CHICAGO, Oct. 30.—Prices on both grains and provisions were week at the opening today on the Board of Trade, statistics being bearish, but a better tone developed during the day and December wheat closed unchanged. December corn 1/2 higher and oats a shade lower. January provisions closed 21/2 higher.

Wheat was a puzzle to many traders today and the pit crowd was divided. The opening was easy on weak cables, larger receipts, with an improvement in grading and a continuance of good weather. There was a renewal of Houldation by longs at the start, which caused a slight decline. A good cash demand was an incentive to better prices. A report from Minneapolis stated that half of the surplus crop had already been marketed and that millers wanted a large part of the remainder. There was fair buying during the latter half of the session and the close was steady. December opened a shade to 1/2 % lower at 72 ½ % 72 % c. sold up to 72 % c. but weakened again to 72 % c. Another rally followed and the close was unchanged at 72 ½ % 72 % c. Clearances of wheat and flour were equal to 36,000 bushels. Primary receipts were 1,630,221 bushels. against 1,108,645 bushels. Minneapolis and Duluth reported receipts of 90 cars, against 1,051 cars last week and 628 cars a year ago.

Excellent weather was against corn and the easier feeling in wheat at the start likewise helped keep prices down. The volume of business was lightest and there was a noticeable absence of any great pressure to liquidate, although there was some realizing early in the day. December a shade lower at 30% 930% c. Local receipts were 185 cars.

Fine weather was a depressing influence in oats and there was again considerable soling pressure, with prices slightly lower. The market rallied some with wheat and corn and the close was greatly in the day. December a shade lower at 30% 930% c. Local receipts were 185 cars.

The disposition of the day's receipts was as follows, each buyer purchasing the number of head indicated:

very dull. Stock calves were also rather slow.

The demand for stockers and feeders continued brisk on the better grades and fully steady prices were paid. As compared with a week ago the market is safely a quarter higher. The demand for the common kinds today was not quite as good as it was yesterday, as speculators have a good many common cattle on hand, for which the demand is not very good from the country, and as the close of the week is near at hand they were a little cautious about buying many of that kind.

The better grades of western beef steers sold readily at steady to strong prices, but inferior grades, and especially common Texas cattle, were rather hard to move. Range cows were fairly active and steady to strong as compared with yesterday and stockers and feeders of good quality were also fully steady with yesterday. The common kinds, though, were a little slow. Hepresentative sales:

| NEW YORK, Oct. 30.—COFFEE—Spot Bio, quiet; No. 7 Invoice, 5%c. Mild, steady; cordova, 7%c912c. Futures opened steady, with prices unchanged. During the day the traders showed little inclination toward aggressiveness, seemingly content to allow the market to take its own course. As a result of this neglect prices remained practically even with last night until just before the close, when light liquidation lowered several options 5 per cent, the market closing net unchanged to 5 points lower. Both the cables and crop figures fell flat as influences. The long string of the sales went at \$6.57½ and \$6.60, with the big bulk from \$6.55 to \$6.65, and a very nice load of butcher weights sold as high at \$6.70. It was the most active market that has been experienced in a long time and everything that was on the morning market was disposed of in short order, the last sales being the best. Several trains were late in arriving, so that hogs kept coming in all the morning. Packers, however, bought them up as fast as they arrived and the close of the market was strong at the advance. Representative sales:

SHEEP—There was a fair sized run of sheep here today, but the demand for good stuff was quite active and the market ruled active and steady to strong on desirable grades of killers. As compared with the total receipts, the proportion of fat stuff was rather small, the same as has been the case all along, and practically everything was disposed of in good season. Western ewes sold as high as \$3.25, wethers \$4.60, yearlings \$3.50 and lambs \$4.75. There were no desirable natives offered with which to make a test of the market.

There were a good many feeders on sale, both fresh arrivals and those carried over from yesterday. There were a few buyers on hand and the sales that were made looked just about steady with yesterday. The demand was principally for the better grades and common stuff changed hands very slowly.
