

NIGHT SCHOOLS ARE POPULAR

Large Attendance and Active Interest Reported by Superintendent Pearce.

Superintendent Pearce of the public schools said in regard to the night schools recently started: "We now have 120 pupils enrolled at the Comenius school and I think something more than seventy-five at the Kellom, although I did not receive a report from the latter school last evening. This is an increase since the opening of the schools a week ago, and I think that the pupils of this year are the most studious and business-like we have ever had. Consequently I feel that we may expect more satisfactory results than ever before."

The Equitable Surplus.

The Equitable Life Assurance society of the United States has a surplus of over \$71,000,000, instead of \$66,000,000, as stated in a recent advertisement. This immense surplus means more than "strongest in the world." It means also the most profitable in the world. For a policy exactly suited to your needs consult H. D. Neely, manager for Nebraska, Merchants' National bank building, Omaha.

The following letter from the Sorosis Shoe Manufacturers explains itself.
LYNN, Mass., Oct. 28, 1902. Mr. Frank Wilcox—Sorosis Shoe Store, Omaha Neb.—Dear Mr. Wilcox: We are expecting a visit from the Prince of Shoes on Friday of this week, accompanied by his suite. The Department of State wrote us some time ago that his Royal Highness desired to visit a model shoe factory, and that they had selected Sorosis for that purpose. He will, consequently, visit our factory in Lynn, nor elsewhere in the United States. He has selected Sorosis as being representative in the best sense, of all factories in the most celebrated country in the world for making shoes. We, consequently, feel highly complimented, and intend to do the honors in good style. We are much pleased with this further evidence that Sorosis is maintaining their well earned lead in the shoe world. Very cordially yours,
ALEXANDER E. LITTLE.
