WORK OF THE MARINE CORPS

Valuable Aid to the Soldiers in the Philippine Islands.

FORTIFIED CLIFFS ARE EASILY TAKEN

Time Favors, However, Is as Long as It Is Possible to Keep Same Men in the Climate of the Orient.

WASHINGTON, Oct. 28.—Major General Charles Heywood, commandant of the United States marine corps, in his annual report to the secretary of the navy, says it is his policy to keep the officers and men of his command in the Philippines only two years and a half, returning them after such service to this country. He hopes to reduce this term of service to as long as it is advisable to keep them in that climate.

During the last year, while there have been practically no demonstrations in the Philippines by organized insurgents, the marines, says General Heywood, have done excellent work in ridding the islands of roving bands of ladrones.

The report presents in detail the operations of Major Waller and his courageous band of marines on the coast of southern Samar. Major Waller is quoted as saying that the expeditions early in last November in Soboton district were the most important of the campaign, so far as their effect on the insurgents was concerned.

A graphic account is given of the operations of the main expedition in the Soboton district. The attack was on the fortified cliffs and caves in the mountains, which has been reported to be practically impregnable. The plan of attack was that two shore columns were to unite at the enemy's stronghold and be joined there by a river column under Major Waller.

Result of the Attack.

Concerning the result of the attack the report says:

On the 17th of November the shore column struck the enemy's trail, which was followed, and the detachments soon came upon a number of bamboo guns. One of these commanding the trail, had the fuse burning, and Acting Corporal Harry Glenn rushed forward and pulled out the fuse.

The attack of the marines was a perfect surprise, and the enemy was completely routed, thirty being killed. After driving the insurgents from their position the troops crossed the river, scaled the cliffs on the opposite side and destroyed the camps there. The enemy fired two volleys and then fled.

Major Waller says that he himself was not in this attack, being in the river below and unable to reach the firing line in time, but he mentions Captains Porter and Bears as being entitled to the highest credit for the courageous and skillful manner in which they routed the enemy in the face of apparently insurmountable obstacles.

In order to reach the enemy's position, the troops had to climb the cliffs, which rise sheer from the river to the height of about 200 feet and are honeycombed with caves, to which access is had by means of bamboo ladders and also by narrow ledges with bamboo hand rails. Tons of rocks were suspended in cages, held in position by vines, and in readiness to be precipitated upon people and boats below.

Instant destruction would have undoubtedly been the fate of the boats had they undertaken the ascent of the river before the short column had dislodged the insurgents.

The effect of the capture of this last stronghold upon the insurrectos of Samar cannot be overestimated, as they had spent years of labor upon the defenses and undoubtedly considered the cliff fortifications impregnable.

The report contains an account of the march of 190 miles across Samar of Major Waller and of his men and of the incredible hardships they endured. The command was engaged actively and continuously against the insurgents for three months.

To Strengthen Marine Corps.

General Heywood strongly urges the enactment of the measure introduced at the last session of congress providing for an increase in the officers and enlisted men of the marine corps. He recommends the erection at Philadelphia of a fireproof depot of supplies at a cost of $150,000, the present leased quarters being entirely inadequate and unsafe.

He says, too, that the present quarters in Washington are old and unsanitary and have been condemned by a board of medical officers of the navy. Preliminary steps have been taken to erect new barracks at Norfolk, Va., at a cost of $100,000. General Heywood renews his previous recommendation that congress appropriate liberally for marine barracks and quarters at the Charleston, S. C., naval station.

The report says that the native inhabitants in Guam are making gratifying progress in acquiring a knowledge of the English language.

SCIENTISTS VISIT ROOSEVELT

President Makes Happy Remark to Each and Sends Greetings to Mexico.

WASHINGTON, Oct. 28.—Thirty delegates to the International Congress of Americanists arrived here today. After being formally welcomed to the city by the board of district commissioners they were received by President Roosevelt.

Alfredo Chavero, delegate from Mexico, presented a message of good will to President Roosevelt from President Diaz.

"Tell President Diaz," said Mr. Roosevelt, in reply, "that we in this country, realize what a great friend of liberty, humanity and progress he has ever been."

When the delegates from the Netherlands were presented, President Roosevelt said: "We are fellow Dutchmen. I am very glad to see you."

The president took occasion to show his interest in the Indian race when Miss Fletcher, who has spent much of her life in the movement to uplift the Indians, and Frank La Flesche, an employe of the Indian bureau, were presented.

"I believe," said he, "that it is a good plan for the Indians to help themselves in bringing about their development."

WU IS WITHOUT INFORMATION

Says that He Knows Nothing of the Appointment of Chinese Minister of Commerce.

WASHINGTON, Oct. 28.—Minister Wu Ting Fang has not been advised of the appointment of Yuen Shi Kai as minister of commerce of the Chinese empire, although, in his view, such an appointment would not be unlikely.

Yuen Shi Kai is the viceroy of Chi Li province. When the late Li Hung Chang was the viceroy of that province he also held the title of minister of commerce. At that time the title was practically only honorary, as his manifold duties as viceroy prevented him from devoting serious attention to matters affecting the empire outside of his province.

Minister Wu, while he says he has no definite information, believes it probable that Yuan Shi Kai may have received the title of minister of commerce precisely as Li Hung Chang received and held it.

The ministry of commerce to which Minister Wu has been appointed is a special board whose duties relate to the empire as a whole. He will be in association with Chang Chi Lung and, perhaps, with others, the title of each of whom will be minister of commerce. Yuen Shi Kai may be one of these.

It is the hope of Minister Wu that Yuen Shi Kai has been so designated, as he is a friend of Mr. Wu and a statesman and diplomat of ability and distinction. It seems the more likely, however, that the title conferred upon him is of an honorary character and that, in common with other Chinese viceroys, he will have to do with the ministry of commerce only so far as the operations of the ministry may affect the particular province of which he is governor.

Minister Wu has received no advices indicating the probable time of the arrival in Washington of his successor, Minister Liang. Mr. Liang was appointed minister to the United States early last summer and subsequently made a brief trip to this country as a member of the suite of the emperor's cousin.

The time of his arrival in the United States will be dependent entirely upon the orders of the Chinese Foreign office.

ALASKANS AT WHITE HOUSE

Present President with Specimen of Moose Head and Invite Him to Visit Territory.

WASHINGTON, Oct. 28.—A party of citizens of Alaska called by appointment upon President Roosevelt today and presented him with a magnificent moose head, one of the finest specimens of the kind ever mounted. The animal was killed in the Cooks Inlet region. The antlers measure fifty-four inches from tip to tip. The mounting bore this inscription, "To Theodore Roosevelt, from the Citizens of Valdez, Alaska, in Token of Their Esteem and in Recognition of His Friendship on His Forty-fourth Birthday, October 27, 1902."

The party consisted of V. T. Hoggatt, Robert Blye, Captain J. J. Healy, Mr. Robbins, Mr. McNair and P. C. Helm and wife, residents of Nome, Valdez or other Alaskan towns. They were introduced by Representative Wooten of Texas.

The president expressed his appreciation of the handsome present and announced his intention of having it placed conspicuously in the state dining room of the White House.

The party extended an invitation to the president to visit Alaska on a hunting trip, assuring him that if he would make the trip he would be afforded an opportunity to shoot a Polar bear. The party exhibited to the president fine specimens of gold, copper, cinnabar and other mineral products of Alaska, and urged upon his attention the conditions, resources and necessities of the territory.

It was pointed out to him that while there are 65,000 American citizens in Alaska, they have no government, no representation in congress and are subjected to regulations entirely inapplicable to their condition. The president was urged to commend to congress the particular desirability of legislation to protect and promote the interests of Alaska.

FRANCE NEEDS MACHINES

Consul Says Agricultural Implements Would Sell Well to French Farmers.

WASHINGTON, Oct. 28.—Robert P. Skinner, consul general at Marseilles, finds there is an especially good field there for threshing machines.

He recommends, however, that smaller and less expensive machines be made than are used in the United States.

There is a good market in the grape-growing region for windlasses used in the cultivation of the soil and devices which go with them, for plows and plow points, for winnowing machines, for small hand grist mills and for root cutters.

DECIDES ON POWER, NOT SPEED

Naval Authorities Accept Majority Report Concerning Plans for New Cruisers.

WASHINGTON, Oct. 28.—Acting Secretary Darling has settled the question relative to the proposed armored cruiser Tennessee by accepting the recommendation of the majority of the board, which is in favor of power instead of high speed.

Mr. Lemley today called for proposals for the construction of two armored cruisers of the Tennessee class of about 14,500 tons displacement, the bids to be opened January 6, 1903.

The construction board will now perfect plans for two small gunboats.

Seek Industrial Harmony.

WASHINGTON, Oct. 28.—The National Association of Builders discussed today cooperation between organized employers and the men's unions.

The sentiment apparently was in favor of wage agreements and the settlement of all labor disputes by arbitration boards.

Cholera Passes Americans.

WASHINGTON, Oct. 28.—A report from Surgeon Lieutenant W. J. L. Lyster, attached to the legation guard at Pekin, says the American soldiers are the only foreigners who have escaped the cholera up to date.

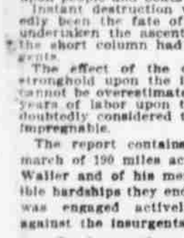
Sentenced to Be Hanged.

INDIANAPOLIS, Ind., Oct. 28.—Judge Alford today sentenced Ora Copenhaver, convicted of the murder of his wife, Della Copenhaver, to be hanged in the Michigan City prison February 12 next.

RHEUMATISM

Rubbing with liniments, blistering, the application of plasters; in fact anything that will produce counter-irritation, is good for external treatment of Rheumatism, but these simple remedies do not reach the seat of the disease nor touch the real cause, and relief is therefore only temporary.

Rheumatism is due to Uric Acid and other irritant poisons in the blood, and as it circulates through the system, these acid poisons are deposited in the muscles, joints and nerves, and exposure to night air, cold east winds, or any sudden change in the weather, will bring on an attack, which may last for a few days or linger on for months. Every battle with Rheumatism leaves you weaker and the blood in poorer condition, while the corroding acids are gradually consuming the oils and fluids that lubricate the muscles and joints, and they become stiff and sometimes immovable.



Rheumatism, with its sharp, cutting pains, can never be conquered until the acid blood has been cleansed and purified, and all irritating substances neutralized and filtered out of the system, and nothing does this so promptly and effectually as S. S. S. Under the purifying and tonic effects of this vegetable remedy the blood is not only made pure and strong again, but the general health is rapidly built up and the sufferer obtains happy relief from the torturing, nagging pains of Rheumatism.

SSS Get rid of Rheumatism before it cripples you, or makes you prematurely old, peevish and unhappy.

Write for our special book on Rheumatism, which will be sent free.

The Swift Specific Co., Atlanta, Ga.

RIGHT TO USE QUOTATIONS

Proprietary Interest is Retained by the Telegraph Company.

COURT ESTABLISHES A NEW PRECEDENT

Chicago Judges Hand Down Decision in Which Opinion is Based Upon Equity in the Case Involved.

CHICAGO, Oct. 28.—An important principle in law was established today when Judges Jenkins, Grosscup, Baker and Dunn of the United States court of appeals, handed down an opinion to the effect that the Western Union Telegraph company has a right of property in the news which it gathers and that such right does not cease when the news is published on the tickers rented to its patrons.

In handing down this new principle the court of appeals affirms two decisions of the lower court and forever enjoins the National Telegraph News company, the Illinois Commission company and other defendants from using the quotations in question.

The court announces:

The business of appellee is that of a carrier of information. The gist of its service to the patron is that by such carriage the patron acquires knowledge of the matter communicated earlier than those not thus served. The ticker, with its printed tape, is an implement of means only to this commercial end which the patron, or the patron's patron, may utilize to the end intended, but may not appropriate to some end not intended, especially if such appropriation result in injury to or total destruction of the service.

In short, the law being clearly inadequate to that purpose, equity should see to it that the one who is served and the one who serves each gets what the engagements between them call for, and that neither, to the injury of the other, shall appropriate more.

The immediate business of appellee brought to our attention may not arouse any great solicitude. It relates to the gathering and distributing of news not looked upon, perhaps, in all quarters as essential to the public welfare.

Question of Wide Significance.

But the questions raised are of much wider significance. They involve, among others, that modern enterprise—one of the distinctive achievements of our navy—which, combining the genius and the accumulations of men with the forces of electricity, combs the earth's surface each day for what the day has brought forth, that whatever befalls the sons of men shall come, almost instantaneously, into the consciousness of mankind. By such agencies as these, the world is made to face itself unceasingly in the glass, and is put to those tests that bring increasing helpfulness and beauty into the heart of our race.

Is service like this to be outlawed? Is the enterprise of the great news agencies or the independent enterprise of the great newspaper, or the great telegraphic and cable lines, to be denied appeal to the courts, against the inroads of the parasite, for no other reason than that the law fashioned hitherto to fit the relations of authors and the public cannot be made to fit the relations of the public and this dissimilar class of servants?

Are we to fail our plain duty for mere lack of precedent? We choose rather to make precedent—one from which is eliminated as immaterial the law grown up around authorship—and we see no better way to start this precedent upon a career than by affirming the order appealed from.

PRESIDENT WILL CAST VOTE

Goes to Oyster Bay and Thence to Philadelphia for Masonic Celebration.

WASHINGTON, Oct. 28.—President Roosevelt will go to Oyster Bay on Monday to vote. He will receive the election returns at Sagamore Hill that night and on Wednesday will attend a Masonic celebration in Philadelphia, returning to Washington that night or the following morning.

Mrs. Roosevelt will probably leave Oyster Bay at the same time and come direct to Washington, probably to the remodelled White House, which is now almost ready for occupancy.

PHILADELPHIA, Oct. 28.—President Roosevelt will be in Philadelphia twice next month. First on the day after election, when he will participate in the sesqui-centennial celebration of George Washington's apprenticeship as a Free Mason. The second visit will be on November 22, when he will take part in the exercises attending the celebration of Founder's day at Union league, and will also deliver an address at the dedication of the boys' high school.

The Masonic festivity will be attended by Masons from all over the country, and it is said will be the most brilliant affair ever given by the order in Pennsylvania.

MAKES CATTLE TRAVEL NICER

Dr. Salmon Recommends Improved Ventilation of Stalls on Shipboard.

WASHINGTON, Oct. 28.—Dr. D. E. Salmon, chief of the Bureau of Animal Industry, has returned from a trip to Europe on a cattle vessel.

Heretofore the ventilation of stalls has been secured only through funnels reaching to the decks. A system of ventilating by forcing air has been devised and it was for the purpose of studying this device that Dr. Salmon went abroad.

It is understood he favors at least a partial adoption of the new plan.

DEATH RECORD.

Old-Timer in Iowa.

WEBSTER CITY, Oct. 28.—(Special Telegram.)—The venerable Judge Isiah Doane of this city, died at 1:20 o'clock this afternoon, after an illness of five weeks' duration. Deceased was born in Orange county, Indiana, in 1823, and moved to Iowa in 1854, settling in Hamilton county in 1856. Until late years he was very active in local politics, having served one term as county supervisor, two terms as county recorder, two terms as county auditor, three terms as county judge, and two terms as mayor of Webster City. In 1875 he was the candidate of the democratic and anti-monopoly parties for state superintendent of public instructions, and seven years later was the greenback candidate for congress from this district. He was a man of wide learning, a deep thinker and a splendid writer, and lived a pure life all the years of his long and eventful career.

Northwestern Pioneer.

MANKATO, Minn., Oct. 28.—George H. Marsh, a pioneer, died today, aged 89. He came to Mankato from Boston, Mass., in 1853, and was awarded the first mail contract between St. Paul and Sioux City in 1856. He was at Redwood Falls in 1862, when the Indian outbreak occurred and brought the first news of the bloody massacre to Mankato.

David Charles Bell.

WASHINGTON, Oct. 28.—David Charles Bell, a well known author and educator and a noted Shakespearean scholar, and a nephew of Alexander Graham Bell, died at the Bell homestead in this city today of heart failure.

LORENZ WORKS IN DENVER

Noted Specialist from Vienna Gives Services to Colorado Hospitals.

DENVER, Colo., Oct. 28.—Dr. A. D. Lorenz of Vienna arrived from Chicago last night and operated on three children for congenital dislocation of the hip at St. Luke's hospital this morning and on several others at the county hospital in the afternoon.

BALL SETTLEMENT HANGS FIRE

Western and American Leagues Cannot Decide on Territorial Division.

NEW YORK, Oct. 28.—The National Base Ball Board of Arbitration resumed its sessions today. The business before it is the trouble between the American association and the Western league.

Late tonight it was announced that the board had adjourned until tomorrow without deciding on a settlement. A fair and proper readjustment of the territory seems to be the stumbling block.

It is explained that the American association, with cities like Louisville, Columbus and Indianapolis, believes that the Western league should withdraw its teams from both Kansas City and Milwaukee. These are two of the best cities in the circuit of either organization. Last year both had rival clubs and financial disaster was the result. The Western league is anxious to get out of either Kansas City or Milwaukee.

The matter may be adjusted by the American association taking one of the cities and the Western league the other. Each organization would then take an additional city to complete the circuit.

Mr. Brice of Columbus and Mr. Watkins of Indianapolis are taking part in the conference on behalf of the American association, while T. H. Van Brunt of St. Joseph and M. H. Sexton of Rock Island are taking care of the interests of the Western league.

When seen tonight Mr. Powers said the outlook for a settlement was good.

With the Bowlers.

In a league game last night on Clark's alleys the Clarksons lost three straight to the Westerns. Score:

Puppies' Day at Coursing Meet.

SUTTON, Neb., Oct. 28.—(Special Telegram.)—The first day of the coursing meet opened with a puppy stake. Lord St. Claire beat Lulu Girl, Robert K beat White Raven, Little Vinona beat Red Pearl, Lucy Clair beat The Manxman, The Ghebi'n beat Lord Van Fleet, Lady Doyle beat Daves Nell, Quite Right beat Lady Lyons, Always In Front beat Little Eva, Queen of Diamonds beat Tom Moore, Bounce beat Maude Scattercash, Friend Girl ran a bye. In the first ties run off in this stake Lord St. Claire beat Robert K., Lucy Clair beat Little Vinona, The Ghebin beat Lady Doyle, Always In Front beat Quite Right, Queen of Diamonds beat Friend Girl and Bounce ran a bye. In the match race between Bounce and Lady Scattercash Lady Scattercash won. Tomorrow is the all-age stake.

Thoroughbreds at Memphis.

MEMPHIS, Tenn., Oct. 28.—The stable of Sam Hildreth, which left here for northern tracks last spring with Waring, McChesney, Lucien Appleby, Gunfalon, Rolling Boer and other cracks, has arrived here from Chicago and is stabled at Montgomery Park. The Hildreth string will be strengthened at various times during the winter and the campaign of 1903 will be started with almost a new collection of thoroughbreds.

FORECAST OF THE WEATHER

Still More Fine Days, Though Thermometer Will Commonly Drop.

WASHINGTON, Oct. 28.—Forecast:

For Nebraska—Fair Wednesday; cooler in west portion; Thursday fair; cooler in east portion.

For Iowa and Missouri—Fair and warmer Wednesday; Thursday increasing cloudiness.

For Illinois—Fair and warmer Wednesday; increasing cloudiness, light variable winds, becoming fresh southeast.

For South Dakota—Fair Wednesday; cooler in west and central portion; Thursday fair.

For Kansas—Fair Wednesday and Thursday; cooler Thursday.

For Wyoming and Colorado—Fair and cooler Wednesday; Thursday fair.

CITY COUNCIL PROCEEDINGS

Fire and Police Board Asks for Money from General Fund.

REQUEST GOES TO FINANCE COMMITTEE

Mayor's Veto of Items in Appropriation Ordinance to Come from Fire Department Fund is Not Sustained.

Fire department finances again came in for a considerable share of attention at the city council meeting of last evening. As was anticipated by The Bee in reporting the proceedings of the Board of Fire and Police Commissioners, the latter body has proposed to the council to replenish the fire fund by refunding from the general fund the money paid in the last three years for salaries of members of the fire and police board and the secretary of the board.

Commissioners Wright and Thomas, who were appointed as a committee from the fire and police board to confer with the council were present in person at the meeting of last evening and in the regular course of business a communication from them was read, in which was embodied the proposition above stated. In this communication it was stated that the amount paid in salaries of the officers mentioned from the fire fund amounted in the aggregate to $3,200 a year, and thus the amount paid to them in the course of the three years past was $9,600, and it was further stated that if this sum is refunded, as suggested, the board "can and will continue the department at practically its present size." The board suggests that "this will present a legal way to meet the emergency." The communication was without discussion referred to the committee on finance and claims.

Claim on General Fund.

The grounds upon which the board holds that the salaries in question should be paid from the general fund have not been formally presented to the council, but it is understood that the contention will be made that the members of the board are not under the law members of either the fire or police department and should not be paid their salaries from those funds; but that they are city officials and as such should draw their salaries from the general fund.

Among the communications from the mayor was a veto message covering all of the items of the last appropriation ordinance which would have come out of the fire fund. These amounted in the aggregate to $876.40 and consisted chiefly of small miscellaneous expense bills, but among them was the telephone company's bill of $417 for the fire department portion of the alarm system. In explanation of his refusal to approve the ordinance with thes items included, the mayor says that after the salaries of the members of the fire department for October, November and December and the pension roll have been paid there will be a deficit in the fund of $1,088.66, and therefore he will not approve the payment of any expense bills until the new appropriation becomes available, as he believes the firemen should be paid first.

Veto Not Sustained.

Judge Hascall declared it to be folly to sustain any such veto. "The situation," he said, "is the same as it was last year; the fire department has simply outgrown the appropriation authorized by law and we will have to provide for the emergency as we have before. There is not a deficit in the fund at this time and we should go on paying the bills as long as the money lasts. The mayor did not veto any bills last year and we should not sustain this veto now." By a unanimous vote the council refused to sustain the veto.

Supervisors of registration were appointed as follows: In the second district of the First ward, Ed J. Dee, 1902 South Twelfth street, to take the place of Richard Wallace, unable by reason of illness to serve; and in the Second district of the Eighth ward, Mark M. Parmer, in place of John A. Rine, who is absent from the city.

By resolution the Omaha Street Railway company was requested to extend its Thirty-third street line from Parker to Maple street at its earliest convenience and the councilmen from the Fifth, Sixth and Ninth wards were appointed a committee to wait upon the company to urge compliance with this request.

Ordinances as follows were given their first and second reading: Ordering the improvement of Twenty-first street from Spencer to Pinkney street with vitrified block pavement and Bedford sandstone curb; ordering the grading of Sixteenth street from Vinton street to Central boulevard; ordering the grading of Sixteenth street from Central boulevard to B street, and ordering the grading of Thirty-seventh street from Farnam street to Dodge street.

WASTE OF MATERIAL MEANS

Lack of Economy, Dr. Howerth Says, is Prominent Among American People.

Dr. Ira W. Howerth of Chicago last night lectured on social waste at the First Congregational church, under the auspices of the University Extension course bureau. Some remarks of the speaker were these:

The people of the United States pride themselves on their ability to produce wealth. The estimated value of the wealth of this country is about $94,000,000,000 and our annual income is reputed to be about $12,800,000,000. And yet we are told by the critics of our industrial institutions that modern industry is planless and consequently falls far short of its possibilities. The truth of this criticism is appreciated as soon as we look at industrial life from the social standpoint. There is undoubtedly great waste of material means, of energy and of human life in productive enterprise. The solution of the social question, insofar as it is a question of production, demands the gradual diminution of waste. Social waste is exemplified by the social expenditure of wealth or energy without the largest return of social benefit.

The neglect to utilize all available means for social improvement is one of the most serious criticisms that may be urged against society as it is at present organized. Of our arable land, which must be at least 1,500,000 square miles, perhaps not more than one-seventh is under cultivation.

Nothing so Good for Coughs and Colds.

Mr. J. N. Perkins, druggist of Lawton, Okl., who has been in business eleven years, says of Chamberlain's Cough Remedy that during all this time he has never had a bottle of this remedy returned as not having given satisfaction, proving conclusively that this preparation will do all that is claimed for it. There is nothing so good as this remedy for coughs, colds and croup. It is pleasant to take and, as it contains no injurious substance, may be given to a child with perfect confidence.

THE REALTY MARKET.

THE TWENTIETH CENTURY FARMER

Among those whose articles will appear during the next few months are:

James Wilson, Secretary of Agriculture; F. D. Coburn, Secretary Kansas State Board of Agriculture; Prof. C. F. Curtiss, Iowa Agricultural College; B. O. Aylesworth, President Colorado Agricultural College; Col. F. M. Woods, the noted live stock auctioneer; Chas. E. Bessey, the great botanist; John Gosling, the noted beef expert; Frederick W. Taylor, Director of Agriculture at St. Louis World's Fair, and many other well known men, whose ideas are worth dollars to every progressive farmer and stock raiser.

Write for free booklet and sample copy. Price, $1.00 per year.
