WHEAT ACTIVE AND FIRM TILL NEAR END

Corn Heavy and Weak, Onto Depressed, but More Active Than Recently, Provisions Open Firmer but Later Become Dull.

CHICAGO, Oct. 22.—Trading in wheat was active today on the Board of Trade, and after holding firm the greater part of the day there, was a decline toward the close which was %25%c lower on December. December corn closed %c lower and oats %c lower, January provisions closed unchanged to 7%c lower. January provisions closed unchanged to 7%c lower. Struck was about the same as yesterday, with a strong cash demand and a continuation of bullish advices from the extreme west. Good buying by the northwest and southwest during the first part of the session caused an advance. Commission houses took advantage of the rise in price and soid freely, bringing about a reaction. The close was duil and about steady. December opened a shade lower to 1%c higher at 73%G/74%c to 73%c. After selling up to 73%c there was a decline to 72%c. The close was %6%c lower at 73%c and 73%c. (Clearances of wheat and flour were equal to 20%, 500 bushels. Primary receipts were 1,125,000 bushels, against 1,148,000 bushels a year ago. Minneapolls and Duluth reported receipts of 594 cars, which, with local receipts of 594 cars, which, with local receipts of a fight firmness near the opening on strength in wheat the market was weak the greater part of the day. The feature of the trade was the liquidation of both December and May holdings by longs. Excellent weather was a weakening factor. Shorts were fair buyers. December closed %c lower at 50%650%c, after selling between 50%651%c. Local receipts were 133 cars, with 20 of contract grade.

More activity was manifested in oats, but with considerable pressure to sell the market was heavy liquidation in old December. The close was easy, with December %c

n corn were depressing influences. There was heavy liquidation in old December. The close was easy, with December %c lower at 30%c, after ranging between 30%c and 30%c. Local receipts were 159

Provisions opened firmer on smaller receipts of hogs than had been estimated, together with higher prices at the yards. Commission houses and pit scalpers bought freely, advancing the price, but later the market became duli, with general liquidation. The close was duli and slightly lower, January pork closed 7½c lower at \$15.57½, January lard unchanged at \$9.32½, while ribs were 2½c lower at \$1.25½.

Estimated receipts for tomorrow: Wheat, \$5 cars; corn, 150 cars; oats, 150 cars; hogs, 24.000 head. The leading futures ranged as follows:

Further Liquidation with Much

Forced Selling Marks Market. NEW YORK, Oct. 29 .- Another advance in foreign exchange to the highest point reached during the present movement, with attendant fears of gold exports, brought attendant fears of gold exports, brought further liquidation to the stock market today. A great deal of selling was for account of the western speculative element and much of it was forced. Not a few stop-loss orders were uncovered, and the room traders, emboldened by this show of weakness, made a series of drives, which left the list generally lower, with many sharp breaks. Exchange advanced to \$85.90, which, in the opinion of some bankers, was several points away from the basis at which gold could be used for remittances with profit. Some exchange firms believed, however, that engagements might be made with exchange only 4 points above today's level. Such a move is regarded as very likely unless the market shifts materially and tenative negotiations with a view to
