I commenced gaining strength and after taking fifteen bottles I had gained 40 pounds which I had lost before I began taking your whiskey. I would advise all who have similar trouble to take Duffy's Malt Whiskey. It has cured me from troubles when nothing else would give me relief. B. C. HENNING.

Be careful and see that "Duffy's Pure Malt Whiskey" is on the label, and that it is our own patent bottle with the name blown in the bottle. This is the only way Duffy's Pure Malt Whiskey is sold. If offered in bulk or flasks it is a fraud. Beware of so-called Malt Whiskeys which are sold cheap. They injure the system.

Duffy's Pure Malt Whiskey

is the only pure medicinal whiskey which has stood the test for fifty years, and always found absolutely pure and free from fusel oil. It contains medicinal properties found in no other whiskey.

Duffy's Pure Malt Whiskey has cured millions of cases in the last 50 years. It is prescribed by over 7,000 doctors and used exclusively by 2,000 prominent hospitals.

Caution—When buying Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and so-called Malt Whiskey substitutes, which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's" and be sure you get it. It is the only absolutely pure malt whiskey which contains medicinal, health-giving qualities. Look for the trade-mark, "The Old Chemist," on our label.

The genuine at all druggists and grocers or direct, $1.00 a bottle. It is the only whiskey recognized by the Government as a medicine. This is a guarantee. Valuable medical booklet containing symptoms and treatment of diseases and convincing testimonials sent free to any reader of The Bee who will write. Duffy Malt Whiskey Company, Rochester, N. Y.

Nervo-Sexual Debility

Nervo-Sexual Debility is a term which we use to designate a decline of power in the general system, and also a loss of certain special functions and powers. No matter what the cause, it is always necessary in such cases to correct defects so as to supply the true elements of lost force.

This is the keynote of success in the treatment of Nervous Debility, Seminal Weakness, Premature Decline, Lost Power, and other weaknesses, all included under the sweeping term, Nervo-Sexual Debility.

The cure of these infirmities implies the restoration of tone in every organ of the body and the renewal of the Nerve impulse or force which governs and controls all organs. We solved this problem a few years ago by studying along the line of chemistry of the human body, and our discovery was that of means by which we can vitalize the powers of the organism so as to cure Nervo-Sexual Debility in any of its forms or stages of development. In brief, we enabled the process of nature to renew waste tissue and supply new; with the elements that are added to the system go new forces that establish and maintain the natural powers of the body. Thus we cure Nervo-Sexual Debility to stay cured.

Varicocele and Its New Remedy

Scrotal Varicocele has been described as a creeping disease. It silently steals upon its victim like a thief at night, and before he is really aware of its presence great and damaging inroads are made upon his constitution. The veins surrounding the spermic cord become enlarged and engorge with impure blood and diseased tissue. At times this condition may be accompanied with a dull, heavy, dragging pain in the small of the back, extending down into the parts, low spirits, weakness of the body and brain, nervous debility, partial or complete loss of sexual power and not infrequently, decline of the general health. All of these disagreeable symptoms soon disappear completely and forever under our Varicocele cure, which is safe, painless and bloodless. Every clot of stagnant blood and every fiber of diseased tissue are driven from the affected parts, normal circulation is re-established throughout the pelvic region, the weakened organs become strong again and sturdy manhood is restored.

Reflex and Associate Diseases

Are those which are present and act to aggravate and favor the process of the main malady. We never dismiss a case until cured in every particular. If the case is complicated with Hydrocele (dropsy of the scrotum), Hemorrhoids, Fissures, Fistula, or any form of disease, we cure such additional complaints also, so that the cure may be perfect and permanent.

Reflex effects of all pelvic complaints are destructive to the tone of the Sympathetic [illegible] effects on the general health and strength are demonstrated by such manhood-sapping agents as Varicocele, Stricture, Blood Poison and Discharge producing Virus. We cure both causes and effects and restore men so victimized by their own folly or by inheritance of Blood Taint. Consultation by mail or at office FREE.

REPORT STIRS THE STRIKERS

Statement from Indianapolis of Inducement Offered for New Shopmen.

UNION PACIFIC AGENT IS QUOTED

Says Men Struck to Be Allowed Piece Work and Asserts Company Will Never Recognize Unions.

President Edward Kennedy of the local and district lodges, International Brotherhood of Boilermakers, who is leading the boilermakers in the Union Pacific strike, has received the following statement from a friend in Indianapolis, who clipped it from one of the daily papers of that city:

S. L. Stiles of the auditing department of the Union Pacific railroad is at the Stubbins hotel, looking for recruits to fill positions in the shops of that company at Omaha and Cheyenne. There has been a strike in these shops several months. The employes struck to be allowed to work by the piece and for recognition of their union. The company refused to recognize them and refused to grant the piece work request.

Lately, according to Stiles, many of these union men have returned to work at 32 cents an hour, while they were getting 39 cents an hour formerly, and he insists that the men who will be sent west to fill the positions will not be taking the places of union men, since all but the leaders have been re-employed and are satisfied.

"There is no danger," he says. "The situation is peaceful. The wages offered are good. The day is limited to nine hours and we give transportation. In Omaha good board can be had for $3.50 a week, as cheap as in Indianapolis, and in Cheyenne, where board is higher, we pay 34 cents an hour. For a time we will board the men in the shops free of charge if they are a mind to do that. We want good boiler makers and machinists and these wages are better than are paid in Indiana. The company simply wants to show the union leaders that it will not recognize the union.

Will Take Man and Family.

"If a man with a family can show us that he is worthy we will furnish some sort of facility for getting his family out there. I have hired two men since Friday morning, but I do not hope to get very many here. Every one seems to have a good position, though this condition does not exist in all cities. It also seems to me that there is an exceptionally strong union sentiment in Indianapolis."

It has not been the custom of the Union Pacific to send men from the auditor's department in search of strike breakers. Inspectors are more often selected for this work. The name of S. L. Stiles is not known in the city directory of Omaha and such a person is not believed to be connected with the auditing department of the Union Pacific, but Edward Stiles is one of the company's inspectors and it is the impression of the strikers that he is the man referred and quoted in this statement.

"No matter who it is," said President Kennedy, "he certainly has managed to reverse the facts regarding this strike in the most complete fashion. We are convinced that the man quoted is a representative of the Union Pacific company, for the tale he tells corresponds exactly with what we have been hearing through our friends in the east ever since this strike began. We have been repeatedly advised that the company's agents were employing various forms of deception in order to lure men out here and the newspapers have had evidences of the same things brought to their attention by personal statements of many of the victims who were turned aside in disgust upon arriving to find that conditions were just opposite to what they had been represented.

Most Absurd of All.

"Some absurd and ridiculous statements have been made by the company's men during the progress of this strike, but nothing yet has approached this fellow's statement, that the men struck to be allowed to do piecework. The thing is so basely false that it becomes amusing. Everybody who is at all informed on this strike knows that we struck because piecework was forced upon us. Why, even Mr. Burt admits that. It is a notable fact that the constitutions of the Blacksmiths, Machinists and Boilermakers unions prohibit them from accepting piecework.

"As to wages, the boilermakers were getting, before the strike, 32 cents and asked for 33½. The machinists were getting the same as we and asked for a trifle more than we did. Every representation but one held out by this agent is false and base. He says all the strikers, except the leaders have returned to work and all is peaceful. What a pity John N. Baldwin did not learn of that before he went to all that trouble of getting out his great injunction.

"All is peaceful, so far as we are concerned; that much is true, but not a man of the machinists or boilermakers or blacksmiths is returning to work and the company knows it. We are all more steadfast and determined today than when this strike began and never will return to work until the company accedes to our terms. These false representations made by the company only shows that it is in desperate straits for good mechanics. It has found it practically easy to flood its shops with unskilled laborers, but never has succeeded in getting hold of real mechanics and now as winter approaches it finds itself in a serious predicament. The statement by this man, Stiles, that the company wants to show unions that it will not recognize them is in direct line with our position all along that Mr. Burt has it in for unions and entered upon this fight for the specific purpose of crushing us. But he will fail ignominiously."

BREAK IN THE BIG WATER MAIN

Thirty-Six-Inch Pipe Gives Way and Floods Things on North Twenty-Fourth.

The thirty-six-inch water main along Twenty-fourth street between Florence and South Omaha, burst last night at 8 o'clock about eighty-five feet north of Spencer street. There is, fortunately, a slight down grade from all directions to this intersection and there are four sewer openings so that the water did not do much damage to private property. It, however, rose over the sidewalks, flooded two vacant lots and did some damage in the cellar of the grocery store of A. Newman, 3116 North Twenty-fourth street. The brick block pavement was raised up in a turtle back, extending for about 150 feet south from the point of the break. At about 5 o'clock in the afternoon the pavement was noticed to be wet, but little water leaked out until the big break came with a loud report. The water company was notified early, but the flow was not decreased until after 10 o'clock and the street was full to the curb after 1 o'clock. The cars were not stopped by the break. The pipe is an inch and a quarter thick and has been down for thirteen years.

During the noon intermission luncheon was served to the visiting women, by the women of St. Luke's parish, at the home of Dr. and Mrs. Cook. Scarce as Hen's Teeth

DIAPHANOU'S fabrics are exceedingly fashionable this season and from Parisian advices they will be ever more so in the spring.

VOILES have been so popular that our first direct importation was closed out in a very short time. We have another lot on the way which we hope to receive and open up on Monday. To those who are not familiar with the name would say that a voile fabric is made something like a nun's veiling, only more open mesh—made over silk it makes a dressy garment suitable for almost every occasion—and the silk lining makes it warm enough for almost any temperature. We will show three prices in all the best shades, at $1.00, $1.25 and $1.50. We may be disappointed in delivery, but will surely have them early in the week.

Some great bargains on the dress goods counters for Monday—including hundreds of remnants at half old prices and even less.

Speaking of silk linings—the washable taffeta sold by us will not slip—will not crack—will not pull—it is 27 inches wide. In large eastern cities it sells for $1.25 per yard. We want everybody who uses taffeta to buy "the best in the world for wear"—so offer a selection from 58 shades, including black and white, at $1.00 per yard.

At lace counter we show some handsome new Persian chiffons—so stylish for scarfs, dresses, etc. Peruvian laces, filet laces, point applique, plain and fancy braids for tailor made suits. And please note that buttons are much in vogue for trimming just now—we have just received some new things which aare a pleasure to show.

On Monday we will give you some special bargains in our Drapery Salesroom. First—An assortment of tapestry portieres, in the very latest designs and colorings—delicate tintings and warm Oriental effects, bought to sell from $6 to $8.50. One price for pick on Monday, $4.90 per pair.

READ THIS FROM ANOLD SOLDIER

OMAHA, Neb., Dec. 12, 1900.

CRAMER CHEMICAL Co., Albany, N. Y.:

During the war I contracted a severe case of kidney trouble and upon my return home I employed some of the best doctors in the country, but failed to get anything but temporary relief. One year ago I began taking the Cramer's Kidney Remedy, and before taking one bottle I was satisfied I was getting better. After taking six bottles I was cured and have never had a return of my trouble. Am a well man and feel at least twenty years younger. You are at liberty to publish this statement, as I am anxious to bring this medicine to the attention of all old soldiers whom I know are affected with kidney trouble.
