## REPORT SCHEME FOR FRAUD

Story to Effect that Strike Breakers Will Be Registered.

THIRD WARD TO BE CENTER OF ACTIVITY

Residents of Union Pacific Shops Said to Be Fixed to Increase Vote for Company's Choice for Congress.

Reports received last night indicate that the Ninth precinct of the Third ward is to be one of the danger points in registration today; that at that place an attempt will be made to register a large number of the men who since the strike on the Union Paoffic ratiroad have been residing temporarily in the shops of that company as strike breakers. These men have been herded together from all quarters of the country, coming from the cities of the east principally. The strike began during the latter part of June, but it was two weeks later before the importation of scabs in any number began, so that the oldest residents of the Union Pacific shops could not have been there more than four months.

The report is that the colonization plan is being directly engineered by men in the shops who formerly lived in town. These men, it is said, are all in line for D. H. Mercer and are "out for the stuff," so far as other candidates are concerned. It is said that the plan goes deeper than the present election, as the men are to register as democrats to throw off suspicion from their real intentions and to take part in a realignment of the democratic party if they are permitted to retain their jobs with the rallroad company until next spring. A watch is being kept and illegal voters will be arrested.

While the names and reputed places of Peeldence of persons who have fraudulently woted at the last republican primary have been published, thus proving beyond all question that fraud was perpetrated, other circumstantial evidence of that fraud confirms the charges. One of the most hotly contested primaries which were ever held in this city were in the sens-torial contest of 1900. At that primary a larger proportion of the total vote was brought out than had ever been previously cast. There were contests in every ward. and at that primary there were cast 5,816 votes. Lest month there was no contest in the Ninth ward and practically none in the Third. In these wards there was a decrease in the vote last month from the primaries of 1900 of 242 votes, yet in the nine wards of the city there was a net increase of 240. or an increase in the seven wards of the city outside of the Third and Ninth of 483 wotes, or more than 10 per cent of the total vote cast in the seven wards. This increase in the vote over 1900 represents, practically, the majority by which Mr. Mercer apparently carried the city primaries.

That this does not really represent the actual vote of the people who take part in the elections ordinarily is shown by the fact that at the last primary there were more than 1,000 votes cast upon affidavits, a number of which have been found to be defective in form, and a considerable number voted by persons who are not to be found at the addresses given by them at the time they cast their votes, so that from this showing it is easy to see where the votes which nominated the nonresident congressman came from.

An inspection of the certificates and affidavits on file with the secretary of the republican county committee shows that out of the total number of votes cast by affidavit 584 voters gave the reason that they were out of the city during the days of the last registration, ninety-one of them said they were sick or had sickness in their families during the days of the last registration, eighty-four of them declared they had become of legal age since the last registration and eighty-four were not qualified citizens at the time of the last registration. The remainder were for reasons not recognized by the law, or the certificates which are shown to have been issued by the clerk upon affidavit are not on file in the office of the secretary of the republican county committee, so that reasons cannot be ascertained.

The large number of persons who swore that they were out of town on each day of the last registration will more than make up the majority by which Mr. Mercer carried the primaries. In a number of instances it has been ascertained that these people were not out of town all of the days of the registration, but some of them were out of the city on one of the days, while others say that they do not know whether they were out of town, although they have sworn that they were. In one instance a man was found who did not know what excuse was placed upon

In this connection the attention of H. S. McDonald was called to the affidavit in the case of C. J. Spain, the Eighth ward voter who voted in the Sixth ward upon affidavit signed by McDonaid. Mr. McDonald said: "If my name is on that affidavit I guess I signed it, but I have no recollection of the matter, nor do I recollect Mr. Spain that day. It is all news to me, and I guess I had better look the matter up."

A good story is current in democratic circles which shows that all is not harmonious in the ranks of the unterrified. It was known for some days previous to the nomination of capdidate for congress by that party that George W. Shields, the presont county attorney, aspired to the place. but his name was not presented to the convention, the nomination going to G. Mr. Hitchcock. When the time came for the county committee to collect the sinews of war they as usual levied a contribution upon each candidate and office holder. Among the office holders was the late aspirant to congressional honors. That asseasment has not been paid and in defense of his failure to pay the county attorney is alleged to have said that he "didn't care to pay the assessment as long as Rosewater is not making a strong fight upon Hitch-

Mr. Dickinson has always been a favorite with the employes of the road; the men have left that they were assured of fair treatment at his hands and they have hoped that he would not leave the road until this strike is settled at least. But many are of the opinion that the strike has increased Mr. Dickinson's anxiety to get away.
