

DEEMER IS NOT A SOLOMON

Takes Practical View in Disposing of Custody of a Little Child.

DECISION HELPS OUT MUNICIPALITIES

Courty to Be Called on to Air a Scandal Growing Out of Erection of a Court House in Dallas County.

(From a Staff Correspondent.) DEB MOINES, Oct. 25.—(Special.)—The Iowa supreme court utterly rejects Solomon as a guide in how to dispose of a baby in dispute, claimed by two persons. The case is more nearly a Solomon case than any Iowa one. Mrs. Murphy, an Iowa school teacher, was secretly married to William McDonald in New Mexico in 1890. The wedding was kept a secret and in September, 1901, the child in controversy was born in Omaha. Leaving the child with a Mrs. Pressel about twelve days later returned to Iowa and began a term of school. She claims that she was to give Mrs. Pressel \$50 for caring for the child for five months, or until the school term was ended, and she sent the money, and that in February she went to Omaha but could find neither the woman nor the child. In the meantime she married a man named Chapman, with whom she lived only a short time. McDonald had died soon after the marriage. About a year ago she found her child in possession of Mr. and Mrs. F. E. Stitt at Kennasaw, Neb. They claimed Mrs. Pressel had given it to them on assurance the mother would not call for it. Mrs. Pressel says she advertised in the Bee and Stitt, a barber, answered and got the child, and that its mother had asked to have it disposed of. An attempt was made by the Stitts to have the child adopted under the Nebraska law, but this failed. The mother of the child brought suit in Fremont county for possession of her child, the Stitts then living at Sidney. Judge Green refused to order the transfer of the child. The supreme court finds that both families are able to care for the child and that both have shown a right spirit. "The case is an exceedingly trying one," says Judge Deemer, "for no matter how decided it will bring grief and tears and almost intolerable heartache to the defeated party. The law seems to have no scales with which to measure affairs of the heart and, wisely, perhaps, refused to settle such matters on an emotional basis. But there are, of course, some fairly well established rules to be applied to such cases, the result of human experience and observation. It is manifestly impossible as well as impracticable for us to apply the test applied by that wise man Solomon, wherein he proposed to divide the child and give one half to one claimant and one half to the other." The court says the only test is what is best for the child under all the circumstances and on the trial court, having better knowledge of all the circumstances than the appellate court, left it to the custody with the foster parents, the supreme court refuses to disturb this ruling.

Municipalities and Debts.

The supreme court today reversed a very important case from Ottumwa, where the city had been enjoined from entering into a contract for the erection of city water works on the ground that it would create a debt in excess of the constitutional limitation. The city had contracted to pay \$400,000 in installments and levied a tax to pay the same. The court holds that this does not create an additional debt such as that prohibited by the constitution. The decision opens the way for the erection of the city of Iowa from embarrassment on account of the debt limitation.

Courthouse Scandal.

There is brewing a good deal of a scandal in regard to the courthouse in Dallas county. Infraction proceedings were commenced a few days ago to prevent the payment of about \$47,000 worth of warrants issued in excess of the amount authorized for payment for the county courthouse and jail. That it might not be regarded as a partisan movement, the infraction proceedings were commenced by a republican and a democrat jointly, both prominent residents of Perry and of unimpeachable character. Investigation has been going on and it is now asserted with positiveness that the county has incurred obligations amounting to a total of \$152,000 since the building of the courthouse was commenced. The original contract with an Iowa City firm was for building the courthouse for about \$75,000. An investigation will be legally made as to the cause of excess.

UNIVERSITY JUVENILES WIN

Second Team Defeats Omaha Medics at Vinton Street Park.

QUIET LITTLE CITY AROUSED BY VICTORY

Eleven from the Capital Display Lack of Science, but Shut Out Opponents Through Superior Team Work.

The price of red fire took a sudden advance in Lincoln last night and the chapel bell was reported still ringing when the paper went to press. The Nebraska State university made good yesterday even unto the second generation, the scrub eleven defeating the Omaha Medical college team at the Vinton Street park by a score of 14 to 0. The capital city men showed that they had had the advantage of hard practice and constant playing against such a strong team as the first eleven of the university, and the doctors showed just the lack of these things. And yet the former played such a slow game that their opponents knew almost as soon as they what the play was to be and where they could go and meet the ball. The medical men showed poor team work and bungled their signals, eleven of the doctors showed just the lack of these things.
