NVESTIGATORS TO REPORT Expert Completes Examination of

Heating and Ventilating Plant at High School. It is now expected that the Board of Edu-

cation will receive at its meeting of next Monday evening the report of its special committee appointed to investigate the heating and ventilating plant at the new High school, with a view of settling the controversy which has arisen between John Latenser, the architect, who drew the plans and specifications for the building, and John Rowe & Co., the contractors who put in the plant. Acting under authority of the board the committee employed an expert mechanical engineer from outside the city to make a careful technical examination of the work and the specifications, with special reference to the question of whether the contractor was justified in deviating from the specifications. This expert, C. E. Faw-cett of Grand Rapids, Mich., spent Monday Tuesday and Wednesday of this week in a careful inspection of the plant, and a portion of that time members of the committee were with him. He left for his home Wednesday evening and will send his report
