Of Contagious Blood Poison never exis-It is always bad though sometimes no external symptoms of the disease ap-

pear for a long time.

Because the disease is slow in develdoes not indicate that the case is spending its force upon some internal vital organ while you are looking for external signs. Contagious Blood Poison does not affect all alike. In most cases he first little sore is quickly followed: the first little sore is quickly followed by painful swellings in the groin', a red eruption upon the body, sores or ulcers in the mouth and throat, unsightly copper colored blotches, loss of hair and eyebrows and other symptoms of this miserable disease. When the poison is thus fighting its way to the surface acrossing the disease in all the surface, exposing the disease in all a hidcousness, we call it a bad case, but ontagious Blood Poison, whether working remaily, or externally, is a dangerous, eacherous disease.

S. S. Is the only remedy that cures Contagious Blood Poison thoroughly and permanently. It is an antidote for the permanently. It is an antidote for the leadily virus that produces the awful eruptions, sores and ulcers, and destroys the bolies. Mercury and Potash dry up the late eruptions, but in so doing drive the polace further into the system, where it sumbers for a time, but comes back again with redoubled fury.

S. S. S. is a vegetable remedy that has been used successfully for years in treating this vile disease and course it in all always and

cures it in all stages and forms. If you have the slightest symptom; an occasional sore in the mouth, or muscular or your blood is tainted and the disease is liable to break out again at any time.
A course of S. S. S. will remove every trace of poison and at the same time

build up your general health.

MAHER DRAWS WITH O'BRIEN Six-Round Boxing Contest Lends to Lively Punching, but No Decision.

PHILADELPHIA, Oct. 30—Peter Maher and "Philadelphia Jack" (Physen sparred six rounds tonight at the Penn Art club, with even honors. The men were in fine condition and the bout was a determined one from start to finish. In the second round Maher floored O'Brien with a heavy right hand blow on the law, but O'Brien was on his feet in an instant, labbing Maher three times in the face. During the first three rounds O'Brien took the initiative, divoting most of his attention to Maher's face. He used his left to good advantage and occusionally varied the straight punches on the head and neck with right-hand swings to his opponent's stomach.

In the fourth there was a lively exchange of blows, Maher resching O'Brien's law several times. Both men tried to make a finish of the last round. Maher delivered a smashing blow on O'Brien's eye and both countered on the jaw.

In the early part of the contest Maher tried body blows, but found them fiteffective and followed O'Brien's example by leading for the head.

rating by the County Attorney at Sloux City Says Principals and Accessories Will

Be Arrested.

SIOUX CITY, Ia., Oct. 80—(Special Telegram.)—The prize fight between Dick Green and Clarence English, which had been arranged here for tomorrow evening, if pulled off, will be done under threat of prosecution from the county attorney. Notice was served today from the county attorney's office on the management that no prize fighting will be belerated in Woodbury county. The fight has been advertised as a sparring match, but it has been generally understood that it was to be the genuine thing.

understood that it was to be the genuine thing.
County Attorney Whitney is a bitter opponent of prize fighting and the notification from the county atturney was to the effect that no bluffs would go and that principals and abettors would be landed in jail if the warning was disregarded. The management is in a quandary and may adjourn to the South Dakota shore to pull off the mill.

READY TO ROUT THE REDS

Creighton Collegians Call Callons Conquerors to Combat the Coming Cohorts,

The Creighton elevan will go into its game with the Haskell Indians next Monday with almost the same lineup that faced their opponents in the beginning of the season. Delaney, the strong guerd, is not yet back in the game, but Loofborough is out with a fresh supply of ginger. Rooney of the Medical college will perhaps be used on the end, as he shows considerable ability in that position. Thorn, Quinn, Waggener and Cameron of the medical department are good men to draw on for line work. The team is to be at its best.

With the Bowlers.

MOLINEUX CASE TO PROCEED

Motion to Acquit Defendant is Overruled by the Court.

JUDGE WILL HEAR ALL THE TESTIMONY Strong Likelihood that Defendant Will Take Stand in His Own Be-

half and Explain Away

Some of the Charges. NEW YORK, Oct. 30 .- Counsel for the defense in the Molineux case moved today that the court direct the jury to acquit the week,

was insufficient. Justice Lambert denied the motion. Former Governor Black, in moving Mo lineux's acquittal, said the evidence given was not aufficient to warrant a conviction that there was no evidence that the defend ant had ever had in his possession evanide of mercury, or the bottle holder in which the poison was sent; that he did not mail the polson package and that there was no proof whatever connecting the defendant with the crime charged.

At the close of Governor Black's argunent Justice Lambert said: "I will deny the motion for the present

and will hear all the evidence." Mr. Black then asked the court to permit him to make his opening address to the jury tomorrow and Justice Lambert scquiesced, declaring court adjourned until omerrow. Mr. Black said his opening address would be very short. After the adjournment Mr. Black was asked if Molineux will take the stand in his own behalf. "There is a strong likelihood that we shall call Mr. Molineux," he said, nothing has been decided."

## VISIT THE COAL MINES

(Continued from First Page.)

and the four occupants were slightly shaken Miners quickly placed the car on the track again, however, and started them off with a hearty good bye.

The party reached the surface at 2:10 after being under ground for two hours and ten minues. A hurrled inspection was made of the outside buildings and then the commissioners were driven to their train.

In the afternoon they had an interesting time at the coal breaker at Carbondale They went to the top of the great, black building and inspected all the machinery down to the ground. They were much in terested in the men and boys who are employed in picking slate and "boney" from From the breaker they were escorted to the chute where the coal, fresh out of the mine, is sent to the breaker by means of a "coneyor." an endless chain arrangement of scuppers.

Discuss Size of Ton. It is here one of the principal bones of contention between the employes and employers is found. The miners maintain they are often unjustly docked for the amount of slate, boney or other refuse found in the coal. The commissioners watched the work of the boss closely and saw him dock several miners, because, in his judgment, there was too much foreign matter in the

car of coal. A few feet away is the place where th coal is weighed.

After the seven arbitrators had watched the weighing Mr. Clark inquired how many pounds constituted a ton at this colliery, Mr. Bryden of the Ontario & Western thought it was about 2,800 pounds, but Mr. Nicholls said it was a little over 3,100 pounds. The two began a discussion, each maintaining he was right. Mr. Nicholis said that, granting 2,800 was correct, it was too high. He said when 2,800 pounds was fixed to constitute a ton, so as to get 2,000 pounds of pure coal, the operators did not sell bea coal. Now they had a market for pea coal and three sizes below it, but the miners' ton of 2,800 pounds has not been decreased.

Judge Gray was an interested listener to the discussion. He stood with his bands in his overcoat pockets and never uttered a word. It was quite evident that both Mr. Nicholls and Mr. Bryden tried to make a good impression upon him, but what he thought he did not even express in his

actions. While the discussion was on the colliers whistle, blew and the judge broke in, "Well, gentlemen, it is 5 o'clock and I guess we'll have to stop work."

Tomorrow the commissioners will inspec the Manville colliery at Green Ridge, just outside of the city. It is operated by the Delaware & Hudson and Delaware, Lackawanns & Western companies.

The colliery inspected today was selected by the operators, and is said to be one of the best in the upper regions. The Manville is one of the worst and was selected by the miners.

John Mitchell, president of the Miners union, came up from Wilkesbarre tonight, He was accompanied by Clarence C. Darrow of Chicago, the attorney appointed to represent the miners before the commission They had a conference with several mem the submission of testimony. They wanted to know how far an attorney could go in the presentation of the miners' case,

Men Strike at Eleven Pits.

HAZLETON, Pa., Oct. 30 .- The strike at the seven collieries of Coxe Bros, & Co., the four mines of G. B. Markle & Co., and the Silver Brook operation of J. S. Wents & Co., was officially renewed today through office of the Nebraska Telephone company an order issued by District Secretary Gallagher of the United Mine Workers upon in structions from President Mitchell.

The strikers at those mines were permitted to return to work in a body, the Coxes insisting that their employes make personal application for their former positions, and G. B. Markle & Co. requiring that each man, before going back to work promise to abide by the decision of the arbitration commission

The Mine Workers allege that the object these requirements is discrimination against men who were prominent in the strike.

A. Pardee & Co.'s collieries, where the men have been asked not to interfere with nonunion hands, are not included in the strike order. The men voted on Saturday not to resume work until the agreement is

The trouble at Silver Brook is similar to that at the Coxe mines. The following notices were posted by Coxe Bros. & Co. at their collieries today: Any man who by intimidation (moral per-masion) attempts to induce a company em-ploye to leave or join a society, or any-sody who objects to work with any other employe because he has, or does not, belong to a society, will be discharged. EDGAR KUDLICK, Mining Engineer,

Another notice posted is headed, "Scope of the Board of Arbitration in Connection with the Strike of 1902," and is a copy of that portion of the fifth paragraph of the coal president's arbitration proposal which refers to the noninterference of former

strikers with nonunion men. The only change in the wording is that has been inserted after making the sentence read "Their own employes," which in its original read, "Their employes." This notice is not signed or

WILKESBARRE, Pa., Oct. 20.-There was

a general resumption of coal mining today,

out as is generally the case after a holiday quite a number of miners did not report for work. All the mines in operation, howeyer, are capable of turning out more coal now than last week and a large output is looked for today.

President Mitchell is busy at headquar the arbitration board when he is called upon. He said he did not expect to go to cranton today. The various companies of the Pourth and

Eighth regiments are leaving the region for Troops to Be Ordered Home. POTTSVILLE, Ps., Oct. 30 .- It is expected

defendant on the ground that the evidence The First batialion of the Second regiment, located at St. Clair, and the First battalien of the Third regiment, at Minersville, left for Philadelphia today. General Schall said today that the two battalions of the Third regiment at Audenried will be

sent home temorrow. All the collieries in the Panther valley resumed operations today. The Park Place colliery in the Mahanoy region resumed operations today after a week's idleness. Most of the employes had gone on strike because several union men were not reinatated.

The leaders prevailed upon the men to return to work, with the understanding that those who were discriminated against would be provided for by the union until they secured employment elsewhere.

USE DISAPPEARING CARRIAGE Root Says Army Must Employ Crosler Invention for Six-Inch Guns.

WASHINGTON, Oct. 30 .- Elihu Root has approved a recommendation that the disappearing gun carriage be used in connection with guns of six-inch caliber as well as with those of larger bore. The carriage to be used is largely the design of General Crosler, the present head of the orduance bureau. Its adoption was fought by General Miles, as head of the board of ordnance and fortification.

Congress at its last session appointed a oard to examine the rival claims, which has now recommended the carriage for guns exceeding six inches in caliber, but suggested that their use for smaller guns be suspended. This suggestion has recently again under consideration by board of ordnance and fortification, and the board has agreed that the line should be drawn below the six-inch gun rather than above. In reaching this conclusion the board considered the effectiveness of the six-inch gun in fortification defense and decided that modern invention has advanced the six-inch gun to the point of a primary gun, not leaving it a weapon of secondary importance.

MINISTER GROWING RESTIVE Colombian Representative Auxious to

Hear from His Government Concerning Canal Treaty.

WASHINGTON, Oct. 80 .- It developed today that Sepor Conche, the Colombian minlater, is growing restive under the delay of his government in giving him further instructions in answer to his dispatch regarding the conditions which have arisen since the forwarding of the letter directing him to proceed with the negotiations for a treaty with the United States affecting the right-of-way for the Panama canal.

He has sent several requests for this in formation without avail. The legation officials, however, are moved to the belief that the dispatch of Secretary Hay to Minister Hart, sent on Tuesday, will have the effect adjustment of the pending questions which pupils are at present enrolled in the semi are delaying final action on the treaty may be looked for:

Much of the delay has been occasioned, so it is learned, by the attitude of Governor Salzar of Pansma, who has been writing numerous letters to the legation here, and these more or less influenced Mr. Concha in postponing action on the instructions to proceed with the negotiation of the treaty.

NO CAUSE FOR UNDUE ANXIETY Soldiers in Philippines Are Comparatively Safe from Cholera Epidemic in Islands

WASHINGTON, Oct. 20 .- Anxious in puiries about the cholera situation in the Philippines from relatives and friends of American soldiers in the islands indicate undue alarm, which is not borne out by the information received by the bureau of insular affairs. Cable inquiry was made of Governor

Taft as to the actual conditions at this In a cable received today Governor Taft states that the cholera has practically disappeared from the island of Luzon, and that in Manila there have only been an average of two cases a day during the last ten days. In all, twenty provinces are now practically free from cholera. Only five provinces are not seriously affected, the provinces of Iloilo, Occiden bers of the commission tonight regarding tal, Negros, Capis, Samar and Misasmis. The percentage of mortality, which in the beginning reached 90 per cent, has

been greatly reduced and is now generally below 50 per cent. The commissioner of public health for the archipelago states that Cebu has already been declared a clean port and that Manila will be so declared on November 1

WYOMING PASSES THE TEST Monitor Comes Fully Up to Expectations in Two Hours Full

Speed Trial. WASHINGTON, Oct. 30 .- A telegram reselved at the Navy department today from Captain Dickens at the Mare Island navy yard contains the following report of yesterday's trial of the monitor Wyoming: The two hours' full speed trial of Wyoming in the open sea was successfully tested today. The mean revolutions for the two hours were 501.3. This corresponds to a speed of 11.8 knots. The general behavior of the ship in moderate sea and breeze was satisfactory.

Commander Vincendon L. Cottman, at present attached to the navigation bureau here, has been assigned to the command of Wyoming and will soon go by rail to San Francisco for that purpose, leaving Com-mander Sharp in charge of the work in connection with the enlisted branch of the nav-

Entitled to Extra Pay.

WASHINGTON, Oct. 30 .- The Navy department has received a decision by the comptroller of the currency to the effect that enlisted men on the retired list of the navy are entitled to the extra pay of 75 cents for each medal of honor, pin or service bar earned by them.

Erects Chapel as Memorial. WASHINGTON, Oct. 30 .- Secretary and Mrs. Hay have gone to Simsbury, Conn., to attend the ceremonies connected with the dedication of the chapel erected by the sec-

retary as a memorial to his son, the late Adelbert Hay. "Garland" Stoves and Hanges Awarded first prize, Paris, 1900: Buffalo.

OPENING OF NEW SEMINARY

Spacious Chapel Too Small to Hold All Who Desire to Attend Exercises.

ters compiling statistics for presentation to PRESIDENT HOPEFUL FOR THE FUTURE

Generosity of Friends Has Now Placed the Institution Upon a Firm Fonndation and Capable of a

Great Work.

Although the chapel room of the new that all troops in the coal region will be Omaha Presbyterian Theological seminary ordered home before the beginning of next dat Twenty-first and Emmet streets has been made amply large for all ordinary purposes for years to come, it was overtaxed on the first night it was called into use and one-half of the people who attended the opening of the institution last evening were forced to stand in the spacious hallways, where only the applause that interrupted the speakers reached their ears.

Those who found themselves within hearing distance listened to a service of praise and thanksgiving, President M. B. Lowry of the Theological seminary was the first speaker and before introducing Dr. William L. McEwan, the speaker of the evening, he recited a short history of the institution and cited the wonderful growth it has experienced in the eleven years of its existence. For its age the Omaha seminary leads any Presbyterian school in the country and can boast of one of the best fin ished and most beautiful of buildings. President Lowry passed from the present to the future and painted the structures which jury, some day would frame the six acres of ground into a quadrangle.

The present building is 154x48, with three stories and a basement. On the first floor are located the public rooms, the recitation rooms, library, offices and chapel. The second and third floors are devoted to the use of the students, with accomodations for

Dr. Lowry paid strong tributes to those instrumental in the building of the new Chief among these he mentioned Mrs. William Thaw of Pittsburg, the chief contributor, to whom not only the present even its very existence. Special mention was also made by the president to John C. Wharton, whose work of raising funds did much toward making the new building pos-

Building for the Future.

Dr. William L. McEwan of Pittsburg brought out forcibly the present and future values of the Omaha Theological seminary. He called to mind that while Omaha was not noted abroad for its industrial and commercial greatness, the city's lasting fame would depend on such institutions as the Omaha Presbyterian Theological seminary. In proof of this he pointed out that while the preachings of Christ and the religious literature of the old world still abided and would abide the rest of all that those people had worked for and achieved had crumbled into the dust. The theological seminary, said the speaker, is the best expression of the highest ideals of a community. And to him the Presbyterian doc trines meant the simplest and most definite system of religion, and a seminary planted here in the gateway of the west, destined, he believed, for the greatest future of any section of the country, would become one of the world's greatest powers for good.

A prayer was offered by A. B. Marshall, D. D., of Des Moines, president of the Board of Directors of the Omaha Theological seminary, and the benediction was pronounced by President S. B. McCormick of Coe college, Cedar Rapids, In. The doxology was sung at the opening and close of the

service. The new building is built of pressed brick with stone facings, and cost \$45,000. Twenty nary.

CANNOT IDENTIFY DEFENDANT Trial for Bribery May Not

Be the One Who is

ST. LOUIS, Oct. 39 .- The taking of testimony in the trial of Edmund Bersch, former member of the house of delegates, on the charge of perjury before the grand jury, began in Judge Ryan's court room today, the jury having been selected yesterday. While Philip Stock was on the stand the \$75,000 from the safety deposit vault of the Lincoln Trust company was procured by Circuit Attorney Folk, identified and

counted. Stock, who is secretary of the St. Louis Brewing association, testified that he was employed by President Charles H. Turner of the St. Louis & Suburban railway, to secure the passage of council bill No. 44. He said that he first met John K. Murrell of the house of delegates in relation to the bill October 18, 1900, Murrell representing house combine. Murrell proposed to get the bill through the house for \$75,000, which, witness testified, he deposited in the Lincoln Trust vaults for Murrell.

W. H. Lee, who was foreman of the December grand jury, testified that in January an insurance man named Berech gave testimony before that body in its investigation of the suburban franchise bribery, but Mr. Lee said he was unable to identify the defendant as the man who had testified The Bersch of that occasion told the grand jury that he knew nothing about the \$75,000 deposited in the vault and never heard of it. Richard Hospes, cashier of the German Savings institution, stated that Henry Nicolaus, Ellis Wainwright, and Charles H. Turner had given notes to the German Savings institution for \$75,000, and that this sum had been raised and turned over to Philip Stock.

Richard W. Shapleigh, a member of the tana and North Dakota. December grand jury, testified as to the statement made by Bersch before that body. discount and when arrested had over 3,000 He corroborated the testimony of William in their possession.

H. Lee, foreman of the December grand

Joseph N. Judge, clerk of the present house of delegates, was introduced to show that Murrell, Bersch and others were members of the last house and that the suburban bill was pending before the body.

John, K. Murrell, who returned from Mexico to aid the state in convicting his former fellow members of the old house of delegates combine, made his first appearance as a witness this afternoon. The witness referred to the combine as an "association for the controlling of legislation." He said there were nineteen members and he named the men, including himself, who prosperity of the institution is due, but were implicated by his confession of September 8. The association, he said, was formed early in the session.

The witness said that the association talked about the price that would be charged for passing the pending suburban bill and various sums were suggested ranging from \$60,000 to \$100,000. Bersch, he said, was a high-priced man. Bersch suggested \$100,000. It was suggested that someone be appointed to look after the matter and Murrell was named. Murrell said that he was instructed to see Philip Stock and demand \$75,000, to be paid as follows: \$1,000 down for each man, onehalf the entire sum at the passage of the bill and the other half upon its signature by the mayor.

GOOD TREATMENT NOT WANTED Doukhobars in the Northwest Territory Prefer to Act in Role

of Persecuted.

YORKTON, N. W. T., Oct. 30 .- Many and raried opinions are expressed as to the best way of dealing with the Doukhobars, but on one point all agree, and that is that nothing is to be feared from them physically. Not in a single instance have they been reported as creating any disturbance or willfully doing any harm.

The mounted police tried to induce them to change their quarters to a position north of town and succeeded in inducing them to come to the center of the town, but they positively refused to move northward, although offering no other opposition. Last night they were camped four down the track toward Saltcoats. As soon

Wisconsin.

ELKHORN, Wis., Oct. 30.-William Wickerson, aged 46, Albert, a brother. aged 42, and Julia, a sister, aged 35, were found burned to death in their homes ten miles west of here today. As the Wickersons were well-to-de

farmers, it is suspected they were robbed and murdered and the house set on fire to cover up the crime. When the flames were first discovered the roof of the house had burned off, and the time the nearest neighbor. who lived a quarter of a mile away.

reached the scene, the structure was entirely wrapped in flames. Four other members of the family were not at home at the time. The father and mother died some time ago. An investigation will be made

SELLING STAMPS TOO CHEAP Their Arrest by a Postoffice
