the last fifteen minutes of the game. Two punts fumbled to Simpson, twenty-five yards penalty for offside play and Bert Kennedy's brilliant line bucking put the Hawkeyes on the defensive, when Iowa finsily held on its twenty-yard line and Mack, by a brilliant thirty-five-yard end run, took the ball out of danger, and the Iowa rooters yelled for joy.

The delegates in brief speeches took up both sides of the question with great earnestness. Those opposed to the proposition wanted specific assurance that they would be taken care of. During the debate three speeches were

made in foreign languages-Slavonic, Polish and Lithunian. The three foreign speaking delegates favored the acceptance of the proposition. A Slav delegate wanted to know what wages the men would receive if they go to work Thursday, which created a laugh. He was informed that the question would be placed in the hands of the

The Italian delegates also wanted the proposition explained to them, which was done by an Italian speaker. When he had concluded his explanation a motion was immediately made to close debate. Before the motion was put, Mr. Mitchell, in anewer to a query, announced that he had a telegram from the president of the United States that he would call a meeting of the commission as soon as the convention took favorable action. I do not think anyone has any doubt now as to the way this convention be quite in place for me to speak fust before you vote, but I want to remind you of this: When the arbitration proposition was accepted labor all over the land breathed a sigh of relief. That this strike has given labor new dignity no one can deny. Labor occupies a position now that it never occupied before. The fruits of your victory may not be as apparent to you as they are to those who have studied the labor question more thoroughly than you, and I don't want to have our achievement.

Immediately upon receipt of the infor tion the following telegram was sent to Mr. Mitchell:

Mr. Mitchell:

WHITE HOUSE, WASHINGTON, D. C.,
Oct. 21, 1992,—Mr. John Mitchell, Chairman
of Convention, Wikesbarre, Pa.: Upon recelpt of your telegram of this date the
president summoned the commission to
meet here on Friday next, the 24th inst.,
at 10 a. m. GEORGE B, CORTELYOU,

News of the termination of the strike was received by the president with great satisfaction.

Telegrams have already been sent to the members of the commission, notifying them | of the first meeting to be held in this city week. All members of Bee Hive lodge, as on Friday morning and cummoning them to be present. The meeting will probably be held in the office of Commissioner Wright, in the Department of Labor.

After the commission has effected its body on the president to pay their respects. At that time it is expected be will embrace the opportunity to give the commission such verbal instructions as he may care to present to it, although he may also prepare a letter of instructions as was done at the time of the appointment of the Pullman strike commission, of which Colonel Wright was president.

It is understood that few meetings of the commission will be held in Washington. After the work of the commission has been mapped out the first step will be to take the testimony of the miners, who may be regarded as plaintiffs in the case. Notification will be sent to all interested parties that at certain specified times the commission will hear evidence. The parties to the inquiry will be permitted to be present at the hearings either personally or by coun-

It is probable that the first sessions of the commission at which testimony will be taken will be held in Wilkesbarre, as that city will be the most convenient for the miners' representatives. Other meetings will be held in Philadelphia or New York, or in both cities.

Whether the sessions of the commission will be open to the public is a question the commission itself will have to determine but it is regarded as quite likely that at all sessions when testimony is taken representatives of the press will be admitted. How long the hearings will continue nobody can foretell. At their conclusion each member of the commission will be supplied with a copy of the testimony adced and will consider it at his leisure cheers. flemedy is Accomplished by Conneil Sitting as Board of Equalization and Drafting New Ordinances.

Owing to the fact that so many cases of alleged illegal special taxation have been brought up lately Mayor Koutsky a short time ago called the attention of City Attorney Murdock to the matter and the result was an entire reassessment. This was brought about by the drafting of entirely new ordinances and the sitting of the council as a board of equalization. The board sat, after the proper notice on nine-yearold improvement ordinances, which have never been contested in court and on one new one recently created, making ten in all. The districts involved are: Grading. Nos. 38, 39, 40, 42, 49, 52; sewer districts Nos. 108, 109 and 110.

By the sitting of the council as a board of equalization it is asserted that the former taxes levied are made legal and that no proceedings can be brought against the city to declare these taxes void. This action practically clears up the docket of the city in this matter and hereafter all special taxes will be given especial care and attention by the municipal authorities. In the past the sessions of the Board of Equalization have been permitted to slide by with not enough members present to make a quorum and the result has been litigation which has cost the city large sums of money. Now all this is changed and improvement ordinances will be placed under close scrutiny before being passed by the council and approved by the mayor.
