J. A. Pach-Utah. 45 feeders.. 786 3 50 22 feeders.. 704 3 90 HOGS-There was another liberal run of hogs here today, so that for the five days there is a big increase over the same period of last week, and as compared with the same days of last year, there is but ithe difference. For the month, however, the supply has been very light, as there is a decrease as compared with October of last year of over 40,000 head. The table above will show the exact figures. The market opened this morning fairly active and 2½gicc higher. Along toward the close, however, the feeling grew weaker and the last sales were not much more than steady with yesterday's aver-age. The bulk of the sales went from §6.60 to §6.5, with prime loads selling mostly from §6.66,70. Heavy packing grades went largely from §6.55 to §6.60. The same as usual, several trains were late, so that hogs kept arriving all the morning, and it was late before the market came to a close. Representative sales: No. Ar. 8b, Pr. No. Ar. 8b, Pr.
